An American Journey is a captivating tale of America and Americans. In the summer of 1962 James Shaw strapped an army surplus sleeping bag on his 3-speed Raleigh bike and set off from his small-town Nebraska home for the Rocky Mountains. He was fifteen years old and had just read John Steinbeck's "Travels with Charley." Just like Steinbeck, James learned that America is filled with good-hearted characters, like the tobacco-chewing, foul-mouthed pool shark who, upon learning that James was looking for a place to camp, directed the wandering wayfarer to a pastor who let him sleep on his porch. Too old at sixty-five? Fifty years later, James had a few questions: How much has America changed since the days of John F. Kennedy? Are Americans still kind to strangers? And could he, at age sixty-five, bike the thousand-plus miles that lie between Wisconsin and Colorado? On this journey James took along a companion-a weird-looking, small-wheeled bike named Friday. By piquing the curiosity of everyone who saw it, that strange little blue bike introduced James to a fascinating cross section of Americans. From these people James discovered what has changed about America and the many things that are still essentially the same in this great and still wide-open country. An unforgettable cast of characters. You'll meet the people James met-memorable one-of-a-kind, salt-of-the-earth folks. Some days he met so many intriguing people that he rode only a couple of dozen miles. Their stories will inspire you. They will also serve as warnings that this great experiment that is known as America must be safeguarded. Steinbeck warned us-and so do the fascinating people you will meet in "An American Journey." Their stories will remind you of all that is good about America-and just how much we stand to lose if we are not vigilant in protecting our freedoms. Travels with Friday will warm your heart with appreciation for the unique spirit of the American people.

Latin American Journey demonstrates in a unique way how personal and social narrative can illuminate the biblical story. Robert Pazmino's experiences in a South American base community and the barrios of Costa Rica are here translated into fresh and vital proposals for Christian education in North America. Showing the way between fundamentalism of both the right and left, the author brings into creative partnership an often polarized orthodoxy and 'orthopraxy'. A valuable resource for religious educators, pastors, and seminary students." - Gabriel Fackre Abbot Professor of Christian Theology Andover Newton Theological School Pazmino has shown significant creativity in bringing the insights of liberation theology to bear on the discipline of religious education. He has done this in a manner that is directly relevant to a North American audience, and not merely to those curious about Latin American liberation theology. He writes clearly and succinctly, and his book could be valuable in courses on religious education in seminars and colleges. It is a must for

curriculum planners and writers, as well as for directors of Christian education in local churches." - Justo L. Gonzalez Director, Hispanic Summer Program The Fund for Theological Education, Inc. [The American Journey](#) Wiley-Blackwell

Don Ball has been fascinated by railroads all his life. In this book he describes his "journey," in both words and a distillation of the thousands of superb photographs he has made, supplemented by those of many equally devoted rail photographers. In this volume, which complements his earlier

Portrait of the Rails, Don Ball plunges into "real railroad country," far from the beaten path. He highlights his own railroad adventure, really the story of his life, beginning with a nostalgic recollection of his small-town Kansas boyhood. Through the years that followed, he combed nearly every state -- to photograph the last mainline steam locomotive or to get an elusive shot of some short-line railroad. Along the way, the author's informed view of the present and future of railroads emerges. A lifelong observer of the railroad scene, he offers practical suggestions and a bold vision of what may lie ahead. In this re-creation of both the romantic moods and workaday world of America's railroads, Don Ball's eye for drama and profound knowledge of railroading make each picture tell a story.
