Incident Report Log Book
Jones & Bartlett Publishers
OSHA defines an incident
as "an unplanned,
undesired event that
adversely affects
completion of a task." The
Incident Report Book has
been designed to log all
incidents that happen in
your workplace. This will
allow you to monitor and
investigate when an
incident happens and take
corrective action to
ensure it doesn't happen
again. The incident report

book has an interior that is clear and an easy to follow format that will allow your workers to document with ease, encouraging them to report it and it is not bureaucratic and time consuming. The log book is designed in a logical order, starting by asking details of the location where it happened, time, who is making the report and then asking information on the activity carried out, what happened, and actions to make it safe. It then moves onto identifying actions to make sure it doesn't happen again, witness details, and small section for management only to ask if an investigation has been carried out, action taken, and additional control measures required that will need to be planned, budgeted etc. All this information is on one page and then on the back page there is space for notes, additional information, or early investigation information. Incident Reports are then used to inform risk assessments and to help ensure that serious injuries and accidents do not occur in the future. The book contains 70 incident report forms - 142 pages in total. An

ideal format 8.5" x 11" (A4) to ensure there is adequate space to capture all the information needed. This log book should be positioned in an easily accessible location, and when a report is completed it should be removed from the book to ensure confidentiality. The benefits of an Incident Report Book: Helps obtain information about high risk incidents Collects information that a business can use to prevent future incidents and prevent losses Identifies weaknesses in policies, processes, and arrangements Can reveal patterns over time helping to highlight risks and learn lessons The reporting of incidents allows an employer to learn from issues that have occurred and change practices or fix problems before a serious incident occurs. Be compliant and be proactive. Start documenting your incidents and encourage your workers to report incidents.
