Arthur Wallis offers this balanced study on fasting, and seeks to give to the subject the weight that Scripture gives it while also avoiding exaggeration and over-emphasis. This book includes a biblical index, and an appendix dealing

with the textual problems surrounding four references to fasting in the New Testament.

"For the word of God is living, and active, and sharper than any two-edged sword, and piercing even to the dividing of soul and spirit, of both joints and marrow, and quick to discover the thoughts and intents of the heart" (Heb. 4:12). The peril of the believer is to confuse the spirit for the soul and the soul for the spirit, and so be deceived into accepting the counterfeit of evil spirits to the unsettling of God's work. The greatest advantage in knowing the difference between spirit and soul is perceiving the latent power of the soul and in understanding its falsification of the

power of the Holy Spirit. Such knowledge is not theoretical but practical in helping people to walk in God's way. In this book, Watchman Nee shares his insight on *The Latent Power of The Soul, The Christian and Psychic Force, and Spirit Force vs Psychic Force*. Nowadays the atmosphere is so charged with the commotion of all kinds of counterfeit that the Lord seems to be calling the Church to come to a higher ground. Today's situation is perilous. May we "prove all things; hold fast that which is good" (1Thes. 5:21)

"This is not a book to promote tranquility, and readers in quest of peace of mind should look elsewhere," writes

Paul Fussell in the foreword to this original, sharp, tart, and thoroughly engaging work. The celebrated author focuses his lethal wit on habitual euphemizers, artistically pretentious third-rate novelists, sexual puritans, and the "Disneyfiers of life". He moves from the inflammatory title piece on the morality of dropping the bomb on Hiroshima to a hilarious disquisition on the "naturist movement", to essays on the meaning of the Indy 500 race, on George Orwell, and on the shift in men's chivalric impulses toward their mothers. Fussell's "frighteningly acute eye for the manners, mores, and cultural tastes of Americans" (The New York Times Book Review) is abundantly evident in this entertaining dissection of the enemies of truth, beauty, and justice

What Does God Think about Technology? From smartphones to self-driving cars to space travel, new technologies can inspire us. But the breakneck pace of change can also frighten us. So how do Christians walk by faith through the innovations of Silicon Valley? And how does God relate to our most powerful innovators? To build a biblical theology of technology, journalist and tech optimist Tony Reinke examines nine key texts from Scripture to show how the world's discoveries are divinely orchestrated. Ultimately, what we believe about God determines how we respond to human invention. With the help of several theologians and inventors throughout history, Reinke dispels

twelve common myths in the church and offers fourteen ethical convictions to help Christians live by faith in the age of big tech. Biblical, Informed Look at Technology: Written by the author of 12 Ways Your Phone Is Changing You and Competing Spectacles: Treasuring Christ in the Media Age Gathers Ideas from Industry Experts and Theologians: Interacts with Christian and non-Christian sources on technology and theology including John Calvin, Herman Bavinck, Wendell Berry, and Elon Musk Educational: Discusses the history and philosophy behind major technological innovations

Atomic Power With God Thru Fasting and Prayer is a short work by the spirited

evangelist Franklin Hall. The book describes how prayer during extended fasts can heal the body and soul, and bring practitioners greater spiritual power to exalt and glorify Jesus Christ. Franklin Hall was born in Coffeyville, Kansas, in 1909. Hall's father died when Franklin was only twelve, leaving him distraught with both his loss and the responsibility of supporting his mother and five younger siblings. During these hard times, he looked to the local Pentecostal church for guidance. The church became a major influence on the lives of the young Hall children and their widowed mother, who remarried the reverend soon after. Hall began his own traveling ministry during the Great Depression. But he didn't become well known among evangelicals until the

release of his first book, Atomic Power With God Thru Fasting and Prayer, in 1946. In the book, Hall described his own introduction to fasting and prayer through friendship with a Oklahoma family advocating the practice in 1932. He fasted and prayed with them in anticipation of a large revival-and at the ensuing event, "scores of people were healed of all types of afflictions." He became convinced of the power of fasting and began to preach its efficacy as he traveled. In 1946, a group of "Holy Ghost people" began a long session of prayer and fasting, lasting between ten and forty days. According to Hall, they experienced a great spiritual awakening. Some even found healing of physical ailments during the fast. As word of the event spread, Hall found that there was

heavy demand for more information about the power of fasting and prayer. Later that same year, Hall wrote Atomic Power. The book explores how fasting intensifies prayer by "[bringing] unity and [filling] us with the glory of God." Through the combination of these two acts, he believed one could enhance their "spiritual appetites" and curtail their hunger, sex, and greed appetites- thereby uncovering their "spiritual atomic power with God that lies available to every Christian." Hall acknowledged that fasting and prayer were not new. Beyond the multiple examples from the Bible, and specifically from the life of Christ, he cited the fasting and prayer of Native Americans and Muslims who abstained from food as a regular part of their devotional

exercises. In addition to the why of fasting, the book explained how one should fast. A complete fast, Hall wrote, should last from the time hunger leaves to the time hunger returns-usually 21 to 40 days. Water should be consumed in abundance to clean out the stomach and intestines of waste. And when it's time to break the fast, Hall provided a detailed breakdown of what to eat and when. Atomic Power brought success and notoriety to Hall, who continued to travel across the country evangelizing to crowds of up to 5,000 people. Immediately after Atomic Power, he published *The Fasting Prayer* in 1947 and *Glorified Fasting: The ABC of Fasting* in 1948. He published a total of 17 books during his lifetime. Hall and his wife, Helen, founded the Hall Deliverance

Foundation in the mid-1950s. This alliance of churches and ministries followed Hall's teachings for fasting and prayer. The couple also started *Miracle Word*, a ministry newsletter that had 24,000 subscribers worldwide at its peak. Some other evangelists and Pentecostals did not agree with Hall's teachings. Still, fasting had staunch believers through the 1950s and beyond, including some notable evangelists like Gordon Lindsay, William Branham, and Orval Jagers. Hall's work has now been inspiring Christians to explore the benefits of fasting on their physical and spiritual health for over 70 years.

A great many passages in this book testify to Charles Fillmore's persistent interest in what is popularly called

atomic energy and the promise held out by its development of a better world for mankind. From another standpoint Charles Fillmore's mind was simply fascinated by the idea of the atom, this infinitesimal particle of substance, and the enormous energy locked up in it. At times he thought of it as the most perfect representation in the manifest world of that divine mental or spiritual energy which pervades all things and which, when properly expressed through the minds of His children, serves so greatly to glorify God. At other times he thought of it as the very essence of this mental or spiritual energy, Spirit-mind itself! The reader will find each one of these standpoints set forth over and over--perhaps vaguely and mystically at times--but ever testifying to the

alertness and vitality of Charles Fillmore's mind and his unflinching interest in everything in his world. In this intimate book of inspiration, Tyler Perry writes of how his faith has sustained him in hard times, centered him in good times, and enriched his life. [Higher Is Waiting](#) is a spiritual guidebook, a collection of teachings culled from the experiences of a lifetime, meant to inspire readers to climb higher in their own lives and pull themselves up to a better, more fulfilling place. Beginning with his earliest memories of growing up a shy boy in New Orleans, Perry recalls the moments of grace and beauty in a childhood marked by brutality, deprivation, and fear. With tenderness he sketches portraits of the people who sustained him and taught him indelible lessons about integrity,

trust in God, and the power of forgiveness: his aunt Mae, who cared for her grandfather, who was born a slave, and sewed quilts that told a story of generations; Mr. Butler, a blind man of remarkable dignity and elegance, who sold penny candies on a street corner; and his beloved mother, Maxine, who endured abuse, financial hardship, and the daily injustices of growing up in the Jim Crow South yet whose fierce love for her son burned bright and never dimmed. Perry writes of how he nurtured his dreams and discovered solace in nature, and of his resolute determination to reach ever higher. Perry vividly and movingly describes his growing awareness of God's presence in his life, how he learned to tune in to His voice, to persevere through hard times, and to

choose faith over fear. Here he is: the devoted son, the loving father, the steadfast friend, the naturalist, the philanthropist, the creative spirit—a man whose life lessons and insights into scripture are a gift offered with generosity, humility, and love.

Fear and hatred stalk the world today. No one knows to what use men will put the newly discovered force of atomic energy. Many other devices of power would bring to pass the signs preceding the second coming of Christ as foretold in Luke 21:26: "Men's hearts failing them for fear, for the powers of heaven shall be shaken." And the cause of it all is the sad fact that man's spiritual development has lagged far behind his

scientific development, with his many inventions and discoveries of the physical forces of nature. Spiritually and emotionally, mankind as a whole is not far removed from the jungles, and is therefore, incapable of handling the forces of nature that science has unleashed. Physical power, sufficient to disintegrate the entire world, is at the fingertips of a few, but there has been almost no development of spiritual power to control it. We have been wandering in the wilderness. This spiritual power is actually within the reach of all followers of Christ. It is not so much that it has been forgotten, but rather that it has never been taught and learned. "The message of the Gospel is the power of God unto Salvation." Rom. 1:16. But we have overlooked a certain

fundamental part of the Gospel message. The writer shall endeavor to present a spiritual atomic power far greater than the physical force of all the atoms in the universe. Jesus Christ has made this power available to all His people, who will follow His Gospel pattern.

On August 9, 1945, an American B-29 dropped an atomic bomb on Nagasaki, Japan, killing tens of thousands of people

in the blink of an eye, while fatally injuring and poisoning thousands more. Among the survivors was Takashi Nagai, a pioneer in radiology research and a convert to the Catholic Faith. Living in the rubble of the ruined city and suffering from leukemia caused by over-exposure to radiation, Nagai lived out the remainder of his remarkable life by bringing physical and spiritual healing to his war-weary people. A Song for Nagasaki tells the moving story of this extraordinary man, beginning with his boyhood and the heroic tales and stoic virtues of his family's Shinto religion. It reveals the inspiring story of Nagai's remarkable spiritual journey from Shintoism to atheism to Catholicism. Mixed with interesting details about Japanese history and culture, the

biography traces Nagai's spiritual quest as he studied medicine at Nagasaki University, served as a medic with the Japanese army during its occupation of Manchuria, and returned to Nagasaki to dedicate himself to the science of radiology. The historic Catholic district of the city, where Nagai became a Catholic and began a family, was ground zero for the atomic bomb. After the bomb disaster that killed thousands, including Nagai's beloved wife, Nagai, then Dean of Radiology at Nagasaki University, threw himself into service to the countless victims of the bomb explosion, even though it meant deadly exposure to the radiation which eventually would cause his own death. While dying, he also wrote powerful books that became best-sellers in Japan. These included The

Bells of Nagasaki, which resonated deeply with the Japanese people in their great suffering as it explores the Christian message of love and forgiveness. Nagai became a highly revered man and is considered a saint by many Japanese people.

Unlocking Kingdom Power Ravenio Books
The renowned science writer, mathematician, and bestselling author of Fermat's Last Theorem masterfully refutes the overreaching claims the "New Atheists," providing millions of educated believers with a clear, engaging explanation of what science really says, how there's still much space for the Divine in the universe, and why faith in both God and empirical science are not mutually exclusive. A highly publicized coterie of scientists and

thinkers, including Richard Dawkins, the late Christopher Hitchens, and Lawrence Krauss, have vehemently contended that breakthroughs in modern science have disproven the existence of God, asserting that we must accept that the creation of the universe came out of nothing, that religion is evil, that evolution fully explains the dazzling complexity of life, and more. In this much-needed book, science journalist Amir Aczel profoundly disagrees and conclusively demonstrates that science has not, as yet, provided any definitive proof refuting the existence of God. *Why Science Does Not Disprove God* is his brilliant and incisive analyses of the theories and findings of such titans as Albert Einstein, Roger Penrose, Alan Guth, and Charles Darwin, all of whose

major breakthroughs leave open the possibility— and even the strong likelihood—of a Creator. Bolstering his argument, Aczel lucidly discourses on arcane aspects of physics to reveal how quantum theory, the anthropic principle, the fine-tuned dance of protons and quarks, the existence of anti-matter and the theory of parallel universes, also fail to disprove God.
