 Written by a successful former Commodities trader in the City of London this book is an essential guide for anyone looking to make money from betting on Tennis markets. Since the advent of Betfair and other betting exchanges the author has developed tried and tested systems that apply the principles of financial trading to tennis matches with great success. The genius of this book is the authors ability to describe these systems in laymans terms

that even a novice gambler can understand and put into effect. This includes a step by step guide complete with annotated screenshots showing how and when to place bets and when to close them for immediate profits and minimal loss. This book should be a bible to anyone who wants to make money betting on tennis matches. If you want to change your life and increase your finances today then reading this book would be a great place to start!

 I have written many books about UK horse racing betting systems e.g horse laying in 6f 7f races, horse dutching to 35% book, large betfair place market decimal odds betting systems and many more. I have been able to do this as I have modelled these horse racing betting systems on my own database using my own computer code. I am fortunate I have I.T background and have computer science degree which has helped me a

great deal in my quest for the perfect horse racing systems. This book is different as I feel that this horse racing betting system helps punters see the light when selecting horses for a bet. The system is so simple to follow that punters who have busy lives can apply this system very quickly and accurately. The system uses the free racing post on the internet so there are no further costs. The book is priced to reflect 'seeing the light' many punters are in the dark!

The past decade has seen a technological revolution in facilities for betting on horse-racing and other sports. Today, the leading betting exchange, Betfair, matches 15 times as many daily transactions as the London Stock Exchange. Automatic Profits examines this exciting phenomenon, defining each stage of automating the betting process and looking at opportunities, best practice and pitfalls,

and provides a practical guide for any player who wants to explore the potential for automatic betting.

I have deliberately kept all the waffle to a minimum in the eBook and have only focused on the horse laying system essentials as this is the important bit. What I suggest is that you make yourself familiar with the lay system before you start placing lay

bets/trades. However you could try with small stakes first so as not to miss out. The eBook assumes you are familiar with laying horses as compared to backing horses and understand decimal odds on betting exchanges like Betfair. What You Need To Get Started? A good understanding of Betting exchanges like Betfair and Betdaq and decimal odds. More importantly understanding what laying a horse means. When we lay a horse we are saying that we think

the horse will get beaten. Most people back horses to win! You will need access to the internet and the Betfair Exchange website

 or Betdaq exchange

 Focusing on betting and horse racing, the author sets out to arm punters with a sweeping analysis of profitable approaches. He covers various aspects of betting successfully in the internet age including strategy, psychology,

money management, spread betting, the exchanges, and practical recommendations to help you win money.

We've recently witnessed the biggest revolution in 200 years of legal gambling. The way we bet has been transformed: exchanges allow us to make a bet not with a bookmaker, but on the internet with anyone who has money and an opinion. There are now many more ways and

places to bet, many more games to bet on, and many more ways to find the 'edge' that may be your path to profit. It's well known that the house never loses, so how do you make sure that you have the best chance of beating the odds? Beat the odds is the insider guide to successful gambling - we can't guarantee you'll hit the jackpot, nor can we promise you you'll get to keep your shirt, but with the expert tips and advice provided inside you'll be off to a flying start in

making your gambling a hobby that pays for itself. With advice for everyone from novices to those who hustle like James Bond, Beat the odds will provide you with 52 brilliant ideas to revolutionise your returns.

 The system works for UK  
 Handicap and Non  
 Handicap races but I tend  
 to favour Handicap races  
 as the prices are larger. I  
 will concentrate only on  
 Handicap races in this  
 book. In summary the  
 system works on two form  
 variables that can be  
 obtained from the Racing  
 Post website and a race  
 can be assessed in 5  
 minutes. This horse racing  
 system can find winners  
 of a UK horse race very

quickly and allows punters  
 who have busy lives to  
 assess horse form very  
 quickly. I wrote this horse  
 racing system as I had  
 many emails from punters  
 who wanted to have a bet  
 on Saturday or day at the  
 races but did not want to  
 spend hours reading  
 horse form. This system  
 can benefit novice to  
 professional punters.

I graduated from University with a computer science degree many years ago when a degree meant something! I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle. I started my own computer business in my early 20's where I made good money and travelled across Europe. It was at

this point in my life I decided to start a horse tipping business where I had weekly full page colour adverts in the Racing Post at £2K per advert and offices. I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business. In my late 30's around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed

horse racing form. It was over a period of 2 years that I concentrated my efforts on UK handicap races in conjunction with the betting exchange Betfair. This is where I believed maximum profit could be gained. The computer model allowed me to process 100's of handicap races per day and then formulate my system tweaking a horse's weight and BHB or OR ( Official Rating ). I must confess this was a difficult puzzle to crack even with a computer program that I wrote to

crunch the data. I eventually found the correct weight and BHB rating for a horse based on it's last performances in handicap races. This eBook outlines this system and can be manually applied easily using the Racing Post on the internet.

The methods and angles that follow have been among Ken Osterman's favorites over the years. They have been developed and tested on

races at racetracks all over the country. There are systems that cover all three main breeds of horse racing: thoroughbreds, quarter horses, and standardbreds. The rules of the handicapping angle are clearly explained and easy to find horses that qualify for a bet. There are a couple of systems that use that tote board and require no past performances. These are systems that Ken Osterman has used successfully at race and sports books. The rules for

each system are clearly explained, so it is understood why they work. Tips for improving these systems are also provided. Here is the list of the systems

He has given this method the audacious title of, "The Most Powerful System Ever Devised for Thoroughbred Race Betting." In many ways it	is the most powerful method because it is based upon solid mathematics and statistics. It can also be applied at any track, at any distance, for winning horses, three year old and upward, carded at any track in the United States or Canada. This method can be used as a handicapping system all by itself, but what makes it even more attractive as a handicapping method is that it fits with other methods. You can use this method first, and then apply your favorite

handicapping approach to the remainder of the field. Alternatively, you can do the opposite, and start with your handicapping approach. After finding what you believe to be the winner of the race, you can then apply this method to your choice. This will give your selection greater validity and strength, or it may give you a reality check by pointing out the weakness of your choice. Along with the title method, there are a wide range of spot plays (angles) in this book,
