Berklee Jazz Drums Verso Books

Now on Netflix as a 4-part documentary series! "Pollan keeps you turning the pages . . . clear-eyed and assured." —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's "mental travelogue" is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

Cultural critic Fredric Jameson, renowned for his incisive studies of the passage of modernism to postmodernism, returns to the movement that dramatically broke with all tradition in search of progress for the first time since his acclaimed *A Singular Modernity*. *The Modernist Papers* is a tour de force of analysis and criticism, in which Jameson brings his dynamic and acute thought to bear on the modernist literature of the nineteenth and twentieth centuries. Jameson discusses modernist poetics, including intensive discussions of the work of Baudelaire, Rimbaud, Mallarmé, Wallace Stevens, Joyce, Proust, and Thomas Mann. He explores the peculiarities of the American literary field, taking in William Carlos Williams and the American epic, and examines the language theories of Gertrude Stein. Refusing to see modernism as simply a Western phenomenon he also pays close attention to its Japanese expression; while the complexities of a late modernist representation of twentieth-century politics are articulated in a concluding section on Peter Weiss's novel *The Aesthetics of Resistance*. Challenging our previous understanding of the literature of this period, this monumental work will come to be regarded as the classic study of modernism.

Developing a concept briefly introduced in *Counterrevolution and Revolt*, Marcuse here addresses the shortcomings of Marxist aesthetic theory and explores a dialectical aesthetic in which art functions as the conscience of society. Marcuse argues that art is the only form or expression that can take up where religion and philosophy fail and contends that aesthetics offers the last refuge for two-dimensional criticism in a one-dimensional society.

Thee Temple ov Psychick Youth (TOPY) will be remembered for its crucial influence on youth culture

throughout the 1980s, popularizing tattooing, body piercing, "acid house" raves, and other ahead-of-the-curve cultic flirtations and investigations. Its leader was Genesis P-Orridge, co-founder of Psychick TV and Throbbing Gristle, the band that created the industrial music genre. The limited signed cloth edition of *Thee Psychick Bible* quickly sold out, creating demand for any edition of this 544-page book, which will be available in a handsome Smyth-sewn paperback edition with flaps and ribbon. According to author Genesis Breyer P-Orridge, "this is the most profound new manual on practical magick, taking it from its Crowleyan empowerment of the Individual to a next level of realization to evolve our species."

The lessons in *Rhythm and Drumming Demystified* (R.A.D.D.) utilize a process of adapting the rudiments---and the countless variations and grooves they spawn---to the framework of five systems of common rhythmic figures, as a means to increase one's control and flexibility with any sticking or time-feel. The book also contains a groundbreaking system for using the voice to develop one's "internal clock." By using this system, drummers can improve their groove by learning to generate time with their mind and allow their body to simply be a conduit between their perception of the time and its manifestation on the drumset.

Written by drummer/educator Dave DiCenso, *Universal Rhythms for Drumset* is a workbook with a concept designed to help demystify the drummer's creative process. Working from the notion that the majority of Western music is built upon five simple rhythmic phrases, DiCenso offers creative tools that demonstrate how to identify, interpret, and manipulate this five-rhythm alphabet in order to improve one's understanding of rhythm as a language and one's ability to speak it on a set of drums. By applying an innovative eight-step "mastery system" to each lesson, the reader is challenged to go beyond muscle memory and improve cerebral skills such as pulse/space/shape awareness within any groove, fill, embellishment, or solo; getting ideas to flow seamlessly from mind to limbs to drums; understanding the space other musicians occupy to make informed musical choices and create a deeper band pocket. Lessons that include over 500 exercises covering 28 drumming styles are all based upon only five rhythms, and all examples in the book are performed by the author on the included MP3 CD.

Ideas are the currency of the twenty-first century. In order to succeed, you need to be able to sell your ideas persuasively. This ability is the single greatest skill that will help you accomplish your dreams. Many people have a fear of public speaking or are insecure about their ability to give a successful presentation. Now public speaking coach and bestselling author Carmine Gallo explores what makes a great presentation by examining the widely acclaimed TED Talks, which have redefined the elements of a successful presentation and become the gold standard for public speaking. TED ? which stands for technology, entertainment, and design ? brings together the world's leading thinkers. These are the presentations that set the world on fire, and the techniques that top TED speakers use will make any presentation more dynamic, fire up any team, and give anyone the confidence to overcome their fear of public speaking. In his book, Carmine Gallo has broken down hundreds of TED talks and interviewed the most popular TED presenters, as well as the top researchers in the fields of psychology, communications, and neuroscience to reveal the nine secrets of all successful TED presentations. Gallo's step-by-step method makes it possible for anyone to deliver a presentation that is engaging, persuasive, and memorable. Carmine Gallo's top 10 Wall Street Journal Bestseller *Talk Like TED* will give anyone who is insecure about their public speaking abilities the tools to communicate the ideas that matter most to them, the skill to win over hearts and minds, and the confidence to deliver the talk of their lives. The opinions expressed by Carmine Gallo in *TALK LIKE TED* are his own. His book is not endorsed, sponsored or authorized by TED Conferences, LLC or its affiliates.

Computing is transforming how we interact with music. New theories and new technologies have emerged that present fresh challenges and novel perspectives for researchers and practitioners in music and human-computer interaction (HCI). In this collection, the interdisciplinary field of music interaction is considered from multiple viewpoints: designers, interaction researchers, performers, composers, audiences, teachers and learners, dancers and gamers. The book comprises both

original research in music interaction and reflections from leading researchers and practitioners in the field. It explores a breadth of HCI perspectives and methodologies: from universal approaches to situated research within particular cultural and aesthetic contexts. Likewise, it is musically diverse, from experimental to popular, classical to folk, including tango, laptop orchestras, composition and free improvisation.

Poet, critic, and hybrid-genre artist Johnson tracks the use of trouble in word, concept, and practice in this debut of brief, elliptical, lyric essays. He moves through a wide swath of 20th- and 21st-century music, always alert to a sense of melancholy shared among songwriters, their songs, and their listeners in the ever-growing web of popular music. "When we say 'trouble,' we refer to the history of trouble whether or not we have it in mind. When we sing trouble, we sing (with) history," Johnson writes. "A Trouble Song is a complaint, a grievance, an aside, a come-on, a confession, an admission, a resignation, a plea. It's an invitation-to sorrow." The effect of all this trouble is dizzying. Highly annotated-often to personal, humorous, and hidden effects-the book weaves among genres, chronologies, and various forms of trouble to ask "Where are we in song? Who are we in song?" Johnson suggests that an answer lies somewhere in the locus of singer, song, and listener-the "essential relations in the Trouble Song." Detouring into philosophy, cultural theory, and verse, Johnson works multilaterally to explore what trouble in popular music does to connect listeners, embolden them, and open a space from which trouble can be addressed across time.

Performance artist Linda Montano, curious about the influence childhood experience has on adult work, invited other performance artists to consider how early events associated with sex, food, money/fame, or death/ritual resurfaced in their later work. The result is an original and compelling talking performance that documents the production of art in an important and often misunderstood community. Among the more than 100 artists Montano interviewed from 1979 to 1989 were John Cage, Suzanne Lacy, Faith Ringgold, Dick Higgins, Annie Sprinkle, Allan Kaprow, Meredith Monk, Eric Bogosian, Adrian Piper, Karen Finley, and Kim Jones. Her discussions with them focused on the relationship between art and life, history and memory, the individual and society, and the potential for individual and social change. The interviews highlight complex issues in performance art, including the role of identity in performer-audience relationships and art as an exploration of everyday conventions rather than a demonstration of virtuosity.
