This book draws upon contemporary Irish and international research which explores the critical interplay between education studies and sexualities. Scholars from Ireland, Canada, Spain, the U.K. and Sweden employ the conceptual lens of Queer Theory to interrogate and destabilise long-standing regimes of truth/knowledge, and in so doing, highlight the suitability and applicability of this theoretical perspective within educational discourses. By reframing and repositioning gender identity/expression as a performative expression on a fluid continuum, this book provokes readers to (re)view how they see education, pedagogy and schooling. The book interrogates what happens to teaching, and teachers, when queerness permeates their practice, thus exposing the ways in which heteronormativity informs and shapes our places/sites of education. This book was originally published as a special issue of the Irish Educational Studies journal. Creating Your High School Resume Routledge

Packed with resources to help parents make sense of the college application process, conduct a college search, and help guide

their child's completion of their college application. The author has included a variety of tools to compare one school to another, keep track of important application deadlines, and track possible scholarship aid. Readers from around the world have praised its value to parents who want to make sense of the college gauntlet without hovering and taking control away from their children. One reviewer has written: Stuart White's new book takes a unique focus on the role of the parent of one of the hundreds of thousands of overachieving high schoolers. Whereas most books are written for parents that micro manage and compel their children into the high achiever stereotype, Prof. White's book centers on a rather beautiful love story between him and his daughter as she went through the college admission process. Another reader has written: Thank you for sharing your helpful guide to the college application process. I have read many articles and listened to many podcasts regarding the process, yet still learned more from your book. I appreciated your openness and candidness regarding helicopter parenting. I think it's important to include that advice in this book, as most people reading a book like this will lean toward the helicopter side of parenting. The author's side by side journey with his daughter ended with her admission to Yale University.
