NEW YORK TIMES BESTSELLER • In *Slaying the Tiger*, one of today's boldest young sportswriters spends a season inside the ropes alongside the rising stars who are transforming the game of golf. For more than a decade, golf was dominated by one galvanizing figure: Eldrick "Tiger" Woods. But as his star has fallen, a new, ambitious generation has stepped up to claim the crown. Once the domain of veterans, golf saw a youth revolution in 2014. In *Slaying the Tiger*, Shane Ryan introduces us to the volatile, colorful crop of heirs apparent who are storming the barricades of this traditionally old-fashioned sport. As the golf writer for Bill Simmons's *Grantland*, Shane Ryan is the perfect herald for the sport's new age. In *Slaying the Tiger*, he embeds himself for a season on the PGA Tour, where he finds the game far removed from the genteel rhythms of yesteryear. Instead, he discovers a group of mercurial talents driven to greatness by their fear of failure and their relentless perfectionism. From Augusta to Scotland, with an irreverent and energetic voice, Ryan documents every transcendent moment, every press tent tirade, and every controversy that made the 2014 Tour one of the most exciting and unpredictable in recent memory. Here are indelibly drawn profiles of the game's young guns: Rory McIlroy, the Northern Irish ace who stepped forward as the game's next superstar; Patrick Reed, a brash, boastful competitor with a warrior's mentality; Dustin Johnson, the brilliant natural talent whose private habits sabotage his potential; and Jason Day, a resilient Aussie whose hardscrabble beginnings make him the Tour's ultimate longshot.

Here also is the bumptious Bubba Watson, a devout Christian known for his unsportsmanlike outbursts on the golf course; Keegan Bradley, a flinty New Englander who plays with a colossal chip on his shoulder; twenty-one-year-old Jordan Spieth, a preternaturally mature Texan carrying the hopes of the golf establishment; and Rickie Fowler, the humble California kid striving to make his golf speak louder than his bright orange clothes. Bound by their talent, each one hungrier than the last, these players will vie over the coming decade for the right to be called the next king of the game. Golf may be slow to change, but in 2014, the wheels were turning at a feverish pace. *Slaying the Tiger* offers a dynamic snapshot of a rapidly evolving sport. Praise for *Slaying the Tiger* "This book is going to be controversial. There is no question about it. . . . It is the most unvarnished view of the tour—the biggest tour in the world—that I've ever read. And it's not close."—Gary Williams, Golf Channel "A must-read for PGA Tour fans from the casual to the most dedicated . . . This book is certain to be as important to this era as [John] Feinstein's [*A Good Walk Spoiled*] was two decades ago. . . . A well-researched, in-depth look at the men who inhabit the highest levels of the game."—Examiner.com "A masterfully written account of an important time in golf history."—Adam Fonseca, *Golf Unfiltered* "Absolutely marvelous . . . Ryan's writing flows and his reporting turns pages for you."—Kyle Porter, CBS Sports "A riveting read."—Library Journal "Ryan's fresh look is just what we golfer/readers want."—Curt Sampson, New York Times bestselling author of *Hogan* "Ryan does a fantastic job painting a thoughtful and accurate portrait of the new crop of heirs

apparent.”—Stephanie Wei, *Wei Under Par*

Training Circular (TC) 3-09.81, "Field Artillery Manual Cannon Gunnery," sets forth the doctrine pertaining to the employment of artillery fires. It explains all aspects of the manual cannon gunnery problem and presents a practical application of the science of ballistics. It includes step-by-step instructions for manually solving the gunnery problem which can be applied within the framework of decisive action or unified land operations. It is applicable to any Army personnel at the battalion or battery responsible to delivered field artillery fires. The principal audience for ATP 3-09.42 is all members of the Profession of Arms. This includes field artillery Soldiers and combined arms chain of command field and company grade officers, middle-grade and senior noncommissioned officers (NCO), and battalion and squadron command groups and staffs. This manual also provides guidance for division and corps leaders and staffs in training for and employment of the BCT in decisive action. This publication may also be used by other Army organizations to assist in their planning for support of battalions. This manual builds on the collective knowledge and experience gained through recent operations, numerous exercises, and the deliberate process of informed reasoning. It is rooted in time-tested principles and fundamentals, while accommodating new technologies and diverse threats to national security.

Foundations of Education: An EMS Approach Princeton Review

This modern classic of golf instruction by renowned teacher Manuel de la Torre (the 1986 PGA Teacher of the Year and the #11 teacher in America as ranked by

the editors of Golf Digest in 2007) presents a simpler approach to the golf swing based on Ernest Jones's principles. *Understanding the Golf Swing* includes information on the philosophy of the golf swing (with emphasis on the development of a true swinging motion), the most thorough analysis of ball flights available, and analysis of the principles of special shot play (including sand play, pitching, chipping, putting, and playing unusual shots) and the mental side of golf and effective course management. The final chapter offers an organized approach to understanding golf courses and playing conditions. The result is a blend of philosophy and practical advice found in few golf instructional books.

Authored by an acknowledged expert on muscle and movement imbalances, this well illustrated book presents a classification system of mechanical pain syndromes that is designed to direct the exercise prescription and the correction of faulty movement patterns. The diagnostic categories, associated muscle and movement imbalances, recommendations for treatment, examination, exercise principles, specific corrective exercises, and modification of functional activities for case management are described in detail.

This book is designed to give practitioners an organized and structured method of analyzing the mechanical cause of movement impairment syndrome, the contributing factors and a strategy for management.

* Provides the tools for the physical therapist to identify movement imbalances, establish the relevant diagnosis, develop the corrective exercise prescription and carefully instruct the patient about how to carry

out the exercise program. * Authored by the acknowledged expert on movement system imbalances. * Covers both the evaluation process and therapeutic treatment. * Detailed descriptions of exercises for the student or practitioner. * Includes handouts to be photocopied and given to the patient for future reference.
