 The story of American heroes kept by our country's enemies and Washington's failure to recover them reads like a cross between "The Manchurian Candidate" and "Foreign Affairs." It uncovers decades of secrets and incompetence, right up to the Obama Administration, and reveals how Moscow, Beijing, and Pyongyang continue to thwart America today. Filled with previously secret documents and photos. Based on years of research around the world by an investigative historian and former Special Forces officer teamed with the POW/MIA expert son of a missing Korean War flyer, it is by turns both enthralling and upsetting. This book rips the lid off the one of the most disturbing scandals in modern US history. As you read the book, join our community to help with investigations the Pentagon and CIA can't -- or won't -- do themselves. Decipher names on declassified documents, track down Chinese and Russian officials and identify POWs in captured enemy film: cynicalattitude.com A "fascinating, disturbing and important book...America has to read it." Sydney Schanberg, Pulitzer Prize-winning reporter and inspiration for the Academy Award-winning film "The Killing Fields." Wall Street Journal: "Independent researcher Mark Sauter and John Zimmerlee, the son of a missing-in-action U.S. Air Force serviceman, argue in a new e-book, that U.S. incompetence, combined with a desire to downplay the issue amid on-again-off-again negotiations with North Korea, have trumped the military's 'no man left behind' imperative. The two men also say that there is some evidence that American soldiers may still be alive in North Korea today..." Associated Press: "Mark Sauter, a private researcher and co-author with John Zimmerlee of 'American Trophies and Washington's Cynical Attitude,' an e-book about POWs to be published this month, found in government archives a U.S. intelligence report from August 1955, two years after the war, calling for a bigger intelligence effort to learn about such POW transfers." Drudge Report: "Book: USA left POWs behind in NKorea, China, Russia..." The Washington Free Beacon: "The book, American Trophies: How American POWs Were Surrendered to North Korea, China, and Russia by Washington's 'Cynical Attitude,' includes numerous cases of missing Americans from the Korean War, along with several from the Cold War and Vietnam War. It is based on years of research, interviews, and documents by the authors, Sauter and John Zimmerlee. Declassified intelligence reports obtained by the authors reveal that Americans were being held captive in China, North Korea, and the Soviet Union at least through the 1990s." Includes information on Korean War POWs in North Korean, Chinese and Soviet prisons; Vietnam War POWs reportedly taken to North Korea; Chinese espionage; North Korean/DPRK "salting" of American remains; KGB exploitation of US POWs; North Korea human rights/DPRK human rights; communist torture and brainwashing; Cold War history; covert action (requested by the Air Force Chief of Staff to rescue American POWs the year after the war ended); Korean War special operations; Cold War spy flights; Korean War history; Truman Administration; F-86; US-China conflicts; Soviet prison system, the Gulag; World War II prisoners of war, including German and Japanese POWs who reported Americans in Siberia; North Korean prison camps; North Korean military and government; Freedom of Information Act; North Korean agents; escapes; espionage; real-life adventures; real-life mysteries; B-29; new information on the Eisenhower Administration; F-51; Obama Administration mismanagement; National Archives; declassification and secrecy; the Punch Bowl; JPAC; 2nd ID; DPMO; Pentagon secrets; CIA operations; military intelligence collection; Korean DMZ; North Korean abductions; Stalin; Chou En-lai; US defectors; surveillance flights; and untold US diplomatic history.

This multivolume set is much more than a collection of essays on sports and sporting cultures from around the world: it also details how and why sports are played wherever they exist, and examines key charismatic athletes from around the world who have transcended their sports. *Sports Around the World: History, Culture, and Practice* provides a unique, global overview of sports and sports cultures. Unlike most works of this type, this book provides both essays that examine general topics, such as globalization and sport, international relations and sport, and tourism and sport, as well as essays on sports history, culture, and practice in world regions—for example, Latin America and the Caribbean, the Middle East and North Africa, Europe, and Oceania—in order to provide a more global perspective. These essays are followed by entries on specific sports, world athletes, stadiums and arenas, famous games and matches, and major controversies. Spanning topics as varied as modern professional cycling to the fictional movie *Rocky* to the deadly ball game of the ancient Mayans, the first three volumes contain overview essays and entries for specific sports that have been and are currently practiced around the world. The fourth volume provides a compendium of information on the winners of major sporting competitions from around the world. Readers will gain invaluable insights into how sports have been enjoyed throughout all of human culture, and more fully comprehend their cultural contexts. The entries provide suggestions for further reading on each topic—helpful to general readers, students with school projects, university students and academics alike. Additionally, the four-volume *Sports Around the World* spotlights key charismatic athletes who have changed a sport or become more than just an outstanding player.

Many anthropological accounts of warfare in indigenous societies have described the taking of heads or other body parts as trophies. But almost nothing is known of the prevalence of trophy-taking of this sort in the armed forces of contemporary nation-states. This book is a history of this type of misconduct among military personnel over the past two centuries, exploring its close connections with colonialism, scientific collecting and concepts of race, and how it is a model for violent power relationships between groups.
