The Clique is back ... Massie Block - Still gorgeous. Still trendsetting. Still ruling the social scene at school... she hopes. To keep her spot at the top, Massie decides to throw the school's first boy/girl Halloween party. But her parents are making her invite the entire grade AND share the party with Claire. She's not sure which is scarier... Dylan Marvil - Lost the weight. Kept the attitude. Plans to use her new look to snag a cute guy. Kristen Gregory - Clothes are for sharing. Guys aren't. Likes the same guy Dylan does. Will do whatever it takes to get him. Alicia Rivera - With the Clique unravelling faster than last season's Burberry sweater, is it

time for Alicia to stage her takeover?

Claire Lyons: Still out. Wants in. Seriously needs to lose those Keds.

The Amulet of Samarkand Princeton University Press

Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists

seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts. **Haunting Experiences** Penguin Just as the Pretty Committee is getting bored with being expelled and Massie begins worrying about losing her spot as the most popular girl, Claire is cast in a Hollywood film, and as Massie and Alicia

report live from the set, Kristen and Dylan keep them posted on events in Westchester County.

Evoking two of the most famous battles of the Ancient World—the Battle of Marathon and the Last Stand at Thermopylae—The Gates of Athens is a bravura piece of storytelling by a well acclaimed master of the historical adventure novel. In the new epic historical novel by New York Times bestselling author Conn Iggulden, in ancient Greece an army of slaves gathers on the plains of Marathon . . . Under Darius the Great, King of Kings, the mighty Persian army—swollen by 10,000 warriors known as The Immortals—have come to subjugate the Greeks. In their path, vastly outnumbered, stands an army of freeborn Athenians. Among them is a clever, fearsome, and cunning soldier-statesman, Xanthippus. Against all odds, the Athenians emerge victorious. Yet people soon forget that freedom is bought with blood. Ten years later, Xanthippus watches helplessly as Athens succumbs to the bitter politics of factionalism. Traitors and exiles abound. Trust is at a low ebb when the Persians cross the Hellespont in ever greater numbers in their second attempt to raze Athens to the ground. Facing overwhelming forces by land and sea, the Athenians call on their Spartan allies for assistance—to delay the Persians at the treacherous pass of Thermopylae . . .

The Last Witch Macmillan

From an economist who warned of the global financial crisis, a new warning about the continuing peril to the world economy Raghuram Rajan was one of the few economists who warned of the global financial crisis before it hit. Now, as the world struggles to recover, it's tempting to blame what happened on just a few greedy bankers who took irrational risks and left the rest of us to foot the bill. In Fault Lines, Rajan argues that serious flaws in the economy are also to blame, and warns that a potentially more devastating crisis awaits us if they aren't fixed. Rajan shows how the individual choices that collectively brought about the economic meltdown—made by bankers, government officials, and ordinary homeowners—were rational responses to a flawed global financial order in which the incentives to take on risk are incredibly out of step with the dangers those risks pose. He traces the deepening fault lines in a world overly dependent on the indebted American consumer to power global economic growth and stave off global downturns. He exposes a system where America's growing inequality and thin social safety net create tremendous political pressure to encourage easy credit and keep job creation robust, no matter what the consequences to the economy's long-term health; and where the U.S. financial sector, with its skewed incentives, is the critical but unstable link between an overstimulated America and an underconsuming world. In Fault Lines, Rajan demonstrates how unequal access to education and health care in the United States puts us all in deeper financial peril, even as the economic choices of countries like Germany, Japan, and China place an undue burden on America to get its policies right. He outlines the hard choices we need to make to ensure a more stable world economy and restore lasting prosperity.

In Spain for summer vacation, middle-schooler Alicia competes with her cousins to land a spot in a teen heartthrob's new music video.

Masterminds and Wingmen Scholastic Inc. Revealing the British coalition government's plans, this examination demonstrates how a small "policy community" inside and outside the department of health have schemed for 10 years to replace the National Health

Service (NHS) with a U.S.-style health care market without informing parliament or the public. While ex-ministers, officials, and the like profit from lucrative positions in private health companies, the population must cope with the increasing health care costs and the diminishing quality of care. With accounts from NHS patients and doctors, the key strategies of implementation are uncovered and the companies involved--their lobby, their businesses, their fortunes, and, in some cases, their crimes--exposed.

The New York Times bestseller chronicling the history of NYC's infamous five mafia families is now the basis for the upcoming The HISTORY® Channel documentary series American Godfathers: The Five Families. Genovese, Gambino, Bonnano, Colombo and Lucchese. For decades these Five Families ruled New York and built the American Mafia (or Cosa Nostra) into an underworld empire. Today, the Mafia is an endangered species, battered and beleaguered by aggressive investigators, incompetent leadership, betrayals and generational changes that produced violent and unreliable leaders and recruits. A twenty year assault against the five families in particular blossomed into the most successful law enforcement campaign of the last century. Selwyn Raab's Five Families is the vivid story of the rise and fall of New York's premier dons from Lucky Luciano to Paul Castellano to John Gotti and more. The book also brings the reader right up to the possible resurgence of the Mafia as the FBI and local law enforcement agencies turn their attention to homeland security and away from organized crime.
