*Construction Methods and Equipment* CRC Press

This shop manual covers the proper disassembly, inspection, rework, assembly, and installation of the 4N9714 turbocharger found on the Caterpillar 3306 engines. Written by an industry professional, this book contains full-color photos, diagrams, torque specs, and best practices. Repairing your vehicle's turbocharger is easy and cost effective-if you know how! This shop manual covers Garrett Honeywell T04B 409410-0003, 409410-9003, 409410-5003, 409410-3 Turbochargers

**Chilton's CCJ.** Janes Information Group

Vols. for 1955-62 include: Mining guidebook and buying directory.

*Proceedings of the 11th US/North American Mine Ventilation Symposium, 5-7 June 2006, Pennsylvania, USA* W G Nichols Pub

Some issues for 1972 for 1972-75 include section: The fleet specialist.

*Western Construction* CreateSpace

This volume is the eleventh in a series which documents the

technical papers of the mine ventilation symposium, which was initiated in 1982 by the Underground Ventilation Committee of the Society for Mining, Metallurgy, and Exploration, Inc. In more recent years, the event has expanded to include all of North America and is known as the US/North American Mine Ventilation Symposium. The US/North American Mine Ventilation Symposium 2006 designated 'Coal Mine Methane Capture and Utilization' and 'Diesel Issues for Underground and Surface Mines' as topics of special interest. Numerous papers discussed these two topics, and there were presentations on mine dusts, mine fires, ventilation in large-opening mines, and numerous other ventilation topics. The symposium was supplemented by short courses on state-of-the-art in diesel emissions technology, computer analysis of ventilation circuits, personal dust monitoring, and methane capture technology. In addition, field trips to mines, research facilities, and methane gathering sites were offered to participants of the symposium. The book is of special interest to practitioners, educators, and researchers in the field of ventilation of mines, tunnels, and other underground facilities. Includes a CD-ROM of the proceedings.
