The European Yearbook has expanded over the years in keeping with the role played by European institutions compared with national ones. It is an indispensable work of reference for anyone

dealing with these institutions, which have become so numerous & varied that no-one can possibly memorise all their acronyms or functions. The European Yearbook provides aids for finding one's way through the labyrinth of these organisations which coordinate a variety of activities in over 20 countries. One of the aids is an 'organisation chart' at the beginning of the documentary section, giving a clear picture of the general situation. A perusal of the many contributions in the volume organisation by organisation, shows the full diversity of the activities which Europe is gradually taking over from national governments, with their consent & financial support. Written in both of the Council of Europe's official languages, English & French, the European Yearbook also contains a general index by subject & name which constitutes a very valuable list of articles & provides direct access to the work's subject matter, regardless of the particular organisation concerned, offering a kind of cross-section of the activities of

European organisations. *Index-catalogue of the Library of the Surgeon-General's Office, United States Army* OECD Publishing
Aid Activities in Africa provides detailed information on individual commitments, i.e. intended disbursements, of Official Development Assistance (ODA) to African countries for the year 2002. This yearly publication records the commitments reported by members of the OECD Development Assistance Committee (DAC) and by multilateral institutions to the CRS Aid Activity database (Creditor Reporting System). Data presented are unique, comparable and consistent with definitions and methodologies of the DAC statistics. The information is designed for use by development agencies and institutions in terms of programming and analysis by country and by sector. For each developing country, activities are ordered by sector and by donor. DAC STATISTICS: ALSO AVAILABLE ON INTERNET AND ON CD-ROM The data are taken from the CRS database which is

regularly updated and contains records from 1973 onwards. Data are available on the International Development Statistics Online on the DAC website at the following address: www.oecd.org/dac/stats, and on the yearly CD-ROM International Development Statistics. Selected development databases are also available on line via www.SourceOECD.org. *Creditor Reporting System 2009 Aid activities in support of agriculture* OECD Publishing
This annual publication provides comprehensive data on the volume, origin and types of aid and other resource flows to around 150 developing countries. The data show each country's intake of official development assistance and well as other official and private funds.
