SUTTON MOHAMMAD

Manistee National Forest Festival Program Sportsman's Connection

FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

Southern Michigan All-Outdoors Atlas & Field Guide Sportsman's Connection

Sportsman's Connection's Northern Michigan All-Outdoors Atlas & Field Guide contains maps created at twice the scale of other road atlases, which means double the detail. And while the maps are sure to be the finest quality you have ever used, what makes this eBook unique is all the additional information. Your favorite outdoor activities including fishing lakes and streams, hunting, camping, hiking and biking, snowmobiling and off-roading, paddeling, skiing, golfing and wildlife viewing are covered in great depth with helpful editorial and extensive tables, which are all cross-referenced and indexed to the map pages in a way that's fun and easy to use.

Nordhouse Dunes Wilderness Huron Photo

A journey to 500 public parks and points of access along the Lake Michigan shore, this guide is a must for the beach lover, hiker, kayaker, boater, fisher, skier or camper looking to explore this shore. Arranged geographically from the Indiana border to the Straits of Mackinac, each site is pinpointed with maps; most sites have GPS descriptions. Charts tell the important features at each place. Quickly find lighthouses, dunes or a beach of solitude!

Michigan Scenic Rivers Act of 1990 University of Michigan Press

Based on the popular Lost In Michigan website that was featured in the Detroit Free Press, It contains locations throughout Michigan, and tells their interesting story. There are over 50 stories and locations that you will find fascinating.

Manistee National Forest Abri-LLC

• Waterproof • Tear-Resistant • Topographic Map National Geographic's Trails Illustrated map of Manistee National Forest, South is a two-sided, waterproof map designed to meet the needs of outdoor enthusiasts with unmatched durability and detail. This map was created in conjunction with local land management agencies and is loaded with valuable recreation information. Trails Illustrated maps are expertly researched and frequently updated. The maps are printed in the United States on durable synthetic paper, making them waterproof, tear-resistant, and trail tough — capable of going anywhere you do. The map is two-sided, and can be folded to a packable size of 4.25" x 9.25"; unfolded size is 26" x 38". Net proceeds from the sale of this map go to support the nonprofit mission of the National Geographic Society. Key Features: - Waterproof and tear-resistant - Clearly marked trails for hiking, biking, horseback riding, ATV, and more - Detailed topography and clearly defined, color-coded boundaries of state parks, national recreation areas, wilderness areas, marine sanctuaries and wildlife refuges - Hundreds of points-of-interest, including scenic viewpoints,

campgrounds, boat launches and canoe carry downs, swimming areas, fishing access points, and more - UTM and Latitude/Longitude grid, as well as selected waypoints and a scale bar for easy and accurate navigation. - Detailed road network - Useful travel information on parks and key trails - Important safety information and tips - Information about local organizations and land management agencies Sheet Size = 25.50 x 37.75 Folded Size = 4.25 x 9.25 Scale = 1:75,000

Your favorite outdoor activities including fishing lakes and streams, hunting, camping, hiking and biking, snowmobiling and off-roading, paddeling, skiing, golfing and wildlife viewing are covered in great depth with helpful editorial and extensive tables, which are all cross-referenced and indexed to the map pages in a way that's fun and easy to use.

Nordhouse Dunes Wilderness

Two components of fire management programs were analyzed at these Forests: Francis Marion (South Carolina), Huron-Manistee (Michigan), San Bernardino (California), Tonto (Arizona), and Deschutes and Willamette (Oregon). Initial attack and aviation operations were evaluated by the criterion of minimizing the program cost plus the net value change of resource outputs and structures resulting from fire (C + NVC). Four alternative program or budget levels were investigated at each forest for each of 3 years of varying fire severity. The program levels ranged from +20 percent below the 1979 funding level to 40 percent above that level. The most economically efficient levels were -20 percent at four forests, +20 percent at one forest, and +40 percent at another forest. Results suggested that increased fire year severity may not mean that a higher program level is more efficient. Commercial timber and structural losses contributed most to net value change, which was a small percent of the C + NVC in most of the years evaluated.
