Johnny's wish had come true. His family would be visiting his grandparents for Christmas. His grandparents lived in an old house in New England where his father had been born. The family together, the smells of the cookies baking, the snowy Christmas tree farm with trees of so many shapes and sizes,

and most of all the wooden horse he had told his brother Liam about would make this the best Christmas ever. In his grandparents' attic Johnny finds many treasures, but the wooden horse he remembered so well is missing. How can Johnny make his brother's Christmas wish come true? Beloved and internationally bestselling author Mary Higgins Clark's loving story together with Wendell Minor's captivating paintings make *The Magical Christmas Horse* a book that captures the true heart of Christmas and one that families will

make part of their Christmas tradition year after year.

Oliver Marks is released from jail, the man who put him there is waiting at the door. Detective Colborne wants to know the truth, and after ten years, Oliver is finally ready to tell it. A decade ago: Oliver is one of seven young Shakespearean actors at Dellecher Classical Conservatory, a place of keen ambition and fierce competition. In this secluded world of firelight and leather-bound books, Oliver and his friends play the same roles onstage and off: hero, villain, tyrant, temptress, ingénue, extras. But in their fourth and final year, good-natured rivalries turn ugly, and on opening night real violence invades the students' world of make-believe. In the morning, the fourth-years find themselves facing their very own tragedy, and their greatest acting

challenge yet: convincing the police, each other, and themselves that they are innocent. A “superbly plotted” (Los Angeles Times) page-turning classic from the undisputed Queen of Suspense and #1 New York Times bestselling author Mary Higgins Clark. A minor road accident landed county prosecutor Katie DeMaio in Westlake Hospital. That night, from her window, she thought she saw a man load a woman’s body into the trunk of a car...or was it just a sleeping pill induced nightmare? At work the next day, Katie began investigating a suicide that looked more like murder. Initial evidence pointed elsewhere, but medical examiner Richard Carroll saw a trail leading to Dr. Edgar Highley. He suspected that the famous doctor’s work “curing” infertile women was more than

controversial—that it was deceitful, depraved, and often deadly. But before Richard could tell Katie his fears, she left the office for the weekend and an appointment for routine surgery...in Dr. Highley’s operating room. “A harrowing tale” (The New York Times Book Review) that’s “indescribably suspenseful” (San Francisco Chronicle), *The Cradle Will Fall* is a page-turning thriller of the highest order.

Confessions of a Mask Simon and Schuster

Do we really need to wear masks? From the New York Times Bestselling authors of *Plague of Corruption* comes the must-read guide on masks and re-opening following the COVID-19 pandemic. *The Truth About Masks* is the book all America needs to be reading as the COVID-19 pandemic rages on. Written by New York Times bestselling authors Dr. Judy Mikovits and Kent Heckenlively, this book reviews the evidence for and

against widespread public masking as provided by the Centers for Disease Control and the Mayo Clinic, as well as top scientific publications such as the New England Journal of Medicine and The Lancet. This debate needs to take place without fear and paranoia. Important questions raised in this book are the effect of masks on oxygen and carbon dioxide levels, how COVID-19 spreads, the effectiveness of various types of masks, those who are most vulnerable to COVID-19, and what measures should be taken by schools as children continue to return to in-person classes. The authors' previous book, *Plague of Corruption*, was the runaway science bestseller of 2020, and the

authors bring that same passion and attention to detail to the mask question. As politicians and bureaucrats of all stripes are weighing in on this question, with some again placing their cities and states under mandatory masking provisions, we need to understand the science behind their decisions. Are such measures a reasonable response to current circumstances, or is it a dramatic overreach, which in many cases might make the situation even worse? America desperately needs this public conversation to take place with the best science we have available. As Americans have always done during difficult times, we must summon the courage to have these challenging conversations.
