Bibliographie zur chinesischen Literatur in deutscher Sprache W. W. Norton & Company

Mit Ausnahme Japans ist in wohl keinem Land der Welt so viel an chinesischer Literatur übersetzt worden wie in Deutschland. Der Band macht die oftmals nur schwer zugängliche, reiche Übersetzungsliteratur – auf die Anfänge zurückgreifend – bis 2020 bibliographisch zugänglich.

Few American readers seem to be aware that Hermann Hesse, author of the epic novels *Steppenwolf* and *Siddhartha*, among many others, also wrote poetry,

the best of which the poet James Wright has translated and included in this book. This is a special volume—filled with short, direct poems about love, death, loneliness, the seasons—that is imbued with some of the imagery and feeling of Hesse's novels but that has a clarity and resonance all its own, a sense of longing for love and for home that is both deceptively simple and deeply moving.

Wie Ich Es Sehe Rodopi

FOR this Anthology I have tried to range over the whole field of English Verse from the beginning, or from the Thirteenth Century to this closing year of the Nineteenth, and to choose the best. Nor have I sought in these Islands only, but wheresoever the Muse has followed the tongue which among living tongues she most delights to honour. To bring home and render so great a spoil compendiously

has been my capital difficulty. It is for the reader to judge if I have so managed it as to serve those who already love poetry and to implant that love in some young minds not yet initiated. My scheme is simple. I have arranged the poets as nearly as possible in order of birth, with such groupings of anonymous pieces as seemed convenient. For convenience, too, as well as to avoid a dispute-royal, I have gathered the most of the Ballads into the middle of the Seventeenth Century; where they fill a languid interval between two winds of inspiration—the Italian dying down with Milton and the French following at the heels of the restored Royalists. For convenience, again, I have set myself certain rules of spelling. In the very earliest poems inflection and spelling are structural, and to modernize is to destroy. But as old inflections fade into modern the

old spelling becomes less and less vital, and has been brought (not, I hope, too abruptly) into line with that sanctioned by use and familiar. To do this seemed wiser than to discourage many readers for the sake of diverting others by a scent of antiquity which—to be essential—should breathe of something rarer than an odd arrangement of type. But there are scholars whom I cannot expect to agree with me; and to conciliate them I have excepted Spenser and Milton from the rule. Glosses of archaic and otherwise difficult words are given at the foot of the page: but the text has not been disfigured with reference-marks. And rather than make the book unwieldy I have eschewed notes—reluctantly when some obscure passage or allusion seemed to ask for a timely word; with more equanimity when the temptation was to criticize or 'appreciate.' For the function of the anthologist includes criticizing in silence.

In this sweeping look at political and philosophical history, Linda M. G. Zerilli unpacks the tightly woven core of Hannah Arendt's unfinished work on a tenacious modern problem: how to judge critically in the wake of the collapse of inherited criteria of judgment. Engaging a remarkable breadth of thinkers, including Ludwig Wittgenstein, Leo Strauss, Immanuel Kant, Frederick Douglass, John Rawls, Jürgen Habermas, Martha Nussbaum, and many others, Zerilli clears a hopeful path between an untenable universalism and a cultural relativism that forever defers the possibility of judging at all. Zerilli deftly outlines the limitations of existing debates, both those that concern themselves with the impossibility of judging across cultures and those that try to find transcendental, rational values to anchor judgment. Looking at Kant through the lens of Arendt, Zerilli develops the notion of a public conception of truth, and from there she explores relativism, historicism, and universalism as they shape feminist approaches to judgment. Following Arendt even further, Zerilli arrives at a hopeful new pathway—seeing the collapse of philosophical criteria for judgment not as a problem but a way to practice judgment anew as a world-building activity of democratic citizens. The result is an astonishing theoretical argument that travels through—and goes beyond—some of the most important political thought of the modern period.

Whatever critical scalpel one selects for dissecting the literary works of Bruno Schulz (1892-1942), there will always be a certain degree of textual resistance which cannot be broken. Or in other words, taking off one of Schulz's many masks, one will probably never avoid the impression that a new mask has emerged. This book contributes to the three most typical critical strategies of reading Schulz's works (combinations, fragmentations, reintegrations) - being fully aware, of course, of the relativity of each particular approach. In addition, the book sets out to explore all of Schulz's creative output (i.e. his stories as well as his graphic, epistolary and even literary critical works), as one of Schulz's main goals was exactly to cross artificially set up boundaries between, among other things, different artistic media of expression. The book for the first time brings together leading Schulzologists (Jarzębski, Robertson, Sproede) and their prospective successors (Augsburger, Gorin, Kato, Suchańska-Drażyńska, Underhill, Wojda), established Polish academics (Dąbrowski, Markowski, Skwara, Weretiuk) and their foreign counterparts (De Bruyn, Gall, Meyer-Fraatz, Schulte, Zieliński), scholars primarily working on other authors (Anessi, Śliwa, Żurek) and those focusing on other art forms (Sánchez-Pardo, Watt). The editors' introduction offers an overview of seven decades of Schulzology. The book is of interest for both readers with a general interest in (world) literature and/or a particular interest in Polish and Jewish studies.

Included in the 2018 summer reading list by New York Times Books A modern-day glimpse into the surprising reality of life in Iran. Iran: A destination that is seldom seen by westerners yet often misunderstood. A country that simultaneously "enchants and enrages" those who visit it. A place where leading a double life has become the norm. In Couchsurfing in Iran, award-winning author Stephan Orth spends sixty-two days on the road in this mysterious Islamic republic to provide a revealing, behind-the-scenes look at life in one of the world's most closed societies. Through the unsurpassed hospitality of twenty-two hosts, he skips the guidebooks and tourist attractions and travels from Persian carpet to bed to cot, covering more than 8,400 kilometers to recount "this world's hidden doings." Experiencing daily what he calls the "two Irans" that coexist side by side—the "theocracy, where people mourn

their martyrs" in mausoleums, and the "hide-and-seek-ocracy, where people hold secret parties and seek worldly thrills instead of spiritual bliss"—he learns that Iranians have become experts in navigating around their country's strict laws. Though couchsurfing is officially prohibited in Iran—the state fears spies would be able to travel undetected through the country—more than a hundred thousand Iranians are registered with online couchsurfing portals. And thanks to these hospitable, English-speaking strangers, Orth gets up close and personal with locals, peering behind closed doors and blank windows to uncover the inner workings of a country where public show and private reality are strikingly opposed.

It is a novel that engages the mind while satisfying those that crave the thrill of a chase. There are riots and sex. There is love and murder. There is Darwinism and Fascism, nightclubs, invented languages and the dangerous bravado of youth. And there are lots of beetles. It is clever. It is distinctive. It is entertaining. We hope you are too.

»Weltgesellschaft« ist ein höchst komplexes Thema. Aus der Sicht verschiedener Disziplinen eröffnet der Band neue Zugänge. In einem ersten Teil geht es um Konzepte von Weltgesellschaft aus kulturgeschichtlichen, philosophischen, ökonomischen und

soziologischen Blickwinkeln, sodann um Fragen, Probleme und Perspektiven ausgehend von Handel, Finanzen, Migration, Religion, Gender Diversity, Menschenrechte und Völkerrecht sowie nicht zuletzt um die Verantwortung der Mächte. Der Band gibt auf eine Reihe von Fragen Antwort: Aus welchen unterschiedlichen Voraussetzungen heraus entstand der Begriff? Welche Rolle spielen die Großmächte USA, China und Russland darin? Welche Zukunftsperspektiven – positive wie negative – ergeben sich für eine Weltgesellschaft? Gibt es schon Modelle einer politischen Steuerung und Lösung der Konflikte der Weltgesellschaft? Der Band zeigt verschiedene Forschungsperspektiven auf, die zur Klärung des Begriffs und zu einer viel perspektivischen Theorie der Weltgesellschaft beitragen können, so dass sich eine Gesamtsicht auf die Problematik herauskristallisieren lässt. *Terra Forma Oxford Studies in Dance Theory*

This is a historical and theoretical examination of French baroque court ballet from approximately 1573 until 1670. Spanning the late Renaissance and the Baroque, it brings aesthetic and ideological criteria to bear on court ballet libretti, period accounts, contemporaneous performance theory, and related commentary on dance and movement in literature. It studies the formal choreographic apparatus that characterises late Valois and early Bourbon ballet spectacle and how its changing aesthetic ultimately reflected the political situation of the nobles who devised et performed court ballets. *Dance as Text Springer*

A dead man hangs from the portal of St Paul Chapel in Damascus. He was a Muslim officer and he was murdered. But

when Detective Barudi sets out to interrogate the man's mysterious widow, the Secret Service takes the case away from him. Barudi continues to investigate clandestinely and discovers the murderer's motive: it is a blood feud between the Mushtak and Shahin clans, reaching back to the beginnings of the 20th century. And, linked to it, a love story that can have no happy ending, for reconciliation has no place within the old tribal structures. Rafik Schami dazzling novel spans a century of Syrian history in which politics and religions continue to torment an entire people. Simultaneously, his poetic stories from three generations tell of the courage of lovers who risk death sooner than deny their passions. He has also written a heartfelt tribute to his hometown Damascus and a great and moving hymn to the power of love.

In an autumnal love story of erotic obsession, possessiveness, remembrance, oblivion, and time, an elderly woman dwells upon a failed love affair of some time past, when she was no longer young but not yet old. The narrator relives meeting her lover, Franz, at the natural history museum, when, for the first time in her life, she experiences all-consuming love and absolute happiness. Ultimately the affair founders because of her inability

to believe that Franz will actually leave his wife. After he disappears from her life, she withdraws from the world, waiting for his return and revisiting their time together over and over in a never-ending cycle of obsession. Her love for Franz becomes a compulsive suffering from which she can neither free herself nor withhold anything. *Insects Böhlau Wien*

*Poasis*, Joris's first major publication in the United States, highlights his work since the mid-1980s. Pierre Joris's poems are characterized by an arresting mix of passion and intellect, by what Pound called "language charged with meaning." For Joris, a language is always a second language, and his poetry takes as its main concern the question of marginality and exile. He is unique in being an American poet comfortable in three languages, and his work is filled with a dynamic language play, cross-linguistic puns, and themes of speculation on language, translation, and nomadism. *Poasis*, Joris's first major publication in the United States, highlights his work since the mid-1980s.

Shhh . Did you know there is a secret Language of Leadership: a timeless set of cues and signals that still determines who reaches the top in politics and business today. The ancient Greeks were the first to study the art of communication 2,500 years ago. It is only now, with recent breakthroughs in neuroscience, that we can say for sure what works and how. In *Winning Minds*, top speechwriter Simon Lancaster blends ancient rhetoric and neuroscience to create the definitive guide to the Language of Leadership. With trust in business and political leaders at record lows, there's never been a better time for a fresh perspective on communication. *Winning Minds* is packed with insights into the effects of metaphors, stories, and sound bites on the brain. We know what the brain looks like on heroin. This book shows the brain on Branson, Obama, and Boris.
