little bee books "ROAR is for everyone who is thinking about where they are in life-and those who want more out of life. From author Michael Clinton, former president and publishing director of Hearst Magazines, ROAR helps both those considering retirement and those who have no wish to retire get on with fulfilling their dreams-before it's too late. We are living in a time when

everyone is constantly reassessing what is next for them. In the mid-career group, people who have spent years working in a business are now seeing their industry changing dramatically and are facing the question: "What does that mean for me in the next twenty years?" At the same time, the post-career group is also going through massive change. Many in this group are still not prepared

financially, logistically, or emotionally to make the decisions necessary to face the next phase of their lives. While they may be thinking about retiring, they don't necessarily want to do nothing. ROAR will help both groups think about what is really important to them, and how to plan and take meaningful action so that the second half of their lives can be happy and productive. The book

offers a unique and dynamic 4-part process called ROAR: Reimagine yourself, Own who you are, Act on what's next, and Reassess your relationships. This is the method Michael uses himself to pursue a purposeful life-and now he shares his technique and approach so you can expand your own life too. Prescriptive and inspiring, with personal anecdotes from his life as well as from others he

interviewed for the book, ROAR is highly accessible, entertaining, and transformative "--
