demonstrate the passion and unpredictability of the sport. This book is a celebration not only of the athletic feats but also of the cultural and economic impact of the Champions League, revealing how the competition shapes the landscape of global football. Ideal for sports aficionados, historians and anyone wanting to understand what makes the UEFA Champions League a true

footballing gem. Le Stade de Reims Les Cahiers intempestifs The Undisputed Champions of Europe is a trilogy-ending homage to the golden era of the European Cup. A place where the gods of the game battled for the biggest prize in club football; a place where the likes of Di Stefano, Eusebio, Best, Cruyff, Beckenbauer, Dalglish, Gullit and so many others became legends, as

they skated across thin ice to glory, in the colours of clubs that are now considered European royalty. An entirely different beast than the Champions League, it was a competition where you had to win your domestic league title to gain entry. With no safety net of group stages, one bad night of football was enough to send you back to square one. In contrast to today's Champions League

winner - whose status as Europe's best team is regularly disputed - the winners of the European Cup truly were the undisputed kings of Europe. These are the stories and glories of football's highest achievers.

The definitive book about soccer, from the author of *The Games: A Global History of the Olympics*. There may be no cultural practice more

global than soccer. Rites of birth and marriage are infinitely diverse, but the rules of soccer are universal. No world religion can match its geographical scope. The single greatest simultaneous human collective experience is the World Cup final. In this extraordinary tour de force, David Goldblatt tells the full story of soccer's rise from chaotic folk ritual to the world's most popular sport-

now poised to fully establish itself in the USA. Already celebrated internationally, *The Ball Is Round* illuminates soccer's role in the political and social histories of modern societies, but never loses sight of the beauty, joy, and excitement of the game itself.

Dundurn Europe is a continent whose history has, in one form or another, long been dominated by

integration. And yet the European integration process is often treated as synonymous with the evolution of just one particular, and until recently geographically quite limited, Western-centred organisation: the European Union (EU). This trend obscures the multitude of ways European states have acted collectively on both sides of the Iron Curtain - and continue to do

so throughout the continent today. With contributors drawn from history and political science, this book explores some of these diverse integration efforts 'beyond Brussels'. We shine a light on international organisations, trade frameworks, and various political, social, scientific and cultural forms of unity in both Eastern and Western Europe. In so doing, the book seeks to

redefine the history of the European integration process not only as a less purely EU-centric phenomenon but as a less strictly Western European one too.

Known around the world as football, soccer is the world's most watched and played sport. Now Doug Lennox, the striker of Q&A, scores with a pitch full of tidbits that delivers the goods on Pelé,

Maradona, Beckham, Zidane, and other superstars, as well as the history, traditions, and rules of the game. Doug has compiled a World Cup of trivia about a truly universal phenomenon that has legions of passionate, and sadly sometimes violent, fans. How did soccer originate?, Who was the first soccer player to score a hat trick in a World Cup final? What was the

largest attendance ever for a soccer match? What is the "technical area"? Where was the world's first soccer club formed? What was the first movie ever made about soccer? Where was the first World Cup held? What are the Laws of the Game? What were the 10 worst losses of life in soccer history?

Carmen Pomiès (1900-1982) is a significant figure in the history of women's football in the interwar years. Carmen was in the first generation of women's sport in France, first in athletics, winning medals throwing the javelin in international competitions, and playing football for Fémina Sports and France from 1920. Her life in

sport is intertwined with key personalities such as Alice Milliat and Violette Morris. Carmen also played a huge part in the story of women's football in England: she played many times for and against the famous Dick, Kerr Ladies of Preston, including their 1922 football tour of the United States. Carmen became almost an honorary Englishwoman, making lifelong friends

of important footballers such as Florrie Redford, Lily Parr and Lizzy Ashcroft. During these years, Carmen was not only a player but also an important influence in promoting the game and fighting for equality. Carmen also had fascinating siblings: her brother Georges was a film star and famous modern dancer who died tragically young, her older sister Hélène was a left-wing

author and translator. From 1940 Carmen was secretary to a famous film star, Renée Saint-Cyr, and was active in the French Resistance. In 1946, she settled in Rochester NY before moving to New York to work for the United Nations. From 1956, her life is shrouded in mystery because of gaps in the evidence. She died in France in 1982. So her life is about much more than just football!

 "Gordon Smith: Prince of Wingers" is a biographical story recounting the life of legendary footballer Gordon Smith written by his son Tony. One of the 'Famous Five', Gordon Smith won the league with Hibernian on three separate occasions during an eighteen-year-long glittering career with the club. With Heart of Midlothian he won another league medal as well as a League Cup medal, followed by yet another championship medal with Dundee. He represented his country on thirty-nine separate occasions, captaining them three times. His mesmerizing skills and grace gave joy to many football fans, not only during his time with the Leith club, but also whilst playing for Heart of Midlothian, Dundee and Scotland. The

book itself describes Gordon's life from humble beginnings in backstreet alleys kicking stones in place of a football to the stature of becoming one of the most naturally gifted players in the history of British football - whilst giving readers a unique insight into the life of this very private man.

coloso en la defensa, una media cancha de ensueño y una delantera mágica. Solo Mussolini y la guerra evitaron su consagración. 1956 es una novela inspirada en la vida de Gabriel Hanot, futbolista y periodista francés nacido a finales del siglo XIX. En ella, nos narra la historia del fútbol durante los primeros cincuenta y seis años del siglo XX. La fundación de los organismos internacionales, la creación

de las primeras competiciones de clubes a nivel internacional y nacional, así como el surgimiento de las copas del mundo. Todo nos guía al 13 de junio de 1956, fecha en la que se enfrentan Real Madrid y Stade de Reims, en París, para disputar la primera final de la Copa de Campeones de Europa; torneo creado por Gabriel y apoyado por Santiago Bernabéu, quien, tras

llegar al club como un niño, se convierte mucho tiempo después en el más grande dirigente deportivo de la historia. 1956 habla de la vida de aquellos que ahora están en el olvido, pero gracias a los que hoy podemos gritar «¡gol!». *Hibernian's Cup Record* AuthorHouse 'Better than Pele' - Diego Maradona 'One of the greatest footballers ever.' - Sir Alex Ferguson Pele, Best and Maradona everyone has

heard of, but to the true football cognoscenti Alfredo Di Stefano, the magician behind Real Madrid's five European Cups in a row, is the greatest of them all. Over 20 years, Di Stéfano was the guiding force behind three teams in three countries: at River Plate in his native Argentina; at Millonarios of Bogotá in Colombia; and then in 1953, after one of the most bitter transfer tug-of-wars in sporting

history, Real Madrid. There he became football's first global icon, nicknamed the striking 'Blond Arrow' for his powerful stamina, tactical versatility and precision goal scoring. He would lead Madrid as a team whose playing style others learnt from, whose stylishness was envied and whose widespread appreciation elsewhere help portray Franco's otherwise isolated and right-wing

Spain in a more flattering light. By the time he retired, Di Stefano has changed Spain as a nation, culturally and politically, and his rebellious pioneering career set new benchmarks for his sport in the epoch of perhaps football's greatest transformation . This is his complete story, including candid and exclusive interviews highlighting his journey from humble

beginnings to emerging as one of the first global sport superstars that we so commonly see today.

Detailed, well-written, and controversial, Lucand's history of France and its wine during

the Nazi Occupation is an unexpected treat." —The Wine Economist During the Second World War, French wine was hardly a trivial product. Indeed, following the Fall of France, it proved to be one of the most valuable French commodities in the eyes of the Nazi leaders. In 1940, "Weinführer" (official delegates and wine experts appointed by Berlin), were sent to all the

wine regions of France to coordinate the most intense looting that the country had ever seen. Alongside the very ambiguous relationship of the Vichy Regime and the collaboration of many French professionals with the occupiers, this immense program of wine collection was a drama that many would prefer to forget. Now, more than seventy years after the end

of the conflict, the time has come to tell the story of what really happened. Following a meticulous investigation and relying exclusively on previously unpublished sources, Christophe Lucand reveals the history of the world of French wine that was subjected to the tests of war, occupation and of all the compromises this entails. "The author has walked the line with sensitivity and

provided a balanced review of this very painful time for French winemakers." —Firetrench

 British and European soccer attendances from boom to bust and back again. The stories behind the crowds in all 55 UEFA countries including lower divisions and non-league. Records, stats

and history of the big - and not so big - games. David Ross, author of the acclaimed 'ROAR of the Crowd,' the definitive history of Scottish football attendances, has now turned his attention to Europe. This book looks at the history of league (and in many cases non-league) attendances in every European country. From the great post-war boom to the decline of the 1980s and the

subsequent rise again in the past two decades, he traces the patterns of each country's progress.

Few cultural activities speak more powerfully to international histories of the modern world than football. In the late nineteenth century, this cheap and simple sport emerged as a major legacy of Britain's formal and informal

empires and spread quickly across Europe, South America, and Africa. Today, football (known to many as soccer) is arguably the world's most popular pastime, an activity played and watched by millions of people around the globe.

Contested Fields introduces readers to key aspects of the global game, synthesizing research on football's transnational

role in reflecting and shaping political, socio-economic, and cultural developments over the past 150 years. Each chapter uses case studies and cutting-edge scholarship to analyze an important element of football's international story: migration, money, competition, gender, race, space, spectatorship, and confrontation.
