L'ouvrage débute par le journal de guerre très vivant de Philippe DUPLAY, jeune saint cyrien qui refuse la défaite. Il choisit de s'évader par l'Espagne en 1943 pour rejoindre la France Libre, où il intégrera une unité de la 2ème Division blindée, en cours de constitution. Ce journal est suivi des Mémoires du Général DUPLAY, qui raconte sans fard son enfance et son adolescence dans une famille bourgeoise, puis sa guerre jusqu'à l'été 1943 (rédaction hélas interrompue par son décès en 1992). Dans la 3ème partie sont regroupées 3 conférences du général DUPLAY, sur la formation de la 2ème DB,

la campagne de libération de la France et la libération de Paris par LECLERC et ses compagnons. Un dernier petit texte de sa main souligne les qualités de chef et de rassembleur de Philippe LECLERC de HAUTECLOCQUE.

This clear and concise guide is the ideal introduction to contemporary housing design for students and professionals of architecture, urban design and planning. With the increasing commitment to sustainable design and with an ever-increasing demand for houses in urban areas, housing design has taken on a new and crucial role in urban planning. This guide introduces the reader to the key aspects of housing design, and outlines the discussion about form and planning of urban housing. Using chapter summaries and with many illustrations, it presents contemporary concerns such as energy efficient design and high density development in a clear and accessible way. It looks at practical design solutions to real urban problems and includes advice on reclamation and

re-use of buildings. The guidance it presents is universally relevant. Part two of the book features current case studies that illustrate the best in high density, sustainable housing design providing the reader with design information, and design inspiration, for their own projects.

The global use of wild animals for meat is now the primary illegal activity in many protected areas, and growing human populations and a lack of livelihood options suggest that demand for wild meat is likely to continue to rise. This Occasional Paper contains the background information presented to participants at a workshop jointly organized by IUCN, FAO and TRAFFIC in Yaoundé, Cameroon. The workshop aimed to forge functional links among the various stakeholders concerned with the unsustainable use of wild fauna for food, and it contains the communiqué and a summary of the discussions related to problems and solutions. *Standing in the Tempest* Oxford University Press The Companion provides an accessible critical

survey of Western visual art theory from sources in Classical, Medieval and Renaissance thought through to contemporary writings.

La première ébauche me paraissait achevée ! La version bêta sortit de l'imprimerie, et la première lecture après coup se finit par une réaction soudaine : comment ai-je pu juger bon de déchirer les feuilles du dernier chapitre de mon roman pour n'en garder qu'un simple résumé de ces pages sombres ? N'est-ce pas ironique de rassembler des feuilles arrachées d'un cahier de cours pour en faire un livre et de finir par en arracher quelques pages ? J'avais balancé ces feuilles et j'avais juré de les abandonner dans la boîte, car je ne voulais garder que les bons souvenirs et passer à la trappe tout ce qui en avait décollé. Un recueil dissimulé dans une obscure boîte à chaussures, fermée à double tour, pour qu'il ne ravive pas les pâles ombres des souffrances passées. Après la parution du premier roman, le goût de l'inachevé commença à me taquiner, et cela en devint une obsession.

J'avais avoué les bons côtés de l'histoire et j'avais caché l'autre part de moi, celle qui me basculait dans l'excès de la vie...

With the publication of this stunningly illustrated account of the Hungarian avant-garde movement, an important missing link in early modern art can now be fully recognized. To such well-known names in the west as Laszlo Moholy-Nagy and Andor Weinger can now be added the contributions of Lajos Kassak, Sandor Bortnyik, Bela Uitz, and a host of other painters whose significance has long been obscured. The nearly 200 illustrations, many in full color, together with essays by leading American and Hungarian scholars and a

comprehensive bibliography and comparative chronology, make this a definitive sourcebook that opens a new chapter in twentieth-century art. During the early twentieth century, central and eastern Europe provided fertile ground for major artistic developments. Hungarian painters, in particular, responded imaginatively and vigorously to the political and social changes leading up to and following World War I by "standing in the tempest" of political activism and attempting to redefine the role of art in society. Only in the past few years has it been possible once again to examine original works of art and to assess properly these painters' vital contribution. Botar. **Bonnard** Lulu.com „Într-un stil pointillist, cu umorul său inimitabil, Cătălin Mihuleac trezește la viață, prin intermediul unor figuri emblematice, o Românie în plină transformare, pe care eu însămi am cunoscut-o bine. De la Misiunea Militară a generalului Berthelot, din 1916, la Misiunea Universitară Franceză de după război, personajul lui Marcel Fontaine, fir conducător al cărții, și ordonanța sa, soldatul Petru Negru, călăuză lui spre sufletul românesc, restituie întreaga căldură a prieteniei franco-române, pe care mi se pare acum că poveștile atât de evocatoare ale lui Cătălin Mihuleac reușesc să o scoată la lumină. Printre «domnișoarele lui Fontaine» sunt câteva care mi-au fost colege la Liceul Francez din București, în ultimul său an de existență, 1947-'48, înainte ca regimul comunist să-l desființeze, și am fost foarte impresionată de curajul cu care au înfruntat toate pericolele atât de scump plătit. O

carte emoționantă, de citit și recitit cu plăcere.” — MARILY LE NIR Reconciliation After Violent Conflict Dover Publications The emergence of landscape ecology during the 1980s represents an important maturation of ecological theory. Once enamored with the conceptual beauty of well-balanced, homogeneous ecosystems, ecologists now assert that much of the essence of ecological systems lies in their lumpiness. Patches with differing properties and behaviors lie strewn across the landscape, products of the complex interactions of climate, disturbance, and biotic processes. It is the collective behavior of this patchwork of ecosystems that drives pattern and process of the landscape. This realization of the importance of patch dynamics in itself, however. Rather, it is a passage to a new conceptual framework, the internal workings of which remain obscure. The next tier of questions includes: What are the fundamental pieces that compose a landscape? How are these pieces bounded? To what extent do these boundaries

influence communication and interaction among patches of the landscape? Will consideration of the interactions among landscape elements help us to understand the workings of landscapes? At the core of these questions lies the notion of the ecotone, a term with a lineage that even predates ecosystem. Late in the nineteenth century, F. E. Clements realized that the transition zones between plant communities had properties distinct from either of the adjacent communities. Not until the emergence of patch dynamics theory, however, has central significance of the ecotone concept become apparent.

Parodies have been created throughout times and cultures. A glimpse at the general judicial latitude generally afforded to parodies, satires, caricatures, and pastiches demonstrates the social and cultural value of this particular form of artistic expression. With the advent of technologies and the evolution of copyright legislation, creative endeavours in

the form of parody gathered a new youth but became unlawful. While copyright law grants exclusive rights to right-holders, this right is not absolute. Legislation includes specific exceptions, which preclude right-holders from exercising their prerogatives in particular cases which foster creativity and cultural diversity within that society. The parody exception pertains to this ultimate objective by permitting users to reproduce copyright-protected materials for the purpose of parody. To understand the meaning and scope of the parody exception, this book examines and compares five jurisdictions which differ in their protection of parodies: France, Australia, Canada, the US and the United Kingdom. This book is concerned with finding an appropriate balance between the protection awarded to right-holders and the public interest. This is achieved by analysing the parody exception to the economic rights of right-holders, the preservation of moral rights and the interaction of the parody exception with contract law. As parodies constitute an

artistic expression protected under the right to freedom of expression, this book also considers the influence of freedom of expression on the interpretation of this specific copyright exception. Furthermore, this book aims at providing guidance on how to resolve conflicts where fundamental rights are in conflict. This is the first book in English to offer an in-depth investigation into the parody exception in copyright law, and comments on industry practices linked to this form of creative endeavours.

How does a newly democratized nation constructively address the past to move from a divided history to a shared future? How do people rebuild coexistence after violence? The International IDEA Handbook on Reconciliation after Violent Conflict presents a range of tools that can be, and have been, employed in the design and implementation of reconciliation processes. Most of them draw on the experience of people grappling with the

problems of past violence and injustice. There is no "right answer" to the challenge of reconciliation, and so the Handbook prescribes no single approach. Instead, it presents the options and methods, with their strengths and weaknesses evaluated, so that practitioners and policy-makers can adopt or adapt them, as best suits each specific context. Also available in a French language version.

Introduction to Urban Housing Design

The European Dada movement of the early 20th century has long been regarded as a male preserve, one in which women have been relegated to footnotes or mentioned only as the wives, girlfriends, or sisters of Dada men. This fascinating book challenges that assumption, focusing on the creative contributions made to Dada by five

pivotal European women. Ruth Hemus establishes the ways in which Emmy Hennings and Sophie Taeuber in Zurich, Hannah Höch in Berlin, and Suzanne Duchamp and Céline Arnaud in Paris made important interventions across fine art, literature, and performance. Hemus highlights how their techniques and approaches were characteristic of Dada's rebellion against aesthetic and cultural conventions, analyzes the impact of gender on each woman's work, and shows convincingly that they were innovators and not imitators. In its new and original perspective on Dada, the book broadens our appreciation and challenges accepted

understandings of this revolutionary avant-garde movement.
