The Kazakh Khanates between the Russian and Qing Empires ASTM International

Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, *The 12th Planet* is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. *The 12th Planet* brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki, and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

Explores the paradoxical symmetry between the divine and demonic in early Jewish mystical texts. *Divine Scapegoats* is a wide-ranging exploration of the parallels between the heavenly and the demonic in early Jewish apocalyptic accounts. In these materials, antagonists often mirror features of angelic figures, and even those of the Deity himself, an inverse correspondence that implies a belief that the demonic realm is maintained by imitating divine reality. Andrei A. Orlov examines the sacerdotal, messianic, and creational aspects of this mimetic imagery,

focusing primarily on two texts from the Slavonic pseudepigrapha: 2 Enoch and the Apocalypse of Abraham. These two works are part of a very special cluster of Jewish apocalyptic texts that exhibit features not only of the apocalyptic worldview but also of the symbolic universe of early Jewish mysticism. The Yom Kippur ritual in the Apocalypse of Abraham, the divine light and darkness of 2 Enoch, and the similarity of mimetic motifs to later developments in the Zohar are of particular importance in Orlov's consideration.

This book illustrates how social media platforms enable us to understand everyday politics and evaluates the extent to which they can foster accountability, transparency and responsiveness. The first part focuses on accountability and tests whether the offline behavior of politicians is consistent with their online declarations, showing that textual analysis of politicians' messages is useful to explain phenomena such as endorsements, party splits and appointments to cabinet. The second part concerns responsiveness. By means of sentiment analysis, it investigates the shape of the interaction between citizens and politicians determining whether politicians' behavior is influenced by the pressure exerted on social media both on policy and non-policy issues. Finally, the book evaluates whether a responsive behavior is successful in restoring online political trust, narrowing the gap between voters and political elites. The book will be of use to students, scholars and practitioners interested in party organization, intra-party politics, legislative politics, social media analysis and political communication, as well as politicians themselves.

the demise of the logical positivism programme. The answers given to these questions have deepened the already existing gap between philosophy and the history and practice of science. While the positivists argued for a spontaneous, steady and continuous growth of scientific knowledge the post-positivists make a strong case for a fundamental discontinuity in the development of science which can only be explained by extrascientific factors. The political, social and cultural environment, the argument goes on, determine both the questions and the terms in which they should be answered. Accordingly, the sociological and historical interpretation - involves in fact two kinds of discontinuity which are closely related: the discontinuity of science as such and the discontinuity of the more inclusive political and social context of its development. More precisely it explains the discontinuity of the former by the discontinuity of the latter subordinating in effect the history of science to the wider political and social history. The underlying idea is that each historical and - cial context generates scientific and philosophical questions of its own. From this point of view the question surrounding the nature of knowledge and its development are entirely new topics typical of the twentieth-century social context reflecting both the level and the scale of the development of science.

History of the American Academy of Forensic Sciences, 1948-1998 BRILL

This volume ties together the histories of Japan and China for the modern period prior to the 20th century. The chapters look at Chinese and Japanese works which were written in response to events in the other country. None of these works has received any sustained attention in the west. As a result we get a view of how Chinese and Japanese saw each other at a time when there were few personal contacts allowed. Many of these texts were

built on fanciful embellishments of stories that migrated from one land to the other. But the unique qualities of the Sino-Japanese cultural bond seem to have conditioned the interaction so that these texts all reveal a fascinatingly well-defined area.

Affaire Du Navire "Norstar" (Panama C. Italie) : Exceptions Préliminaires Springer

This new edition includes numerous printed Sanskrit texts and works and three Indian journeys the author had undertaken. All the words are arranged etymologically and philologically with special reference to cognate Indo-European languages.

Lady Hyegyong's memoirs, which recount the chilling murder of her husband by his father, form one of the best known and most popular classics of Korean literature. From 1795 until 1805 Lady Hyegyong composed this masterpiece, depicting a court life Shakespearean in its pathos, drama, and grandeur. Presented in its social, cultural, and historical contexts, this first complete English translation opens a door into a world teeming with conflicting passions, political intrigue, and the daily preoccupations of a deeply intelligent and articulate woman. JaHyun Kim Haboush's accurate, fluid translation captures the intimate and expressive voice of this consummate storyteller. Reissued nearly twenty years after its initial publication with a new foreword by Dorothy Ko, *The Memoirs of Lady Hyegyong* is a unique exploration of Korean selfhood and an extraordinary example of autobiography in the premodern era.

The EFTA Court Cambridge University Press

On the occasion of its tenth anniversary, the EFTA Court held a conference at which speakers were asked to reflect on the case law of the Court and its role in the European Economic Area (EEA). In the course of its work, the Court has acted as a driving force of integration under the EEA Agreement, by establishing general principles such as state liability and giving landmark judgments in several areas of European law. The essays in this volume, by leading experts and high-ranking representatives of national and European courts, cover areas such as the relationship between the principle of free movement and national or collective preferences on the EU/EEA and WTO levels, the relationship between the European courts and the Member States in European integration, homogeneity as a general principle of European integration, and the importance of judicial dialogue. In this

regard, the sentence from President Skouris of the Court of Justice of the European Communities, who called the dialogue between the EFTA Court and the EC Court 'a shining example of judicial cooperation', could also serve as a motto for the present book.

When Scotland Was Jewish Legare Street Press

The first collection of critical essays on May Swenson and her literary universe, *Body My House* initiates an academic conversation about an unquestionably major poet of the middle and late twentieth century. Between the 1950s and the 1980s, May Swenson produced eleven volumes of poetry, received many major awards, was elected chancellor of the Academy of American Poets, and was acclaimed by writers in virtually every school of American poetry. Essays here address the breadth of Swenson's literary corpus and offer varied scholarly approaches to it. They reference Swenson manuscripts---poems, letters, diaries, and other prose---some of which have not been widely available before. Chapters focus on Swenson's work as a nature writer; the literary and social contexts of her writing; her national and international acclaim; her work as a translator; associations with other poets and writers (Bishop, Moore, and others); her creative process; and her profound explorations of gender and sexuality. The first full volume of scholarship on May Swenson, *Body My House* suggest an ambitious agenda for further work. Contributors include Mark Doty, Gudrun Grabher, Cynthia Hogue, Suzann Juhasz, R.R. Knudson, Alicia Ostriker, Martha Nell Smith, Michael Spooner, Paul Swenson, and Kirstin Hotelling Zona.

The Gothic Screen Maisonneuve & Larose

European traders and soldiers established a foothold on Timor in the course of the seventeenth century, motivated by the quest for the commercially vital sandalwood and the intense competition between the Dutch and the Portuguese. *Lords of the Land, Lords of the Sea* focuses on two centuries of contacts between the indigenous polities on Timor and the early colonials, and covers the period 1600-1800.

Divine Scapegoats Blurb

This book reveals how Gothic choir screens, through both their architecture and sculpture, were vital vehicles of communication and shapers of community within the Christian church.

The 12th Planet Simon and Schuster

The Zen temple Daitoku-ji is known as "The Temple of Great Virtue." It was founded in the early fourteenth century and its

prestige allowed it to accumulate a treasury of Zen art. The daily practice of Zen goes on as it has since its beginning, with few concessions to modern living. This book looks at both aspects of the temple.

Dictionnaire nouveau et universel Routledge

This book integrates the problem of violence into a larger framework, showing how economic and political behavior are closely linked.

In *The Kazakh Khanates between the Russian and Qing Empires* Jin Noda portrays the structure of the foreign relations that existed between the Kazakh Chinggisid sultans and the Russian and Qing empires during the 18th and 19th centuries

Nan-tchao ye-che ... Springer Science & Business Media

A legend differs from an historical narrative only in this-that it is without documentary evidence of authenticity. It is the offspring solely of tradition. Its details may be true in part or in whole.

There may be no internal evidence to the contrary, or there may be internal evidence that they are altogether false. But neither the possibility of truth in the one case, nor the certainty of falsehood in the other, can remove the traditional narrative from the class of legends. It is a legend simply because it rests on no written foundation. It is oral, and therefore legendary.

A Glossary of the Tribes and Castes of the Punjab and North-West Frontier Province Duke University Press

Accounting for the Commandments in Medieval Judaism explores the discursive formation of the commandments as a generative matrix of Jewish thought and life in the posttalmudic period, correlating the diverse domains of jurisprudence, philosophy, ethics, pietism, and kabbalah.

Japan and China Utah State University Press

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated

in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Zen at Daitoku-ji eBookIt.com

Popol Vuh, the QuichÃ© Mayan book of creation is not only the most important text in the native language of the Americas, it is also an extraordinary document of the human imagination. It begins with the deeds of Mayan Gods in the darkness of a primeval sea and ends with the radiant splendor of the Mayan Lords who founded the QuichÃ© Kingdom in the Guatemalan highlands. Originally written in Mayan hieroglyphs, it was

translated into the Roman alphabet in the 16th century. The new edition of Dennis Tedlock's unabridged, widely praised translation includes new notes and commentary, newly translated passages, newly deciphered hieroglyphs, and over 40 new illustrations.
