Presents a practical guide to a wide range of oil painting techniques.

What Painting is Watson-Guptill

"An immensely readable book." - The Guardian "An engaging and entertaining tour through the history of art." - House & Garden "Never has writing about the great artists been so concise, so precise, and so insightful" a-n "The book beautifully mixes...personal recollections and musings with Katz's broader reflections on art history, and his notions of what makes a great painting." Elephant Magazine Have you ever dreamt of having your own private museum tour with one of the world's most-celebrated artists? Take a walk through art history in the company of one of the pre-eminent American painters of our time, Alex Katz. Describing his personal encounters with the work of over 90 key artists, Katz's observations offer a fluent, vivid and incisive view, making Looking at Art with Alex Katz the perfect guide both for those looking for an introduction to the world of visual art, and anyone looking for a fresh view on their favorite artist. Includes entries on: Francis Bacon, Louise Bourgeois, Paul Cézanne, Leonardo da Vinci, Peter Doig, Alberto Giacometti, Philip Guston, David Hockney, Henri Matisse, Joan Miró, Edvard Munch, Barnett Newman, Jackson Pollock, Rembrandt, Henri Rousseau, Titian, Luc Tuymans, Vincent van Gogh, Johannes Vermeer and more.

Introduction to Art: Design, Context, and Meaning National Geographic Books

A veteran art critic helps us make sense of modern and contemporary art The landscape of contemporary art has changed dramatically during the last hundred years: from Malevich's 1915 painting of a single black square and Duchamp's 1917 signed porcelain urinal to Jackson Pollock's midcentury "drip" paintings; Chris Burden's "Shoot" (1971), in which the artist was voluntarily shot in the arm with a rifle; Urs Fischer's "You" (2007), a giant hole dug in the floor of a New York gallery; and the conceptual and performance art of today's Ai Weiwei and Marina Abramovic. The shifts have left the art-viewing public (understandably) perplexed. In *The Art of Looking*, renowned art critic Lance Esplund demonstrates that works of modern and contemporary art are not as indecipherable as they might seem. With patience, insight, and wit, Esplund guides us through the last century of art and empowers us to approach and appreciate it with new eyes. Eager to democratize genres that can feel inaccessible, Esplund encourages viewers to trust their own taste, guts, and common sense. *The Art of Looking* will open the eyes of viewers who think that recent art is obtuse, nonsensical, and irrelevant, as well as the eyes of those who believe that the art of the past has nothing to say to our present.

Julian Bell's incisive, fully updated study of modern art and the nature of painting, which daringly tries to explain it "Yes, but is it art?" This lucid book by Julian Bell, himself a painter, confronts the uncertainty many people feel about art today and challenges generally accepted ideas. Now in a

completely revised second edition, *What is Painting?* is a fresh, focused look at painting. Bell addresses questions such as "does anything unite those objects we call paintings?" and "what factors have changed the nature of painting over the last two centuries?" by looking at historical evidence and reasoning from common experience. The current shape of painting pushes the book's arguments in new directions and a substantial new chapter, *The Arts and Art*, speaks to the interplay between 2D work, 3D work, and the immateriality of digital imagery. The text has been revised paragraph by paragraph considering both force of presentation and /historical perspective. The intention is to provide a general reader's introduction to theories of painting that is not only reliably informative but stimulating and amusing to read. The book is an introductory guide to art theory for everyone interested in understanding modern art or in making art themselves.

Mary Acton shows how you can learn to look at and understand an image by analysing how it works, what its pictorial elements are and how they relate to each other. She describes the ingredients of composition, space, form, tone and colour which make up a picture, and discusses the importance of subject matter and the original function and setting of a picture in appreciating its visual meanings.

Looking and Writing is an introductory guide for readers who are engaged in writing a visual analysis for the first time. Although it is written informally with the novice in mind, it provides the reader with the technical vocabulary appropriate to a visual analysis. KEY TOPICS Guidelines for the selection, analysis, and presentation of an image found in a museum or gallery setting or an on-line site form the core chapters of the book. Other chapters discuss the use of symbols, the cultural precepts of how we process visual information, suggestions for writing and proofreading an essay and the structure of a proper bibliography. For those interested in art history, or writing about art.

Art history encompasses the study of the history and development of painting, sculpture and the other visual arts. In this Very Short Introduction, Dana Arnold presents an introduction to the issues, debates, and artefacts that make up art history. Beginning with a consideration of what art history is, she explains what makes the subject distinctive from other fields of study, and also explores the emergence of social histories of art (such as Feminist Art History and Queer Art History). Using a wide range of images, she goes on to explore key aspects of the discipline including how we write,

present, read, and look at art, and the impact this has on our understanding of art history. This second edition includes a new chapter on global art histories, considering how the traditional emphasis on periods and styles in art originated in western art and can obscure other critical approaches and artwork from non-western cultures. Arnold also discusses the relationship between art and history, and the ways in which art can tell a different history from the one narrated by texts. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Just Look Yale University Press

A unique seventeenth-century account of painting as it was practiced, taught, and discussed during a period of extraordinary artistic and intellectual ferment in the Netherlands. The only comprehensive work on painting written by a Dutch artist in the later seventeenth century, Samuel van Hoogstraten's *Inleyding tot de hooge schoole der schilderkonst, anders de zichtbaere werelt* (Introduction to the Academy of Painting; or, The Visible World, 1678) has long served as a source of valuable insights on a range of topics, from firsthand reports of training in Rembrandt's studio to contemporary engagements with perspective, optics, experimental philosophy, the economics of art, and more. Van Hoogstraten's magnum opus—here available in an English print edition for the first time—brings textual sources into dialogue with the author's own experience garnered during a multifaceted career. Presenting novel twists on traditional topics, he makes a distinctive case for the status of painting as a universal discipline basic to all the liberal arts. Van Hoogstraten's arguments for the authority of what painters know about nature and art speak to contemporary notions of expertise and to the unsettled relations between theory and practice, making this book a valuable

document of the intertwined histories of art and knowledge in the seventeenth century.

Art History: a Very Short Introduction DK Publishing (Dorling Kindersley)

Beautifully illustrated by paintings from the National Palace Museum, this volume is the very first English guidebook written by a Chinese scholar, covering the history, philosophy, and techniques of traditional Chinese painting. Mr. Wang, curator of painting at the National Palace Museum, discusses pigments and colors, ink, inscriptions, seals and mounting, relationship between painting and calligraphy, and copies and forgeries.

Samuel van Hoogstraten's Introduction to the Academy of Painting; or, The Visible World Penguin

In this classic text, James Elkins communicates the experience of painting beyond the traditional vocabulary of art history. Alchemy provides a strange language to explore what it is a painter really does in the studio—the smells, the mess, the struggle to control the uncontrollable, the special knowledge only painters hold of how colors will mix, and how they will look. Written from the perspective of a painter-turned-art historian, this anniversary edition includes a new introduction and preface by Elkins in which he further reflects on the experience of painting and its role in the study of art today.

Looking at Pictures Revised Edition Getty Publications

Carle is one of the most beloved illustrators of children's books. This retrospective is more than just an appreciation of his art, however. The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues. Still, it is the artwork in the oversize volume that seizes the imagination. More than 60 of his full-color collage pictures are handsomely reproduced and serve as a statement of Carle's impressive talent. - Booklist

Ways of Seeing Simon and Schuster

"If John Berger's *Ways of Seeing* is a classic of art criticism, looking at the 'what' of art, then David Salle's *How to See* is the artist's reply, a brilliant series of reflections on how artists think when they make their work. The 'how' of art has perhaps never been better explored." —Salman Rushdie How does art work? How does it move us, inform us, challenge us? Internationally renowned painter David Salle's incisive essay collection illuminates these questions by exploring the work of influential twentieth-century artists. Engaging with a wide range of Salle's friends and contemporaries—from painters to conceptual artists such as Jeff Koons, John Baldessari, Roy Lichtenstein, and Alex Katz, among others—*How to See* explores not only the multilayered personalities of the artists themselves but also the distinctive character of their oeuvres. Salle writes with humor and verve, replacing the jargon of art theory with precise and evocative descriptions that help the reader develop a personal and intuitive engagement with art. The result: a master class on how to see with an artist's eye.
