Working-Class Literature(s) Statens  
 Maritima Museer (the Swedish State  
 Maritime Museum)  
 Sometimes you have to lose yourself to  
 find where you truly belong . . . Most girls  
 would kill to spend months traveling  
 around Europe after college graduation  
 with no responsibility, no parents, and no-  
 limit credit cards. Kelsey Summers is no  
 exception. She's having the time of her life  
 . . . or that's what she keeps telling  
 herself. It's a lonely business trying to find  
 out who you are, especially when you're  
 afraid you won't like what you discover. No

amount of drinking or dancing can chase  
 away Kelsey's loneliness, but maybe  
 Jackson Hunt can. After a few chance  
 meetings, he convinces her to take a  
 journey of adventure instead of alcohol.  
 With each new city and experience,  
 Kelsey's mind becomes a little clearer and  
 her heart a little less hers. Jackson helps  
 her unravel her own dreams and desires.  
 But the more she learns about herself, the  
 more Kelsey realizes how little she knows  
 about Jackson.

Emotion Measurement, Second Edition  
 highlights key elements of emotions that  
 should be considered in the measurement

of emotions in both academic and  
 commercial environments. This edition  
 begins with an updated review of basic  
 studies of emotion, including the theory,  
 physiology, and psychology of emotions,  
 as these are the foundational studies  
 which food scientists as well as product  
 developers and marketing professionals  
 need to be aware of. The second section  
 highlights methods for studying emotions,  
 and reviews the different approaches to  
 emotion measurement: questionnaire self-  
 report, behavioral, and physiological. This  
 section explores the merits of intrinsic  
 versus extrinsic measures of emotion.  
 Some new measurement approaches have  
 emerged since the first edition of this  
 book. The book then presents practical

applications, with chapters on emotion research in food and beverage, as well as in a range of products and clinical settings. The experience in testing product emotions has increased since the first edition when product emotion research was newer. Finally, *Emotion Measurement, Second Edition* provides coverage of cross-cultural research on emotions. This is critical because much of the newer commercial research is aimed at markets around the world, requiring methods that work in many cultures. And the universality of emotions has been a topic of research for decades. Taking both an academic and applied approach, *Emotion Measurement, Second Edition* will be an invaluable reference for those conducting basic academic research on emotions and for sensory and consumer scientists, and the product developers and marketing professionals they work alongside. Reviews both the academic and the applied strands of emotion measurement research. Focuses on cross-cultural studies of emotions, which is currently lacking from most of the literature in the field. Highlights methods for studying emotions in both basic and applied studies.

Kikongo (also known as Kongo) is a Bantu language spoken by over 5 million people worldwide, mostly by the Kongo and Ndundu people living in the tropical forests of the Democratic Republic of the Congo, the Republic of the Congo, and Angola. Kikongo was spoken by many from this region who were sold into slavery in the Americas. Thus creolized forms of the

language can be found in the ritual speech of Afro-American religions, especially in Brazil, Cuba, Puerto Rico, Dominican Republic and Haiti. It is also one of the sources of the Palenquero creole in Colombia, and the Gullah language spoken in coastal regions of South Carolina and Georgia in the United States. This unique, two-part resource provides travelers to Central Africa with the tools they need for daily interaction. The bilingual dictionary has a concise vocabulary for everyday use, and the phrasebook allows instant communication on a variety of topics. Ideal for businesspeople, travelers, students, and aid workers, this guide includes: 4,000 dictionary entries Phonetics that are intuitive for English speakers Essential phrases on topics such as transportation, dining out, and business Concise grammar and pronunciation sections

[A Dictionary of Musical Terms](#) Harper Collins

New York Times and USA Today bestselling author Cora Carmack follows up her trio of hits—*Losing It*, *Faking It*, and *Finding It*—with this thrilling first novel in an explosive series bursting with the Texas flavor, edge, and steamy romance of *Friday Night Lights*. In Texas, two things are cherished above all else—football and gossip. My life has always been ruled by both. Dallas Cole loathes football. That's what happens when you spend your whole childhood coming in second to a sport. College is her time to step out of the bleachers, and put the playing field (and the players) in her past. But life doesn't always go as planned. As if going to the same college as her football star ex wasn't bad enough, her father, a Texas high school coaching phenom, has decided to make the jump to college ball... as the new head coach at Rusk University. Dallas finds herself in the shadows of her father and football all over again. Carson McClain is determined to go from second-string quarterback to the starting line-up. He needs the scholarship and the future that football provides. But when a beautiful redhead literally falls into his life, his focus is more than tested. It's obliterated. Dallas doesn't know Carson is on the team. Carson doesn't know that Dallas is his new coach's daughter. And neither of them know how to walk away from the attraction they feel.

[The Social and Political Dimensions of the Latvian Prose Poem](#) Springer

These essays cover the history of working-class literature(s) in Argentina, Denmark, Germany, Japan, Singapore, South Africa and Ireland. Together with the essays in a previous volume, they give a complex

picture of working-class literatures.

**Chronicles of Wasted Time** MIT Press

Each of us has a special purpose in life—do you know what yours is? In *Heroic Living*, best-selling author and former investment banker Chris Lowney combines the proven practices of Ignatian spirituality with his business expertise to help each of us discover our mighty purpose in life and develop a personal life strategy to achieve it. By merging Ignatian Spirituality with astute business knowledge, Lowney provides the tools and strategies needed to make practical, long-term life changes that move us away from our fractured, compartmentalized lives and toward the satisfaction and wholeness that each of us desires so deeply.

[Finding It Plus](#)

With an acute attention to detail "*Stained Glass*" is the first collection of Mozambican poetry of its kind which tries to encompass the entire literary landscape with its variety and multiplicity. Translated from original Portuguese.

[Grand dictionnaire français-italien: Italian-French](#) Hippocrene Books

"The aim of this collection is to make possible the forging of a more robust, politically useful, and theoretically elaborate understanding of working-class literature(s). These essays map a substantial terrain: the history of working-class literature(s) in Russia/The Soviet Union, The USA, Finland, Sweden, The UK, and Mexico. Together they give a complex and comparative - albeit far from comprehensive - picture of working-class literature(s) from an international perspective, without losing sight of national specificities. By capturing a wide range of definitions and literatures, this collection gives a broad and rich picture of the many-faceted phenomenon of working-class literature(s), disrupts narrow understandings of the concept and phenomenon, as well as identifies and discusses some of the most important theoretical and historical questions brought to the fore by the study of this literature. If read as stand-alone chapters, each contribution gives an overview of the history and research of a particular nation's working-class literature. If read as an edited collection (which we hope you do), they contribute toward a more complex understanding of the global phenomenon of working-class literature(s)." Eating, including the provision of food and the consumption of food, is the biggest industry in the world, and a major contributor to our health, and to our enjoyment. This book on "Eating" is a unique and novel multi-disciplinary presentation of the whole breadth of research and discussion of the factors that impact eating, and reciprocally the factors that eating impacts. The purpose of this book is to familiarize readers with the areas of eating research and discussion with which they might not be familiar. The multi-disciplinary approach includes the basic and applied sciences (including biology, ecology, nutrition, and food science, as well as important behavioral and social sciences (including history, development, culinary arts, food service, business and marketing). The book ends with a review of current trends and predictions of the future for multiple aspects of eating.

**The Hebraic Tongue Restored and the True Meaning of the Hebrew Words Re-established and Proved by Their Radical Analysis** London : Collins

A neuroscientist and Zen practitioner interweaves the latest research on the brain with his personal narrative of Zen. Aldous Huxley called humankind's basic trend toward spiritual growth the "perennial philosophy." In the view of James Austin, the trend implies a "perennial psychophysiology"—because awakening, or enlightenment, occurs only when the human brain undergoes substantial changes. What are the peak experiences of enlightenment? How could

these states profoundly enhance, and yet simplify, the workings of the brain? *Zen and the Brain* presents the latest evidence. In this book Zen Buddhism becomes the opening wedge for an extraordinarily wide-ranging exploration of consciousness. In order to understand which brain mechanisms produce Zen states, one needs some understanding of the anatomy, physiology, and chemistry of the brain. Austin, both a neurologist and a Zen practitioner, interweaves the most recent brain research with the personal narrative of his Zen experiences. The science is both inclusive and rigorous; the Zen sections are clear and evocative. Along the way, Austin examines such topics as similar states in other disciplines and religions, sleep and dreams, mental illness, consciousness-altering drugs, and the social consequences of the advanced stage of ongoing enlightenment.
