Not illustrated. 1902 Excerpt: ...earth. r' = radius of moon, or other body. P = moon's horizontal parallax = earth's angular semidiameter as seen from the moon. f = moon's angular semidiameter. Now $P = P$ (in circular measure), $r'-r = r$ (in circular measure); $\therefore r: r': P: P'$, or (radius of earth): (radius of moon):: (moon's parallax): (moon's semidiameter). Examples. 1. Taking the moon's horizontal parallax as $57'$, and its angular diameter as $32'$, find its radius in miles, assuming the earth's radius to be 4000 miles. Here moon's semidiameter = $16'$; $\therefore 4000:: 57': 16'$; $\therefore r = 400 \cdot 16 = 1123$ miles. 2. The sun's horizontal parallax being $8''8$, and his angular diameter $32V$ find his diameter in miles. \therefore Am. 872,727 miles. 3. The synodic period of Venus being 584 days, find the angle gained in each minute of time on the earth round the sun as centre. Am. $1''-54$ per minute. 4. Find the angular velocity with which Venus crosses the sun's disc, assuming the distances of Venus and the earth from the sun are as 7 to 10, as given by Bode's Law. Since (fig. 50) $S V: VA:: 7: 3$. But Sr has a relative angular velocity round the sun of $1''-54$ per minute (see Example 3); therefore, the relative angular velocity of $A V$ round A is greater than this in the ratio of 7: 3, which gives an approximate result of $3''-6$ per minute, the true rate being about $4''$ per minute. Annual ParaUax. 95. We have already seen that no displacement of the observer due to a change of position on the earth's surface could apparently affect the direction of a fixed star. However, as the earth in its annual motion describes an orbit of about 92 million miles radius round the sun, the different positions in space from which an observer views the fixed stars from time to time throughout the year must be separated ...

 Daniel Defoe (1660-1731) born Daniel Foe, was an English trader, writer, journalist, pamphleteer, and spy. Defoe is noted for being one of the earliest proponents of the novel, and is among the founders of the English novel. He was a prolific and versatile writer, producing more than five hundred books, pamphlets, and journals on various topics, including politics, crime, religion, marriage, psychology, and the supernatural. Robinson Crusoe is Defoe's most successful work. First published in 1719, it was an instant success and went through four editions by the end of the year; Defoe followed it up with two sequels. The core of the story is an account of Crusoe's quarter century alone on an uninhabited island; near the end of his stay, he is joined by a Caribbean islander who becomes his manservant, Friday. Although one of the first novels in English, it is among the most popular and endures constant adaptations and imitations. This book is in the Deseret Alphabet, a phonetic alphabet for writing English developed in the mid-19th century at the University of Deseret (now the University of Utah).

Literature Studies - Literature, language: English, abstract: If ever the Story of any private Man's* Adventures in the World were worth making Publick, and were acceptable when Publish'd, the Editor of this Account thinks this will be so. The Wonders of this Man's Life exceed all that (he thinks) is to be found extant; the Life of one Man being scarce capable of a greater Variety. The Story is told with Modesty, with Seriousness, and with a religious Application of Events to the Uses to which wise Men always apply them (viz.) to the Instruction of others by this Example, and to justify and honor the Wisdom of Providence in all the Variety of our Circumstances, let them happen how they will. The Editor believes the thing to be a just History of Fact; neither is there any Appearance of Fiction in it: And however thinks, because all such things are dispatch'd, that the Improvement of it, as well as the Diversion, as to the Instruction of the Reader, will be the same; and as such he thinks, without farther Compliment to the World, he does them a great Service in the Publication.

'The Life and Adventures of Robinson Crusoe' is a novel by Daniel Defoe. Robinson Crusoe (the family name corrupted from the German name "Kreutznaer") set sail from Kingston upon Hull on a sea voyage in August 1651, against the wishes of his parents, who wanted him to pursue a career in law. After a tumultuous journey where his ship is wrecked in a storm, his desire for the sea remains so strong that he sets out to sea again. This journey, too, ends in disaster, as the ship is taken over by Salé pirates (the Salé Rovers) and Crusoe is enslaved by a Moor. Two years later, he escapes in a boat with a boy named Xury; a captain of a Portuguese ship off the west coast of Africa rescues him. The ship is en route to Brazil. Crusoe sells Xury to the captain. With the

captain's help, Crusoe procures a plantation in Brazil.

Set in the 17th century, Robinson Crusoe follows the eponymous Robinson Crusoe as he leaves home to make his fortune. After a series of misadventures in Africa, Crusoe is shipwrecked on a desert island for 28 years, forming much of the adventure. Crusoe's life on the island, his encounter with cannibals, and his rescue of shipwrecked Spaniards are highlights of the story. In The further adventures of Robinson Crusoe, Crusoe and Man Friday journey to Europe, then on a trading adventure to India and China. Rather than returning to Europe by ship, Crusoe's last great adventure is an overland journey across China and Siberia. Daniel Defoe (c.1659-1731) was an English writer credited with publishing the first English-language novel, ROBINSON CRUSOE. Born Daniel Foe, he wrote more than 500 works during his life, including novels and political works, and in a variety of subjects. [Robinson Crusoe](#) First Avenue Editions

He is most famous for his novel Robinson Crusoe, which is second only to the Bible in its number of translations. Defoe is noted for being one of the earliest proponents of the novel, as he helped to popularise the form in Britain with others such as Aphra Behn and Samuel Richardson, and is among the founders of the English novel. Defoe wrote many political tracts and often was in trouble with the authorities, including prison time. Intellectuals and political leaders paid attention to his fresh ideas and sometimes consulted with him.

Robinson Crusoe is a novel by Daniel Defoe, first published on 25 April 1719. The first edition credited the work's protagonist Robinson Crusoe as its author, leading many readers to believe he was a real person and the book a travelogue of true incidents. Epistolary, confessional, and didactic in form, the book is presented as an autobiography of the title character (whose birth name is Robinson Kreutznaer) a castaway who spends 28 years on a remote tropical desert island near the coasts of Venezuela and Trinidad, encountering cannibals, captives, and mutineers, before ultimately being rescued. The story has been thought to be based on the life of Alexander Selkirk, a Scottish castaway who lived for four years on a Pacific island called "Más a Tierra", now part of Chile, which was renamed Robinson Crusoe Island in 1966. Despite its simple narrative style, Robinson Crusoe was well received in the literary world and is often credited as marking the beginning of realistic fiction as a literary genre. It is generally seen as a contender for the first English novel. Before the end of 1719, the book had already run through four editions, and it has gone on to become one of the most widely published books in history, spawning so many imitations, not only in literature but also in film, television, and radio, that its name is used to define a genre, the Robinsonade.
