Trees & Me contains hundreds of ideas for fun, easy-to-do, hands-on experiences to connect young children to nature, with a focus on trees and forests. Through both outdoor and indoor activities, children

explore nature through their five senses, experience trees throughout all four seasons, and connect with their community. The 12 hands-on Trees & Me activities are designed for families and teachers to use with children ages 1-6 in a range of settings, including preschools, childcare centers, and nature centers, at home, or with families and friends spending time together. Special instructions tailor many experiences to children under 3 years of age. Families and caregivers, childcare providers, and early childhood educators can easily adapt

the activities as necessary to meet each child's unique needs, the environment where they live, and the materials available. Children learn concepts necessary to succeed in school, including age-appropriate literacy, math, and critical thinking skills. They make music, create things, and gain physical dexterity. They are empowered to work independently and in groups. Through dramatic play and skill practice, they explore careers which plants ideas for a child's future. What's more, research indicates that early exposure to nature and the outdoors improves

emotional and physical well-being, enhances learning, promotes positive social behavior, and makes children more likely to care about their environment throughout their lives. Each activity contains background information for adults, preparation, materials, and time requirements, plus explicit connections with early learning standards in science, English language arts, math, and social studies, as well as programs such as NAEYC and Head Start. Art is integrated throughout every activity and STEM is practiced through ten essential skills, , effectively integrating the disciplines of science, technology, engineering, and math. Each activity suggests concrete ways that families and friends can enhance the learning experience at home, including helping out in the community. The guide also provides reading and music suggestions, and valuable appendices, such as tested techniques for engaging early learners, tips for outdoor learning, bringing nature inside, and woodworking, that not only support the activities, but also serve as a resource in a range of situations.

Joshua is a high school student with a desire to please in order to avoid conflict and just make life go smoothly. President Swan is back in office and has a desire to please in order to increase his following, what any powerful man wants. They are destined to collide, one sounding the trumpet, the other turning it to his own advantage. How does a boy go from algebra class to the White House? How can he please his parents and God when they seem to want different things? How can he know what God's asking him to do? How does someone who wishes Jesus would just come and tell him what to do find his way through the trial of tribulation? By learning one simple thing: You don't need to know everything. You just need to know Jesus. As believers, we are often looking for signs of the times. The Trumpet and the Swan is a timely reminder that in all the watching, we need to keep our eyes on the only one who matters - Jesus. While this story feels as though it could be set in our not-so-distant future, the truth remains the same, Jesus is the answer for whatever we face today, tomorrow, and in whatever our future holds. - Jenn The Trumpet and the Swan is

yet another powerful end times story from author Lee Giles. Giles has a gift for writing books that not only brings the word of God alive through vivid story telling but leads the reader into deeper understanding of who God is and what we as Christians should be. This real time, end-of-days story encourages the heart of believers to "Fear God and nothing else, Love God and everybody else". Giles' masterful storytelling takes her readers on a journey that leads to the ultimate understanding that "all we need to know is Jesus". In an uncertain world that is spiraling out of control, this book brings you back to the basics of trusting the Father for everything. It will encourage the end time saints to stand firm and simply know Jesus. -K. Hart, house church leader This short novel pulled me in and would not let me go until I reached the powerful conclusion. You cannot remain the same after reading it. The struggles, triumphs, and faith of the young hero will force you to re-examine everything you have assumed to be true and normal, and to examine yourself and what you truly believe about God and His Word. You will emerge on the other side with a new focus

on what is real, what is important, what is true; and you will be prepared to be a disciple of Jesus no matter what may lie ahead. - D. John, Missionary

American Buffalo, which won both the Drama Critics Circle Award for the best

American play and the Obie Award, is considered a classic of the American theater. Newsweek acclaimed Mamet as the “hot young American playwright . . . someone to watch.” The New York Times exclaimed in admiration: “The man can write!” Other critics called the play “a sizzler,” “super,” and “dynamite.” Now from Gregory Mosher, the producer of the original stage production, comes a stunning screen adaptation, directed by Michael Corrente and starring Dustin Hoffman, Dennis Franz, and Sean Nelson. A classic tragedy, American Buffalo is the story of three men struggling in the pursuit of their distorted vision of the American Dream. By turns touching and cynical, poignant and violent, American Buffalo is a piercing story of how people can be corrupted into betraying their ideals and those they love.

It is the purpose of this paper to describe a neutron detector suitable for monitoring a flux of neutrons whose energy is greater than about 50 Mev. Detection of the neutrons is accomplished by their ability to induce fission in heavy elements. Kelly

and Wiegand studied the neutron fission of Bi, Pb, Ti, Hg, Au, and Pt at various neutron energies and the presently described counter is an application of this work.

When fire falls from the heavens... will the whole world burn? Dr. Morgan Sierra, an Oxford University psychologist with a deadly past, doesn't know the answer to that question — and doesn't care. All she knows is that her sister and niece have been abducted, held hostage for the stone pendants that Morgan and her sister wear: two of twelve relics once owned by the original Apostles. Forged in fire and wind, drowned in the blood of martyrs, the twelve Pentecost stones have been kept secret for two thousand years. But now the Keepers of the stones are being murdered, and the relics stolen by Thanatos, a shadowy group dedicated to remaking the world into a living Hell. The authorities are clueless; the world lies helpless. And Thanatos grows more powerful with each stone they take. Enter Jake Timber — agent of ARKANE, the British agency tasked with investigating the supernatural. Jake knows some of the secrets Morgan needs to save her family, but can't stop Thanatos without her help.

Only together can they stop Thanatos before the stones are captured, before Morgan's family is murdered, and before the world is changed forever. From flooded ruins in Italy, to religious sites in Israel, to the far reaches of Iran and Tunisia, Morgan and Jake must race across the world to find the stones before Thanatos gathers the relics and uses their power to turn Earth into a living Hell. But every step they take brings Morgan and Jake closer to the end. To the knife edge between salvation and madness. To the moment when Morgan will have to decide whether she will save her family... or save the world. Time is running out. Thanatos draws near. And the day of Pentecost is at hand. *Stone of Fire* is the first book in the ARKANE series by New York Times and USA Today bestselling author J.F. Penn. A guide to all kinds of addiction from a star who has struggled with heroin, alcohol, sex, fame, food and eBay, that will help addicts and their loved ones make the first steps into recovery "This manual for self-realization comes not from a mountain but from the mud...My qualification is not that I am better than you but I am worse." —Russell Brand With a rare mix of honesty, humor, and compassion, comedian and movie star Russell Brand mines his own wild story and shares the advice and wisdom he has gained through

his fourteen years of recovery. Brand speaks to those suffering along the full spectrum of addiction—from drugs, alcohol, caffeine, and sugar addictions to addictions to work, stress, bad relationships, digital media, and fame. Brand understands that addiction can take many shapes and sizes and how the

process of staying clean, sane, and unhooked is a daily activity. He believes that the question is not “Why are you addicted?” but “What pain is your addiction masking? Why are you running—into the wrong job, the wrong life, the wrong person’s arms?” Russell has been in all the twelve-step fellowships going, he’s started his own men’s group,

he’s a therapy regular and a practiced yogi—and while he’s worked on this material as part of his comedy and previous bestsellers, he’s never before shared the tools that really took him out of it, that keep him clean and clear. Here he provides not only a recovery plan, but an attempt to make sense of the ailing world.
