A graphic biography of Georgia O'Keeffe, one of the most significant artists of the 20th century, known for her paintings of enlarged flowers and renowned for her contribution to modern art Georgia O'Keeffe (1887-1986), the American artist known for her paintings of enlarged flowers, New York skyscrapers, and New Mexico landscapes, was one of the most significant artists of the 20th century. During her lifetime, which spanned almost a century, she became widely recognized for her enormous contribution to modern art. Drawing mainly from O'Keeffe's letters, which are depicted in this biography, artist María Herreros delves into O'Keeffe's deepest self: a tireless traveler, a nature lover, a strong and emancipated woman who carved her own determined path through life and did it her way.

Serra de Tramuntana Taylor & Francis

First we thought we could go around the world in 4 years. Then we were convinced that we could do it in 7. When we got to the sixth year of travel, we felt that 10 was a good round number. Almost 20 years later we are still on the road. And there's still half the planet left to explore. "I'll never forget that Monday when I put the barrel of a gun to my head and fired until I was out of bullets, without stopping to think of what I was doing so I wouldn't have a chance to change my mind. It was my resignation to a future which I already knew, a farewell to a secure job, an adieu to a brilliant career in advertising, the microcosm where I had lived for the last twelve long years. It was ten minutes after ten in the morning and my last words were, more or less 'keep the corpse, I'm leaving.' My body collapsed and I walked out the door" The Book of Independence, is a journey through some of the world's worst backcountry roads with a 4x4 truck transformed into a house on wheels.

The Mountains of Montenegro Cicerone Press Limited

This book analyses the cultural elements of 21st-century tourism. The structure of the book is based on four main issues, which will help further the reader's understanding of present-day experiential tourism: namely urban and cultural tourism on a global scale; specific studies of new products linked to reappraising the landscape; heritage; and nature. It also examines the influence of branding and of the images projected in order to promote this new type of tourism, using both theoretical and general approaches. Finally, the Camino de Santiago is analysed as a paradigm of the new pilgrimage routes all over the world, with their implications and polysemic nature. Culture, nature, spirituality and urbanism are brought together in a series of studies of contemporary tourist activities. Tourism is, in short, an activity that marks the return of slow movement, of calm and relaxation, of the landscape and of self-rediscovery as a reappraised counterpoint to the frenetic pace of life in modern-day societies.

The nature of the currently emerging European society, which includes the economic and social transformation of Eastern and Central European countries, has been hotly debated. At its center is the relationship between markets and civil society within political and social contexts. The contributors to this volume offer perspectives from various disciplines (the social sciences, conceptual history, law, economics) and from several European countries in order to explore the ways in which markets influence various forms of civil society, such as individual freedom, social cohesion, economic effectiveness and democratic governance, and influence the construction of a civil society in a broader sense.

With an expected growth rate of around 6 per cent rural tourism is developing faster than the overall growth rate for international tourism arrivals. Due to its special importance for the European region, three seminars were held in Belgrade (Serbia), Kielce (Poland) and Yaremcha (Ukraine) to focus on three major issues: to contribute to a better understanding of rural tourism and to offer additional tools for planning and execution of initiatives; to enhance the importance of rural tourism in the agendas of governments and international organizations; to generate political and financial support for the development of rural tourism. When Jerry Moffatt burst onto the scene as a brash 17-year-old, rock climbing had never seen anyone like him before. Fiercely ambitious, even as a boy Moffatt was focused on one thing: being the best in the world. This is the story of his meteoric rise to stardom, and how he overcame injury to stay at the top for over two decades. Top sport climber, brilliant competitor and a pioneer in the new game of bouldering, Moffatt's story is that of climbing itself in the last thirty years. Yet Jerry Moffatt is more than a dedicated athlete. Travelling the world to fulfil his dreams, his story is a compelling and often hilarious account of the climbing community with all its glories, dangers and foibles, as well as the story of a true sporting legend. Grand Prize Winner - Banff Mountain Book Festival 2009.

Una antigua leyenda dice: «Cuando la ardiente estrella Sirio cabalga en el cielo nocturno junto al cazador Orión, si un cometa naranja cruza entonces el firmamento, sabrás que se ha abierto la Puerta a las Estrellas»... Violeta —más conocida como Finisterre—, Nika y Javier solo comparten unos días de vacaciones en un campamento de verano, pero sus vidas cambian cuando una desconocida pone en sus manos un extraño medallón, mientras visitan el pueblo maldito de Ochate. Entonces son arrancados de la tierra e inician así una odisea por mundos lejanos y peligrosos. Ellos aún no lo saben, pero los han elegido para cumplir una misión. Porque quienes portan ese objeto y atraviesan la puerta del Nunrat, tienen la oportunidad de hacer un viaje extraordinario, pero también se convierten a la fuerza en guardianes del "Mentagión".

Drawing upon his own extensive knowledge of European archaeology, Graeme Barker has impressively integrated the full range of archaeological data to produce in this book a masterly account of prehistoric farming in Europe on a unique scale. He makes use of modern archaeological techniques to reconstruct the lives of prehistoric farmers in remarkable detail. Not only do we now have a vivid picture of the prehistoric farmyard, but we know what animals were kept, how they were fed and why they were bred. Evidence for crops grown and techniques of cultivation and husbandry helps recreate the prehistoric landscape. Even the social organisation that determined the use of resources, and provided the crucial stimulus for agricultural change, can be relived. Graeme Barker develops his argument through analogies with the agricultural history of classical and medieval Europe and concludes that today's industrial farmers can learn much from the successes and failures of early European farming.

A thoughtful and eloquent meditation that invites us to treat life like a grand exploration and illuminates the possibilities that await us when we do—from "a philosophical adventurer—or perhaps an adventurous philosopher" (The New York Times). Erling Kagge is one of the world's most accomplished explorers. He was the first to conquer all three poles on foot, by climbing Mount Everest and walking to the North and South Poles. In this thought-provoking and inspiring book, he uses the wisdom and expertise he has gained on his travels to reflect on life, nature, and humanity.

Simple things like getting up early and accepting failure can make a difference, whether battling an arctic storm or stuck in traffic. And practices such as cultivating optimism and being open-minded when pursuing goals can benefit our lives enormously, wherever our paths may take us.

At the Mercy of the Winds Berghahn Books

This guidebook offers a selection of 38 routes from simple day walks, high mountain scrambles to very demanding multi-day treks in the striking Sierra Nevada, the highest mountain range in mainland Spain. Easily accessible from Granada and Malaga, it is a world of soaring, snow-clad peaks and deep valleys, far removed from the crowded beaches of the Costa del Sol just two hours away. The routes are spread across the national park, with attractive towns and villages such as Trevelez, Lanjaron, Hoya de la Mora and Cumbres Verdes serving as potential bases for a walking holiday. From more leisurely outings in the Cumbres Verde area to ascents of mainland Spain's highest summit, Mulhacen, there are routes to suit a range of abilities, although most require a reasonable degree of fitness, navigational skill and experience of high mountain terrain. Whilst some of the routes are day or half-day walks, others take advantage of the region's network of mountain shelters or offer an opportunity to wild camp. Also included are three longer traverses: 'Los Tres Picos' (the Spanish Three Peaks - Veleta, Mulhacen and Alcazaba), 'Los Tres Miles' Integral (a multi-day trek covering all the major 3000m peaks in the range) and an overview of the 302km Sulayr GR240. The walks can be enjoyed most of the year, however conditions may prove too hot at the peak of summer and extra care and equipment will be required in snow or ice: the descriptions assume summer conditions, but include additional notes for winter walking. The guide also includes advice on transport, bases and safety, a tick-list of the 3000m peaks and a Spanish-English glossary.
