RAMOS SAWYER

A New General Biographical

Dictionary Manchester University Press
 A poetic portrait of Paris that combines prose poetry, diary, and memoir by award-winning writer and poet Henri Cole. Henri Cole's Orphic Paris combines autobiography, diary, essay, and poetry with photographs to create a new form of elegiac memoir. With Paris as a backdrop, Cole, an award-winning American poet, explores with fresh and penetrating insight the nature of friendship and family, poetry and solitude, the self and freedom. Cole writes of Paris, "For a time, I lived here, where the call of life is so strong. My soul was colored by it. Instead of worshipping a

creator or man, I cared fully for myself, and felt no guilt and confessed nothing, and in this place I wrote, I was nourished, and I grew." Written under the tutelary spirit of Orpheus—mystic, oracular, entrancing—Orphic Paris is an intimate Paris journal and a literary commonplace book that is a touching, original, brilliant account of the city and of the artists, writers, and luminaries, including Cole himself, who have been moved by it to create.

historique et pittoresque du Muséum d'Histoire Naturelle par Emm. Lemaout

Since his international breakthrough with 1960's *La Route des Flandres*, Claude Simon has captivated readers worldwide with his relentless examination of interior life - in particular his own. Breaking from realistic narrative, obsessed with the power (and betrayals) of memory, *The Jardin des Plantes* is nothing less than an inquiry into what creates each of us. While admitting that there are defining moments in one's life - eight days of battle during World War II was Simon's unforgettable experience - *The Jardin des Plantes* rings with his refusal to be defined by any single event. His thoughts show the complexity, the fabulous chaos, that makes up the experience of life for Simon and, he insists, for all thinking human beings. These memories - whether everyday minutiae or passages from novels or the staggering experiences of war and death - unreel like films, constantly replaying or stopping and starting according to the whimsical or terrifying nature of his experiences. The juxtapositions may hold meaning, or be nothing more than a trick of the mind. What is important is that each memory has a place in his mind and each has an effect on his self and the way he projects that self

This collection of essays celebrates the work of the French Nobel prize-winning novelist Claude Simon. Scholars from France, Germany, the United States and the United Kingdom reconsider the fifty years of Simon's fiction in the light of his large-scale autobiographical novel *Le Jardin des Plantes* (1997). From a variety of perspectives - postmodernist, psychoanalytic, aesthetic - contributors reflect on the central paradox of Simon's work: his writing and rewriting of an experience of war so disruptive and

traumatic that words can never be adequate to communicate it. The layers of artifice in *Le Jardin des Plantes* and the nature of Simon's aesthetic are analysed in essays which explore intertextual resonances between Simon and Proust, Flaubert, Borges and Poussin. A complementary view of Simon's *Photographies 1937-1970* shows that it too can be seen as form of indirect autobiography.

L'aventure du Muséum d'histoire naturelle commence sous Louis XIII. Développé par Buffon, il doit à la Convention son acte de création en 1793 qui réunit le Jardin royal des plantes et le Cabinet d'histoire naturelle sous la houlette de Jussieu et de Geoffroy Saint-Hilaire, notamment, tandis que Bernardin de Saint-Pierre l'auteur de Paul et Virginie, contribue à la naissance de la Ménagerie. Les XIXe et XXe siècles l'enrichiront encore sur le plan scientifique comme sur le plan architectural. Si la gloriolite construite pour Buffon au sommet du labyrinthe reste la plus ancienne, architecture métallique de Paris, les serres carrées en constituent les incunables français. Cet itinéraire parcourt des bâtiments de facture et de fonction différentes : galeries de l'Evolution, de Paléontologie et d'Anatomie comparée, de Minéralogie, de Botanique... Il explique les jardins, visite la ménagerie s'attarde sur un arbre ou une sculpture et présente également les établissements rattachés au Muséum.

Inspired by the wartime experiences of her father-in-law, Bobbie Ann Mason has crafted the haunting and profoundly moving story of an American World War II pilot shot down in Occupied Europe, and his wrenching odyssey of discovery, decades later, as he uncovers the truth about those who helped him escape in 1944. At twenty-three, Marshall Stone was a confident, cocksure U.S. flyboy stationed in England, with several bombing raids in a B-17 under his belt. But when enemy fighters forced his plane to crash-land in a Belgian field during a mission to Germany, Marshall had to rely solely on the kindness of ordinary Belgian and French citizens to help him hide from and evade the Nazis. Decades later, restless and at the end of his career as an airline pilot, Marshall returns to the crash site and finds himself drawn back in time, unable to stop thinking about the people who risked their lives to save Allied pilots like him. Most of all, he is obsessed by the girl in the blue beret, a courageous young woman who protected and guided him in occupied Paris. Framed in spellbinding, luminous prose, Marshall's search for her gradually unfolds, becoming a voyage of discovery that reveals truths about himself and the people he knew during the war. Deeply beautiful and impossible to put down, *The Girl in the Blue Beret* is an unforgettable story—intimate, affecting, exquisite—of memories, second chances, and one intrepid girl who risked it all for a stranger. *A New General Biographical Dictionary: ed. by Thomas Wright* Wentworth Press

Le jardin des plantes New York Review of Books

Spanning from the West African coast to the Canadian prairies and south to Louisiana, the Caribbean, and Guiana, France's Atlantic empire was one of the largest political entities in the Western Hemisphere. Yet despite France's status as a nation at the forefront of architecture and the structures and designs from this period that still remain, its colonial building program has never been considered on a hemispheric scale. Drawing from hundreds of plans, drawings, photographic field surveys, and extensive archival sources, *Architecture and Urbanism in the French Atlantic Empire* focuses on the French state's and the Catholic Church's ideals and motivations for their urban and architectural projects in the Americas. In vibrant detail, Gauvin Alexander Bailey recreates a world that has been largely destroyed by wars, natural disasters, and fires – from Cap-François (now Cap-Haïtien), which once boasted palaces in the styles of Louis XV and formal gardens patterned after Versailles, to failed utopian cities like Kourou in Guiana. Vividly illustrated with examples of grand buildings, churches, and gardens, as well as simple houses and cottages, this volume also brings to life the architects who built these structures, not only French military engineers and white civilian builders, but also the free people of colour and slaves who contributed so much to the tropical colonies. Taking readers on a historical tour through the striking landmarks of the French colonial landscape, *Architecture and Urbanism in the French Atlantic Empire* presents a sweeping panorama of an entire hemisphere of architecture and its legacy.

Ce beau livre extraordinaire et curieux est paru à l'origine en 1847. Dans chaque chapitre, des planches de fleurs personnifiées sont accompagnées d'un conte qui est basé sur la mythologie et folklore de la fleur en question. Une

collection tout à fait charmante que l'enfant tout comme l'adulte appréciera énormément. Grande partie des premiers livres, en particulier ceux qui datent d'avant 1920, sont aujourd'hui très rares et de plus en plus chers. Nous offrons des rééditions modernes de haute qualité et à prix abordables qui contiennent le texte et l'art originaux de ces ouvrages classiques.

Claude Simon et les jardin des plantes ABRAMS

The spectacular transformation of Paris during the 19th century into a city of tree-lined boulevards and public parks both redesigned the capital and inspired the era's great Impressionist artists. The renewed landscape gave crowded, displaced urban dwellers green spaces to enjoy, while suburbanites and country-dwellers began cultivating their own flower gardens. As public engagement with gardening grew, artists increasingly featured flowers and parks in their work. *Public Parks, Private Gardens* includes masterworks by artists such as Bonnard, Cassatt, Cézanne, Corot, Daumier, Van Gogh, Manet, Matisse, Monet, and Seurat. Many of these artists were themselves avid gardeners, and they painted parks and gardens as the distinctive scenery of contemporary life. Writing from the perspective of both a distinguished art historian and a trained landscape designer, Colta Ives provides new insights not only into these essential works, but also into this extraordinarily creative period in France's history.

Claude Simon Metropolitan Museum of Art In 1902, the young German writer Rainer Maria Rilke travelled to Paris to write a monograph on the sculptor Auguste Rodin. He returned to the city many times over the course of his life, by turns inspired and appalled by the high culture and low society. Paris was a lifelong source of inspiration for Rilke. Perhaps most significantly, the letters he wrote about it formed the basis of his prose masterpiece, *The Notebooks of Malte Laurids Brigge*. This volume brings together a new translation of Rilke's essay on poetry, *Notes on the Melody of Things*, and the first English translation of Rilke's experiences in Paris as observed by his French translator, Maurice Betz.
