'With charm, erudition, humour and passion, the world's favourite natural history broadcaster documents some of his expeditions from the late 1950s onwards' Sunday Express Following the success of the original Zoo Quest expeditions, the young David

Attenborough embarked on further travels in a very different part of the world. From Madagascar and New Guinea to the Pacific Islands and the Northern Territory of Australia, he and his cameraman companion were aiming to record not just the wildlife, but the way of life of some of the indigenous people of these regions, whose traditions had never been encountered by most of the British public before. From the land divers of Pentecost Island and the sing-sings of New Guinea, to a Royal Kava ceremony on Tonga and the ancient art of the Northern Territory, it

is a journey like no other. Alongside these remarkable cultures he encounters paradise birds, chameleons, sifakas and many more animals in some of the most unique environments on the planet. Written with David Attenborough's characteristic charm, humour and warmth, Journeys to the Other Side of the World is an inimitable adventure among people, places and the wildest of wildlife. 'Abundantly good' TLS 'A wondrous reminder of Attenborough's pioneering role . . . full of delightful tales' Daily Express 'An adventure that sparked a

lifetime's commitment to the planet' The Lady 'Attenborough is a fine writer and storyteller' Irish Times

*Life Between Lives Twelve*

In 1958, a successful businessman named Robert Mornroe began to have experiences that drastically altered his life. Unpredictably, and without his willing it, Monroe found himself leaving his physical body to travel via a "second body" to locales far removed from the physical and spiritual realities of his life. He was inhabiting a place unbounded by life or death. Monroe recorded these experiences in two bestselling, landmark books, *Journeys Out of the Body* and *Far Journeys*. *Ultimate Journey*, his final and career-defining work, takes us further than we thought possible—and reveals to us what it all means. *Ultimate Journey* charts that area which lies "over the edge," beyond the limits of the physical world. It presents us with a map of the "interstate"—the route that opens to us when we leave our physical lives, with their entry and exit ramps, their signposts and their hazards. It also tells us how Monroe found the route and travelled it, and uncovered the reason and the

purpose of this pioneering expedition. It is a journey that reveals basic truths about the meaning and purpose of life—and of what lies beyond.

*Getting to the Other Side of Grief* Quercus From Madagascar and New Guinea to the Pacific Islands and the Northern Territory of Australia, young David Attenborough and his cameraman were aiming to record not just the wildlife, but the way of life of some of the indigenous people of these regions, whose traditions had never been encountered by most of the public before. In the late 1950s onward, following the success of the original *Zoo Quest* expeditions, Attenborough embarked on further travels in a very different part of the world. From the land divers of Pentecost Island and the sing-sings of New Guinea, to a Royal Kava ceremony on Tonga and the ancient art of the Northern Territory, it is a journey like no other. Alongside these remarkable cultures he encounters paradise birds, chameleons, sifakas and many more animals in some of the most unique environments on the planet. Written with David Attenborough's characteristic charm, humor and warmth, *Journeys to the Other Side of the World* is

an inimitable adventure among people, places and the wildest of wildlife. span *The Other Side of the Mountain* BBC Books FINALIST FOR THE BOOKER PRIZE & WINNER OF THE L.A. TIMES BOOK PRIZE FOR FICTION and THE ASPEN WORDS LITERARY PRIZE "It was as if Hamid knew what was going to happen to America and the world, and gave us a road map to our future... At once terrifying and ... oddly hopeful." —Ayelet Waldman, *The New York Times* Book Review "Moving, audacious, and indelibly human." —*Entertainment Weekly*, "A" rating *The New York Times* bestselling novel: an astonishingly visionary love story that imagines the forces that drive ordinary people from their homes into the uncertain embrace of new lands, from the author of *The Reluctant Fundamentalist* and the forthcoming *The Last White Man*. In a country teetering on the brink of civil war, two young people meet—sensual, fiercely independent Nadia and gentle, restrained Saeed. They embark on a furtive love affair, and are soon cloistered in a premature intimacy by the unrest roiling their city. When it explodes, turning familiar streets into a patchwork of

checkpoints and bomb blasts, they begin to hear whispers about doors—doors that can whisk people far away, if perilously and for a price. As the violence escalates, Nadia and Saeed decide that they no longer have a choice. Leaving their homeland and their old lives behind, they find a door and step through. . . . Exit West follows these remarkable characters as they emerge into an alien and uncertain future, struggling to hold on to each other, to their past, to the very sense of who they are. Profoundly intimate and powerfully inventive, it tells an unforgettable story of love, loyalty, and courage that is both completely of our time and for all time.

**The Other Side of Glory** Harper Collins  
Jacob is a man with an overwhelming attraction to female feet. The Baroness is a clothing designer and evangelical sadist. Roy is a wedding band singer entranced by his step daughter. Ron and Laura are simply in love - only Laura lost both her legs in a car accident, and Ron is beguiled by a beauty many would be blind to. How do we deal with desire? Our own, and the desires of others? How do we comprehend desires that are extreme, or

unacceptable? And how do those who have them, live with them? In *A Map of Desire* Daniel Bergner takes us on a journey into human passion suffered, endured, and celebrated. *Desire* is a sometimes anarchic, sometimes ecstatic, sometimes destructive, sometimes redeeming, and always powerful force. Immersing himself in it through the people whose lives he follows and the scientists he spends time with who are trying to understand it, slowly he exposes and illuminates layers of our humanity.

Award-winning Mexican author Juan Pablo Villalobos explores illegal immigration with this emotionally raw and timely nonfiction book about ten Central American teens and their journeys to the United States. You can't really tell what time it is when you're in the freezer. Every year, thousands of migrant children and teens cross the U.S.-Mexico border. The journey is treacherous and sometimes deadly, but worth the risk for migrants who are escaping gang violence and poverty in their home countries. And for those refugees who do succeed? They face an immigration process that is as winding and

multi-tiered as the journey that brought them here. In this book, award-winning Mexican author Juan Pablo Villalobos strings together the diverse experiences of eleven real migrant teenagers, offering readers a beginning road map to issues facing the region. These timely accounts of courage, sacrifice, and survival—including two fourteen-year-old girls forming a tenuous friendship as they wait in a frigid holding cell, a boy in Chicago beginning to craft his future while piecing together his past in El Salvador, and cousins learning to lift each other up through angry waters—offer a rare and invaluable window into the U.S.-Central American refugee crisis. In turns optimistic and heartbreaking, *The Other Side* balances the boundless hope at the center of immigration with the weight of its risks and repercussions. Here is a necessary read for young people on both sides of the issue.

The New York Times–bestselling author of *Unsinkable* “recounts the disaster from the vantage point of nearby vessels” (Publishers Weekly). A few minutes before

midnight on April 14, 1912, the “unsinkable” RMS Titanic, on her maiden voyage to New York, struck an iceberg. Less than three hours later, she lay at the bottom of the Atlantic Ocean. While the world has remained fascinated by the tragedy, the drama of those fateful hours was not only played out aboard the doomed liner. It also took place on the decks of two other ships, one fifty-eight miles distant from the sinking Titanic, the other barely ten miles away. The masters of the steamships Carpathia and Californian, Capt. Arthur Rostron and Capt. Stanley Lord, were informed within minutes of each other that their vessels had picked up the distress signals of a sinking ship. Their actions in the hours and days that followed would become the stuff of legend, as one would choose to take his ship into dangerous waters to answer the call for help, while the other would decide that the hazard to himself and his command was too great to risk responding. After years of research, Daniel Allen Butler now tells this incredible story, moving from ship to ship on the icy waters of the North Atlantic—in real time—to recount how hundreds of people could

have been rescued, but in the end, only a few outside of the meager lifeboats were saved. He then looks at the US Senate investigation in Washington, and ultimately, the British Board of Trade inquiry in London, where the actions of each captain are probed, questioned, and judged, until the truth of what actually happened aboard the Titanic, the Carpathia, and the Californian is revealed. “Powerful . . . very, very well-done.” —New York Times—bestselling author Clive Cussler

 For psychiatrist and psychoanalyst Dr.

David McBride, death exerts an unusual draw. Despite his profession, he has never come to terms with the violent accident that took his brother’s life, a trauma that has shaped his personality and subsequent choice of career. But when a failed suicide, Elizabeth Cruikshank, comes into his care, he finds the deepest reaches of his suppressed history being reactivated. Elizabeth is mysteriously reticent about her own past and it is not until David recalls a painting by the Italian artist Caravaggio that she finally yields her story. As she recounts the chance encounter which took her to Rome, and her tragic tale of passion and betrayal, David begins to find a strange and disturbing reflection of his own loss in the haunted “other side” of this elusive woman. Through one long night’s dialogue they journey together into a past which brings painful new insight and uncertain resolution to each of them. *The Other Side of You* is a powerful meditation on art, and on love in all its manifestations. In distinctive, graceful prose, Salley Vickers explores the ways both love and art can penetrate the complexities of the human heart, to invade and change our being,

and the possibilities of regeneration through another's vision and understanding.

What happens when fate says 'go'? Lost & Found meets The Rosie Project in a stunning break-out novel where a vulnerable misfit is forced to re-engage with the world, despite her best efforts. Meet Mercy Blain, whose house has just burnt down. Unfortunately for Mercy, this goes beyond the disaster it would be for most people: she hasn't been outside that house for two years. Flung out into the world she's been studiously ignoring, Mercy goes to the only place she can: her not-quite-ex-husband Eugene's house. But it turns out she can't stay there either. And so begins Mercy's unwilling journey. After the chance purchase of a cult classic campervan (read tiny, old and smelly), with the company of her sausage dog, Wasabi, and a mysterious box of cremated remains, Mercy heads north from Adelaide to Darwin. On the road, through badly timed breakdowns, gregarious troupes of grey nomads, and run-ins with a rogue adversary, Mercy's carefully constructed

walls start crumbling. But what was Mercy hiding from in her house? And why is Eugene desperate to have her back in the city? They say you can't run forever... Exquisite, tender and wry, this is a break-out novel about facing anxiety and embracing life from an extraordinary new talent. PRAISE: 'Tender, funny and quietly profound, The Other Side of Beautiful is a breath of fresh air.' - The Sunday Times 'A colourful, engaging story of escape and road-trip adventure ... also compellingly cinematic and features an endearing narrator-heroine with plenty of meaty real-world troubles.' - Sydney Morning Herald 'An engaging story about second chances and a life changing road trip ... a heart-warming story.' - Canberra Weekly magazine 'Mercy Blain is a character you find yourself cheering on. Kim Lock mixes the transformative journey of Alice Hart with the quiriness of Eleanor Oliphant in this story about embracing life, even when it threatens to overwhelm you' - Tricia Stringer, bestselling author of The Family Inheritance 'Mercy Blain is an unforgettable character who will capture your heart from the first pages and hold it through until the end. Her madcap journey

towards forgiveness - of herself and others - is moving and funny and all other good things that will make you want to keep reading and make you sad when your time with Mercy comes to an end.' - Sophie Green, bestselling author of The Shelly Bay Ladies Swimming Circle Adventures of a Young Naturalist Penguin We tend to understand grief as a predictable five-stage process of denial, anger, bargaining, depression, and acceptance. But in The Other Side of Sadness, George Bonanno shows that our conventional model discounts our capacity for resilience. In ...

**Life on Air** Simon and Schuster "A GREAT BOOK." --THE NEW YORK TIMES "MARVELOUS." --THE TELEGRAPH "A RARE GLIMPSE OF A FLEDGLING DAVID ATTENBOROUGH IN THE WILD." --VANITY FAIR Living legend and presenter of BBC's Planet Earth series Sir David Attenborough tells the story of his early career as a broadcaster and a naturalist in his own words. In 1954, David Attenborough, a young television presenter, was offered the opportunity of a lifetime--to travel the world finding rare and elusive animals for the London Zoo's collection, and to film

the expedition for the BBC for a new show called Zoo Quest. This is the story of those voyages. Staying with local tribes while trekking in search of giant anteaters in Guyana, Komodo dragons in Indonesia, and armadillos in Paraguay, he and the rest of the team contended with cannibal fish, aggressive tree porcupines, and escape-artist wild pigs, as well as treacherous terrain and unpredictable weather, to record the incredible beauty and biodiversity of these regions. Written with his trademark wit and charm, *Adventures of a Young Naturalist* is not just the story of a remarkable adventure, but of the man who made us fall in love with the natural world and taught us the importance of protecting it--and who is still doing so today.

The New York Times Bestseller What if everything you think you know about addiction is wrong? Johann Hari's journey into the heart of the war on drugs led him to ask this question--and to write the book that gave rise to his viral TED talk, viewed more than 62 million times, and inspired

the feature film *The United States vs. Billie Holiday* and the documentary series *The Fix*. One of Johann Hari's earliest memories is of trying to wake up one of his relatives and not being able to. As he grew older, he realized he had addiction in his family. Confused, not knowing what to do, he set out and traveled over 30,000 miles over three years to discover what really causes addiction--and what really solves it. He uncovered a range of remarkable human stories--of how the war on drugs began with Billie Holiday, the great jazz singer, being stalked and killed by a racist policeman; of the scientist who discovered the surprising key to addiction; and of the countries that ended their own war on drugs--with extraordinary results. *Chasing the Scream* is the story of a life-changing journey that transformed the addiction debate internationally--and showed the world that the opposite of addiction is connection.

You're faced with a difficult health condition. You have exhausted medicine's answers. What do you do? Susannah Meadows tells the real-life stories of seven

families who persisted when traditional medicine alone wasn't enough. Their adventures take us to the outer frontiers of medical science and cutting-edge complementary therapies, as Meadows explores research into the mind's potential to heal the body, the possible role food may play in reversing disease, the power of agency, perseverance, and hope--and more. When journalist Susannah Meadows noticed her three-year-old son, Shepherd, shying away from soccer practice, she had no idea it was the first sign of juvenile idiopathic arthritis. The diagnosis was the first step of a long journey, physically painful for Shepherd and emotionally wrenching for Susannah and her family. But they pressed on, and using a combination of traditional and complementary medicine they beat the disease, and the odds. Meadows chronicles her own story, and takes you into the lives of other remarkable people, exploring their heartbreaks and triumphs. One boy who has severe food allergies undergoes an unconventional therapy and is soon eating everything. An organic farmer in Washington State tries to solve the puzzle of her daughter's epileptic

seizures. A physician with MS creates her own combination of treatments and goes from a wheelchair to riding a bike again. A child diagnosed with ADHD refuses to take medication and instead improves his life, and the life of his family, after changing his diet. Other families take on rheumatoid arthritis and autistic behaviors. Meadows includes new information about traditional and nontraditional medicine and the latest science on how the health of our gut bacteria is connected to wellness—and how the right foods play a key role in helping this microscopic population thrive. She also talks with scientists who study the traits and circumstances that may make some people keep going when others feel helpless. These researchers are illuminating the psychology of healing—how the mind, and asserting control over your body and health, can play a part in recovery. Fascinating, moving, and profoundly inspiring, *The Other Side of Impossible* gives us people driven by love, desperation, and astonishing resolve—a community of the defiant who share an extraordinary talent for hope and for fighting the battle for healing in today's world and tomorrow's.

of Nan Goldin's seminal book *The Other Side*, originally published in 1993. There will be a revised introduction by Goldin, and for the first time the voices of those whose stories are represented. Now being released at a time when the discourse around gender and sexual orientation is evolving, *The Other Side* traces some of the history that informs this new visibility. The first photographs in the book are from the 1970s, when Goldin lived in Boston with a group of drag queens and documented their glamour and vulnerability. In the early eighties, Goldin chronicled the lives of transgender friends in New York when AIDS began to decimate her community. In the nineties, she recorded the explosion of drag as a social phenomenon in New York, Berlin and Bangkok, photographing their public personas while showing their real lives backstage. Goldin's newest photographs are intimate portraits, imbued with tenderness, of some of her most beloved friends. *The Other Side* is her homage to the queens she's loved, many of whom she's lost, over the last four decades. The pictures in this book are not of people suffering gender dysphoria but rather

expressing gender euphoria... - Nan Goldin
