The great wizard Merlin has fallen on the field of battle, and soon thereafter a prophecy—or a rumor—begins to circulate: Merlin will be reincarnated in a newborn. The hunt is on for the baby whose promised greatness would disrupt the power-grabbing plans of the different peoples. The pregnant Eigy becomes the prey, and with

the help of an archer and a priest, she must try to stay alive long enough to deliver destiny. *Isotopic Composition of Diagenetic Carbonates in Marine Miocene Formations of California and Oregon* Le Lombard Originally published in German and French, the work is considered to be unsurpassed in both its scientific eloquence and accurate photographic documentatio

n. Revising Brodmann's cortical parcellation system, von Economo took cytoarchitectonics to a new zenith.>The revised edition contains newly compiled tables with extensive quantitative data on the 107 cytoarchitectonic areas of Economo and Koskinas, plus all the 'transition' areas and full reproductions of the original microphotographs. It also contains the concluding chapter that

appeared only in the 1929 English edition, with Economo's later views on cytoarchitectonic neuropathology and evolutionary neuroscience, enriched with material and figures from his later studies. Last but not least a newly discovered manuscript by Georg N. Koskinas, appears in English for the first time. In it, Economo's collaborator presents an insightful analysis of the 'General Part'

of their larger textbook of cytoarchitectonics.
