Ils peuvent vivre des millénaires. Ils vont pourtant s'entre-tuer. Les elfes ont fui vers Calaius pour échapper à leurs ennemis démoniaques. Un acte de bravoure désespéré les a sauvés, au prix de cent mille vies perdues. Takaar, l'elfe qui menait ce combat, a disparu depuis. Or son peuple a de nouveau besoin de lui, en proie à une guerre civile fomentée par des mercenaires humains qui sèment le chaos. Un seul elfe pourrait réunir les siens. Mais un seul elfe croit encore en lui. Un jeune nommé Auum, qui entreprend de ramener le héros déchu et de sauver son peuple. Auum qui rejoindra un jour la bande des Ravens...

Le Crédit Et Les Banques Bragelonne

This volume spans the fourteenth to nineteenth centuries, across Europe and its empires, and brings together historians, art historians, literary scholars and anthropologists to rethink medieval and early modern ritual. The study of rituals, when it is alert to the emotions which are woven into and through ritual activities, presents an opportunity to explore profoundly important questions about people's relationships with others, their relationships with the divine, with power dynamics and importantly, with their concept of their own identity. Each chapter in this volume showcases the different approaches, theories and methodologies that can be used to explore emotions in historical rituals, but they all share the goal of answering the question of how emotions act within ritual to inform balances of power in its many and varied forms. Chapter 5 of this book is available open access under a CC BY 4.0 license.

Cynthia J. Brown explains why the advent of print in the late medieval period brought about changes in relationships among poets, patrons, and printers which led to a new conception of authorship. Examining such paratextual elements of manuscripts as title pages, colophons, and illustrations as well as such literary strategies as experimentation with narrative voice, Brown traces authors' attempts to underscore their narrative presence in their works and to displace patrons from their role as sponsors and protectors of the book. Her accounts of the struggles of poets, including Jean

Lemaire, Jean Bouchet, Jean Molinet, and Pierre Gringore, over the design, printing, and sale of their books demonstrate how authors secured the status of literary proprietor during the transition from the culture of script and courtly patronage to that of print capitalism.

« L'écriture de Barclay est énergique, rythmée et dotée d'un merveilleux sens de l'humour. Mieux que ça, il fait des romans que vous voulez relire encore et encore. » David Gemmell « Le meilleur de la Fantasy d'action. » SFX Il y a longtemps, les elfes furent réduits en esclavage par les seigneurs Wytch. Deux d'entre eux, Auum et Takaar, ont mené la révolte face à leurs maîtres afin de libérer leur nation. Calaius était en paix... jusqu'à présent.

Les seigneurs Wytch se sont repris, et on parle d'un sort, AubeMort, assez puissant pour exterminer toute vie à Calaius, provoquant la fin définitive de la nation elfique. Auum et Takaar sauront-ils oublier ce qui les oppose pour lutter de nouveau côte à côte ?

"This is the first-ever biography of Thomas Barclay, the first American consul to serve the United States abroad and the man who, in 1786, successfully negotiated our first treaty with an Arab, African, or Muslim nation. It is the story of an Ulster-born immigrant building his fortune as a Philadelphia merchant in international trade, then losing it as he gives priority to his adopted country's fight to gain and build on independence. It tells how, after emigrating to Philadelphia in the 1760s, Barclay became a leading member of the Irish community, a successful merchant/ship owner, and political activist. This biography follows his move to France with his wife and three small children when the Continental Congress named him consul in 1781. There, before an American consular service existed, before Congress knew a consul from a consul general, Thomas Barclay did whatever was needed, wherever it was needed. To shipping, naval, and other tasks, Congress added an audit of American public expenditures in Europe since 1776. Then Jefferson and Adams added diplomacy in Barbary, where Barclay negotiated a rare tribute-free treaty of commerce and amity with the Sultan of Morocco. His personal relationships with Benjamin Franklin, John Adams, and Thomas Jefferson reveal as much about them as about him. On assignment for President Washington in 1793, he became the first American diplomat to die in a foreign country in the service of the United States."--BOOK JACKET.

[Britain, France and the Decolonization of Africa](#) HarperCollins Publishers

Looking at decolonization in the conditional tense, this volume teases out the complex and uncertain ends of British and French empire in Africa during the period of 'late colonial shift' after 1945. Rather than view decolonization as an inevitable process, the contributors together explore the

crucial historical moments in which change was negotiated, compromises were made, and debates were staged. Three core themes guide the analysis: development, contingency and entanglement. The chapters consider the ways in which decolonization was governed and moderated by concerns about development and profit. A complementary focus on contingency allows deeper consideration of how colonial powers planned for 'colonial futures', and how divergent voices greeted the end of empire. Thinking about entanglements likewise stresses both the connections that existed between the British and French empires in Africa, and those that endured beyond the formal transfer of power.

[Ghana Who's who](#)

Unprecedented in scope and detail, *Brothers and Strangers* is a vivid history of how the mythic Africa of the black American imagination ran into the realities of Africa the place. In the 1920s, Marcus Garvey—convinced that freedom from oppression was not possible for blacks in the Americas—led the last great African American emigrationist movement. His U.S.-based Universal Negro Improvement Association worked with the Liberian government to create a homeland for African Americans. Ibrahim Sundiata explores the paradox at the core of this project: Liberia, the chosen destination, was itself racked by class and ethnic divisions and—like other nations in colonial Africa—marred by labor abuse. In an account based on extensive archival research, including work in the Liberian National Archives, Sundiata explains how Garvey's plan collapsed when faced with opposition from the Liberian elite, opposition that belied his vision of a unified Black World. In 1930 the League of Nations investigated labor conditions and, damningly, the United States, land of lynching and Jim Crow, accused Liberia of promoting "conditions analogous to slavery." Subsequently various plans were put forward for a League Mandate or an American administration to put down slavery and "modernize" the country. Threatened with a loss of its independence, the Liberian government turned to its "brothers beyond the sea" for support. A varied group of white and black anti-imperialists, among them W. E. B. Du Bois, took up the country's cause. In revealing the struggle of conscience that bedeviled many in the black world in the past, Sundiata casts light on a human rights predicament which, he points out, continues in twenty-first-century African nations as disparate as Sudan, Mauritania, and the Ivory Coast.
