"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health,

economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4

billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Edward the Elder, son and successor of King Alfred, was one of the greatest architects of the English state and yet is one of the most neglected kings of English history. During his 24-year reign, Edward led a series of successful campaigns against the Vikings and by the time of his death controlled most of southern and midland England, with his influence also felt in Wales and the north. Edward the Elder is a timely reassessment of his reign and helps to restore this ruler to his rightful place in English history. The period of Edward's reign is notably lacking in primary materials for historians. But by drawing upon sources as diverse as literature, archaeology, coins and textiles, this book brings together a rich variety of scholarship to offer new insight into the world of Edward the Elder. With this wealth of perspectives, Edward the Elder offers a broad picture of Edward's reign and his relation to the politics and culture of the Anglo-Saxon period.

Con Una afición peligrosa, después de Pájaros a punto de volar, publicada el año pasado en esta colección, se completa la edición de los cuentos inéditos, o no recogidos en libros, de Patricia

Highsmith. Los relatos muestran el espectro completo de su escritura, desde las narraciones psicológicas hasta lo grotesco, así como algunos personajes frecuentes en sus novelas, por ejemplo el psicópata gigoló de Una afición peligrosa. Otras narraciones se apartan de lo que se considera «Highsmith pura y dura», como el registro cómico de Dos palomas muy desagradables o Un completo fracaso, una verdadera lección moral. Quizá uno de los textos más originales e inesperados dentro de su obra es El problema de la señora Blynn, el problema del mundo, que según el crítico alemán Paul Ingendaay, representa la «joya» de la colección.

The events of 1000-1130 were crucial to the successful emergence of the medieval kingdom of the Scots. Yet this is one of the least researched periods of Scottish history. We probably now know more about the Picts than the post-1000 events that underpinned the spectacular expansion of the small kingdom which came to dominate north Britain by the 1130s. This expansion included the defeat and absorption of other significant cultural and political groups to the north and south of the core kingdom, and was accompanied by the introduction of reformed monasticism. But perhaps the most momentous process amongst all these political and cultural changes was the move towards the domination of the kingship by just one segment of the royal kindred, the sons of King Mael Coluim mac Donnchada's second marriage to Queen Margaret. The story of how these sons managed to achieve political supremacy through machination, murder and mutilation runs like an unsavoury thread throughout this book. The book also investigates the building blocks from

which the kingdom was constructed and the various processes which eventually allowed the kings of the different peoples of north Britain to describe themselves as Rex scottorum. It is a hugely rewarding voyage of discovery for anyone interested in the formation of the kingdom of the Scots.

Discusses Nazi ideology and the centrality of the arts in Hitler's worldview and as an instrument of propaganda. Analyzes the Nazi concept of "degenerate" art, which was equated with Jewish-influenced art, even though most of the artists condemned by the Nazis were not, in fact, Jewish. Describes the third annual Day of German Art celebrated in Munich on 14-16 July 1939 and attended by Hitler and most of the leading Nazis. This festival was filmed in technicolor by a group of amateurs. In conjunction with the screening on British television in 1993 of a documentary based on this film ("Good Morning, Mr. Hitler"), the directors interviewed Munich citizens who had taken part in the Festival in their youth and who recalled their enjoyment. Most of them denied having known anything of the Holocaust. Charlotte Knobloch, a Jewish survivor, recalls a very different youth, spent in constant fear. The last chapter points to the revival of neo-Nazism, Skinhead violence against foreigners and Jews, and Holocaust denial in reunified Germany and elsewhere in the world.

États-Unis, pour le plus grand bonheur des clans mafieux, italiens et irlandais, qui se disputent le trafic juteux de la contrebande. Ryann Noone, le parrain du Valley Gang inféodé aux Irlandais, découvre le cadavre de sa femme assassinée d'un poignard en plein cœur. Commence alors une longue quête à la recherche du meurtrier, mais aussi de sa véritable identité. Qui est Ryann Noone, dit « Le Corbeau », gamin abandonné et retrouvé quarante-trois ans plus tôt sur un trottoir de Chicago ?

Certainement pas « un homme bien ». Manipulateur, violent et sans morale, « Le Corbeau » a un goût prononcé pour le whisky et la drogue. Il s'est hissé au sommet de la hiérarchie des gangs mafieux par la ruse et la force, lui qui ne connaît de son propre passé que son prénom et d'étranges réminiscences... Amis et ennemis, alliés et adversaires s'entremêlent et se confondent, dans un jeu explosif où chaque coup que l'on porte peut se retourner contre soi. Mais Ryann a un atout : il sait manier les cartes comme le mensonge, le poing et le revolver. Reste à savoir si cela lui suffira pour rester en vie... Is ait an mac an saol', Le livre de Ryann, est le cinquième tome de la saga Dia Linn : le destin du dernier descendant d'Eileen O'Callaghan, quand la noirceur d'un homme se répand, d'être en être, jusqu'à corrompre le cœur de plusieurs générations.

El objetivo central de los nueve estudios recogidos en este libro es el análisis de los medios (imágenes, grabados, libros, escrituras antiguas, edificios, emblemas, etc.) a los que se recurrió en tiempos de Felipe II para crear la imagen real y difundirla mediante distintos expedientes de propaganda, todo

ello al servicio de la conservación de la reputación del rey Felipe II y su monarquía. Para lograrlo se articuló un verdadero entramado que asombra por su amplitud, por su riqueza y, en especial, por la sorprendente capacidad demostrada para elegir las vías más adecuadas que permitieran en cada situación responder a las necesidades de la Corona en coyunturas como la Rebelión de los Países Bajos o la Sucesión de Portugal.

This work examines how the mainstream American media reacts to pro-war and anti-war themes throughout the 'War on Terror' in regards to the wars in Afghanistan and Iraq. Using a political economy approach, the author addresses the ways in which corporations that own media reinforce official doctrines and propaganda by contrasting the content of American media to that of other global media.

We shall examine the validity of 16 experimental designs against 12 common threats to valid inference. By experiment we refer to that portion of research in which variables are manipulated and their effects upon other variables observed. It is well to distinguish the particular role of this chapter. It is not a chapter on experimental design in the Fisher (1925, 1935) tradition, in which an experimenter having complete mastery can schedule treatments and measurements for optimal statistical efficiency, with complexity of design emerging only from that goal of efficiency. Insofar as the designs discussed in the present chapter become complex, it is because of the intransigency of the

environment: because, that is, of the experimenter's lack of complete control.

*Historiografia, propaganda i comunicació al segle XIII* Anagrama  
A lively and critical introduction to the news media, this book has been written specifically for media students and trainee journalists. *Understanding Global News* invites the reader to explore contemporary journalistic practice, and questions the assumption that the media provide a mere window on the world. Challenging the often unquestioned notions of media objectivity, the author turns the classic questions: Who? What? When? and Why? onto the news media. By employing a range of theoretical perspectives and a large variety of examples, the author demonstrates the way in which our perceptions of the world are constructed by the news media.

Under the strict rule of twentieth century Irish censorship, creators of novels, films, and most periodicals found no option but to submit and conform to standards. Stage productions, however, escaped official censorship. The theater became a "public space"—a place to air cultural confrontations between Church and State, individual and community, and "freedom of the theatre" versus the audience's right to disagree. Joan FitzPatrick *Dean's Riot and Great Anger* suggests that while there was no state censorship in early-twentieth-century Ireland, the theater often evoked heated responses from theatergoers, sometimes resulting in riots and the public denunciation of playwrights and artists. Dean examines the plays that provoked these controversies, the degree to which they were "censored" by the audience or actors, and the range of responses from both the

press and the courts. She addresses familiar pieces such as those of William Butler Yeats, John Millington Synge, and Sean O'Casey, as well as the works of less known playwrights such as George Birmingham. Dean's original research meticulously analyzes Ireland's great theatrical tradition, both on the stage and off, concluding that the public responses to these controversial productions reveal a country that, at century's end as at its beginning, was pluralistic, heterogeneous, and complex.

Acclaimed writer and historian Noel Malcolm presents his sensational discovery of a new work by Thomas Hobbes (1588-1679): a propaganda pamphlet on behalf of the Habsburg side in the Thirty Years' War, translated by Hobbes from a Latin original. Malcolm's book explores a fascinating episode in seventeenth-century history, illuminating both the practice of early modern propaganda and the theory of "reason of state".

Ollam ("ollav"), named for the ancient title of Ireland's chief poets, celebrates the career of Tomás Ó Cathasaigh, Henry L. Shattuck Professor of Irish Studies at Harvard University, who is one of the foremost interpreters of the rich and fascinating world of early Irish saga literature. It is a complement to his own book of essays, *Coire Sois, the Cauldron of Knowledge: A Companion to Early Irish Saga*, also edited by Matthieu Boyd (University of Notre Dame Press, 2014), and a sequel to his classic monograph *The Heroic Biography of Cormac mac Airt* (Dublin Institute for Advanced Studies, 1977) and as such it begins to show the richness of his legacy. The essays in Ollam represent cutting-edge research in Celtic philology and historical and literary

studies. They form three clusters: heroic legend; law and language; and poetry and poetics. The 21 contributors are among the best Celtic Studies scholars of their respective generations, whether they are rising stars or great professors at the finest universities around the world. The book has a Foreword by William Gillies, Emeritus Professor at the University of Edinburgh and former President of the International Congress of Celtic Studies, who also contributed an essay on courtly love-poetry in the Book of the Dean of Lismore. Other highlights include a new edition and translation of the famous poem *Messe ocus Pangur bán*; a suite of articles on the ideal king of Irish tradition, Cormac mac Airt; and studies on well-known heroes like Cú Chulainn and Finn mac Cumhaill. This book will be a must-have, and a treat, for Celtic specialists. To nonspecialists it offers a glimpse at the vast creative energy of Gaelic literature through the ages and of Celtic Studies in the twenty-first century.

This seminal study and critique of propaganda from one of the greatest French philosophers of the 20th century is as relevant today as when it was first published in 1962. Taking not only a psychological approach, but a sociological approach as well, Ellul's book outlines the taxonomy for propaganda, and ultimately, its destructive nature towards democracy. Drawing from his own experiences fighting for the French resistance against the Vichy regime, Ellul offers a unique insight into the propaganda machine.

*L'Italie de Mussolini et son cinéma* OUP Oxford

The essential collection of critical essays from a twentieth-

century master and author of 1984. As a critic, George Orwell cast a wide net. Equally at home discussing Charles Dickens and Charlie Chaplin, he moved back and forth across the porous borders between essay and journalism, high art and low. A frequent commentator on literature, language, film, and drama throughout his career, Orwell turned increasingly to the critical essay in the 1940s, when his most important experiences were behind him and some of his most incisive writing lay ahead. All Art Is Propaganda follows Orwell as he demonstrates in piece after piece how intent analysis of a work or body of work gives rise to trenchant aesthetic and philosophical commentary. With masterpieces such as "Politics and the English Language" and "Rudyard Kipling" and gems such as "Good Bad Books," here is an unrivaled education in, as George Packer puts it, "how to be interesting, line after line." With an Introduction from Keith Gessen.

Public Law in East Asia is a collection of the leading English-language articles on constitutional and administrative law in the Asian region, written by many of the leading scholars from this area. The region has its own distinct legal and political traditions, and its systems of government have facilitated dynamic economic growth, but the role of public law has not been well understood. Covering a wide range of jurisdictions in a single volume, this collection provides insights into the ways in which institutions of Western origin have been integrated into Asian political and legal cultures, producing new syntheses.

A startling omission from the extensive literature on the Pacific events of World War II is an analysis of Allied psychological operations. Allison B. Gilmore makes a strong case for the importance of psychological warfare in this theater, countering the usual view of fanatical resistance by Japanese units. Gilmore marshals evidence that Japanese military indoctrination did not produce soldiers who were invulnerable to demoralization and the survival instinct.
