The Gingerbread Man HarperCollins UK

A perennial favorite, Dr. Seuss's wonderfully wise graduation speech is the perfect send-off for children starting out in the world, be they nursery school, high school, or college grads! From soaring to high heights and seeing great sights to being left in a Lurch on a prickly perch, Dr. Seuss addresses life's ups and downs with his trademark humorous verse and illustrations, while encouraging readers to find the success that lies within. In a starred review, Booklist notes: "Seuss's message is simple but never sappy: life may be a 'Great Balancing Act,' but through it

all 'There's fun to be done.'" This Read & Listen edition contains audio narration.

This book—a compilation of 25 practical articles from NSTA's elementary school journal, *Science & Children*—offers a wealth of lesson plans and idea starters using interdisciplinary, integrated, and thematic approaches. Discover how a language arts unit on survival can include student inquiry into properties of ice, ways to improve students' observational skills as they write haiku about nature, how to use data collection and math in mapping the ocean floor, and more. To engage students schoolwide or in the great outdoors, several articles offer project-based interdisciplinary units that are widely adaptable. Each article is categorized by grade level, the National Science Education Standards it addresses, and whether it is interdisciplinary, integrated, thematic, or a combination of the three. Even

teachers who lack a strong science background will find these concrete techniques especially valuable for teaching science through other subjects (and vice versa).

The Love Behind the Mask The New Press

Embrace diversity with Dr. Seuss and the Sneetches in this collection of stories about acceptance! The new matte finish cover makes it a great gift! The Sneetches got really quite smart on that day, The day they decided that Sneetches are Sneetches. And no kind of Sneetch is the best of the beaches. The story of the Star-bellied Sneetches and their star-less friends is a perfect guide for kids growing up in today's multicultural world. This classic is joined by equally entertaining tales: "The Zax," a

humorous take on the art of compromise; "Too Many Daves," which shows kids that sometimes standing out is better than blending in; and "What Was I Scared Of?," which demonstrates how empathy can transform a stranger into a friend. In these four energetic stories, Dr. Seuss challenges the idea that we have to look the same or be the same to find common ground. Full of Dr. Seuss's signature rhymes and lively humor, this story collection is a must-have for any reader, young or old.

Mama and Papa agree that eggs for breakfast would be nice, but they're too busy to go to the store. So they decide that Hetty is old enough to go by herself. Although she practices walking smoothly up the hill so she won't break the precious eggs, she can't help running all the way down. Young readers will hold their breath as Hetty tries her very best to get those eggs home safely. "The story is remarkable for its evocative imagery, and the loving interchange between the characters sets a charming tone. The words are perfectly complemented by Lewis's dazzling, impressionistic watercolors that show the joyous power of love and depict a warmly supportive world in which Hetty ventures forth toward independence. A fine book that speaks straight to the heart."--Booklist

Theodor Geisel Simon and Schuster
