Before We Leave You Simon and Schuster
 With compassion and compelling insight, the Pleiadians, those system-busting time-travelers from the future, take us on a journey through the uncharted lands of The Book of Earth, which comprises all human experience. While "our world goes belly-up in these most absurd of times," they offer us "tools for survival." During the crucial period between 1987 and 2012--a nanosecond in the annals of existence where secrets and solutions are stored--we have the unique opportunity to move from the deepest of density to the highest of frequencies--where we shift from linear to multi-dimensional living. To

make this transition, we must face not only the limitations of our 3-D world with its electronic manipulation and mind control, we must embrace our own wounds, and those of our ancestors and our leaders. To heal ourselves, to raise our frequency from one of despair and fear to one of great inspiration and love, the Pleiadians urge us to rethink and reevaluate our lives: "You shall change, you will change, you must change, because this is the season of change."

In January 1987, Robert Alan Krakower, a former media producer and magazine publisher from Canada, had a mystical encounter on the Mediterranean island of Ibiza that lasted eight days and eight nights. During this time he did not eat, drink, or sleep. He received information about our universe, the design of all living forms, and most importantly, about a mutation in the human body that will lead to the emergence of a new species, the Rave, in 2027. With it, the evolutionary program will turn its back on humanity. The Industrial Revolution and the nation states as we know them will come to an end. The coming Rave will look human on the outside, but will have little in common with us. In fact, Raves will appear severely disabled. But the moment three of them come together they turn into "one being" with a shared consciousness that can do things that are unimaginable to us humans. Krakower was told the universe is an unborn living entity and that life in Earth will come to an end in about 1,200 years when it will be hit by a meteor. There will be no more biological life after Earth. However, this will be the beginning of yet another journey for us through the solar system with the emergence of the Eron. It will not eat or breathe. It will not die. And it will live as long as the universe exists.

Why are prominent doctors and medical researchers all over the world interested in the extraordinary healings reported by the patients of Dr. Eric Pearl? What does it mean when these patients report the sudden disappearance of afflictions such as cancers, AIDS-related diseases, and cerebral palsy? And what does it mean when people who interact with Dr. Pearl report a sudden ability to access this healing energy not just for themselves, but for others, too? What is this phenomenon? Well, you might have to reconsider everything you've read up until now about conventional healing. The "new" frequencies of healing described by Dr. Pearl transcend "technique" entirely and bring you to levels beyond those previously accessible to anyone, anywhere. This book takes you on Dr. Pearl's journey from the discovery of his ability to facilitate healings, to his well-deserved reputation as the instrument through which this process is being introduced to the world. But most important, *The Reconnection* reveals methods you can use to personally master these new healing energies. *The Anunnaki Chronicles* SCB Distributors Within all of us there is an "inner core." It is there where we can behold our own pulse, rhythmically, harmoniously blending

with the divine. For many of us, this "silent core" folded in its unique rhythm, is hidden. We have yet to know of it and to experience its presence. This manual is to guide you as you seek to unfold the continuum of the eternal, divine pulse within you. Your handwriting is a "mirror" of your inner pulse. Symbolically, it reveals your attitudes, behavioral tendencies, inner resourcefulness, self-direction, and interpersonal motivations. That inner "essence" however, may not be known because of fears, anxieties, ego motivations, and self-destructive patterns. Thus there is disharmony clouding the inner rhythm. The lessons of this manual assist you in bringing into harmony and balance your modes of thinking, feelings, and willing. To involve different conscious levels, the lessons include form drawings, visualizations, reflections and affirmations, along with m

The Care and Feeding of Indigo Children Findhorn Press

What if whales and dolphins truly do have a superior intellect, as many believe, and can speak to the human race? What would their message be? In November 2008, gifted clairvoyant Patricia Cori was in Jordan teaching a workshop when a life-changing event occurred. A community of Cetaceans—"a choir of whales and dolphins," as she describes it—interrupted her talk with a frantic plea for help. Cori was suddenly witness to a devastating scene of suffering, a communal grieving of scores of whales and dolphins "frenzied, lost, and dying." This was the first of several terrifying calls for help, all of which were immediately followed by mass suicide events as these majestic creatures collectively chose to leave us and our planet. These troubling incidents evolved into the stream of messages for humanity that Cori reveals in this extremely timely work. The whales and dolphins present their deep understanding of our urgent global situation, calling for the human race to restore balance to our ecosystems—especially our dying oceans. For the first time, we read the communications of the Cetaceans and their story of devotion and celebration of

life on the Great Planet Earth. We are also given a glimpse of their role in the unfolding of galactic events throughout our solar system, and the message is clear: We must wake up and realize that our continued abuse of the environment is altering the course of Gaia's progression to the next dimension. Without the whale and dolphin song—without these musicians who hold the oceans in balance—we risk our advancement through the ascension process for which our entire solar system is destined. Before We Leave You is a roadmap to that higher future and a pathway to global transformation. ***NOTE: ELECTRONIC VERSION OF THIS TITLE DOES NOT INCLUDE THE CETACEAN MEDITATIONS CARDS INCLUDED IN THE REGULAR PRINTED VERSION.

Authentic qi gong as practiced in the Shaolin Temple where this discipline originated centuries ago • Reveals the fundamental spiritual principles and includes both a short and long form of the daily exercises • Explains the benefits of mastering energy in the body, such as organ strengthening The great teacher Bodhidharma is credited with the creation of Shaolin Temple qi gong and kung fu in the 6th century CE. Motivated by the terrible physical condition of the monks who spent all their time meditating or copying scrolls, his two-part system promoted physical as well as spiritual fitness and became the basis for all the martial and meditative arts taught in the Shaolin Temple. These ancient practices increase physical health and vitality, enhance creativity, and can be practiced well into old age. Author Shi Xinggui, a Shaolin monk, explains the fundamental principle of qi gong--the art of mastering energy (qi) and moving it through the body--and provides clear demonstrations of all the positions and movements. In order to develop qi attentively, it is necessary to cultivate the art of slowness in both movement and breathwork. Shi Xinggui provides both a short form and a long form of the daily exercises, with lessons on heart centering, organ strengthening, and balancing the energy using the three dantians--the three energy centers of the body.

Breaking 170 years of secrecy, this intriguing exposé takes a behind-the-scenes look at Yale's mysterious society, the Order of the Skull and Bones, and its prominent members, numbering among

them Tafts, Rockefellers, Pillsburys, and Bushes. Explored is how Skull and Bones initiates have become senators, judges, cabinet secretaries, spies, titans of finance and industry, and even U.S. presidents, including George W. Bush. This book reveals that far from being a campus fraternity, the society is more concerned with the success of its members in the postcollegiate world. Included are a verified membership list, rare reprints of original Order materials revealing the interlocking power centers dominated by Bonesmen, and a peek inside the Tomb, their 140-year-old private clubhouse.
