NAVARRO LIU

Selous in Africa iUniverse

A portfolio of Nigel Dennis best work selected from 30,000 images of Africa's spectacular wildlife, taken over a period of 10 years. The stunning larger than life photographs -- over 200 in total -- cover most of the larger mammals in Africa, broken down into six main groupings together with separate chapters on birds and reptiles, as well as a chapter on Madagascar. This collection of photographs is thus a tribute to an inspiring naturalist and an extraordinary artist who has sought to capture the very essence of the land and the animals he has grown to love. With concise text by Brian Johnson Barker and consultant Gus Mills, a well-known authority on wildlife.

The Best of Wildlife Photography in Southern Africa Jacana Media

The Kruger National Park, one of the largest and best-known conservation areas in the world, supports a remarkable diversity of birds. This attractive and handy field guide lists more than 500 species that have been recorded here, and provides full-colour photographs, detailed distribution maps and succinct information on 400 of these -- all the species that a visitor is likely to encounter in the park. An informative introduction describes the park's underlying geology, vegetation types, climate and rainfall, and how these dictate bird distributions within the area.

Africa is a source of amazing bio-diversity and home to some of the planet's most spectacular landscapes. The sights of this awe-inspiring continent are captured with consummate skill and sensitivity by master lensman Michael Poliza. With extensive experience photographing the animals and terrain of Africa, Poliza's viewpoint is shaped by his concern for the fragile eco-systems he chronicles. These images embody the soul of Africa's flora and fauna with a true artist's eye for color and composition. This book will be enjoyed for years to come. Poliza started as a child actor on German TV, then founded several highly successful IT ventures in the US and Germany. His

?STARSHIP MILLENNIUM VOYAGE, ? around the world on a 75 ft expedition yacht, was avidly followed by millions via internet. Poliza now focuses mainly on film and photography, including work for the Discovery Channel. He spends a great deal of time based in Cape Town, and is a pioneer in the use of digital photography for illustrated books. ? An ideal gift, both for the lover of fine art photography and the keen naturalist ? A timeless collection highlighting the beauty of Africa's natural riches

The definitive guide for identifying Southern Africa's wildlife Highly portable, concise, and informative, this is the essential guide for identifying Southern Africa's most visible wildlife.

Featuring full-color photos of more than 400 species of birds, mammals, snakes, lizards, and insects, *Wildlife of Southern Africa* provides a spectacular sense of what travelers can see in the major game reserves and national parks of South Africa, Swaziland, Lesotho, Namibia, Zimbabwe, Botswana, and southern Mozambique. Each species in this guide is accompanied by at least one full-color

photograph plus a full textual description. Tips on wildlife photography as well as information on how to make the most of a safari are also included. This is a must-have guide for anyone planning or dreaming about a visit to this fascinating part of the world. Highly portable and informative guide to the wildlife of Southern Africa Hundreds of full-color photos detail more than 400 species At least one full-color photograph and full textual description for each species Tips on wildlife photography and making the most of a safari

Wildlife of Southern Africa Gerald & Marc Hoberman Collection

Der passionierte Naturfotograf und Kenner europäischer Naturlandschaften Dr. Christoph F. Robiller wendet sich mit diesem Buch an alle Fotografen, die sich ernsthaft mit der Fotografie freilebender Tiere befassen wollen -- sei es der technisch und gestalterisch interessierte Fotograf, der sich das biologische Hintergrundwissen erarbeiten will, oder der Naturfreund, der seine fotografischen Fähigkeiten weiterentwickeln möchte. Zunächst gibt der Autor einen Überblick, welche Fotoausrüstung für den Einsatz in der Wildlife-Fotografie erforderlich ist und beschreibt anschließend ausführlich die Vorgehensweisen. So erörtert er die unterschiedlichen Methoden der Ansitz- und Versteckfotografie, das Vorgehen bei der Fotopirsch oder den Einsatz von Lockmitteln und Lockrufen. Hinweise zum Equipment sowie Bauanleitungen für verschiedene Versteckmöglichkeiten -- beispielsweise für eine Versteckhütte oder ein Schwimmversteck -- bieten eine praktische Hilfestellung. In einem Gastbeitrag vermittelt ein erfahrener Waidmann das besondere Vorgehen bei der Säugetierfotografie. Mit der Beschreibung zahlreicher Naturräume in Deutschland und anderen europäischen Ländern gewährt Robiller einen umfassenden Einblick in die jeweilige Landschaft und Tierwelt. Gleichzeitig vermittelt er alle nötigen Kenntnisse über die Naturfotomöglichkeiten vor Ort. Dabei legt der Autor besonderen Wert auf einen zurückhaltenden und respektvollen Umgang mit der Tierwelt, eine Grundvoraussetzung für eine erfolgreiche und nachhaltige Naturfotografie. Örtliche Anlaufstellen wie Naturschutzzentren oder Fotocamps und die Möglichkeiten geführter Touren mit Naturpark-Rangern oder Naturpädagogen werden mit Kontaktinformationen vorgestellt.

Photographs depict the animals at a nature preserve in Botswana.

[Insider's Guide](#) Chronicle Books

This inspiring book tells the story of a photographer's journey to find the mysterious black leopard. There are few creatures as gorgeous and elusive as the black leopard. In Africa, these magnificent cats are so rare as to be the stuff of legend. Will Burrard-Lucas's love for leopards began during his childhood in Tanzania and propelled him into a career as a wildlife photographer. In his quest to create intimate portraits of animals, he developed innovative technology, including a remotely controlled camera buggy and a high quality camera trap system for photographing nocturnal

creatures. Then, one day in 2018, he heard about sightings of a young African black leopard in Kenya and with the help of people from the local community, he succeeded in capturing a series of high-quality photographs of the elusive cat. In this compelling and visually stunning book, Burrard-Lucas tells his story of creativity, entrepreneurship, and passion for wild animals, alongside awe-inspiring images of lions, elephants, and the black leopard itself. • **STAR WILDLIFE PHOTOGRAPHER:** Will Burrard-Lucas's passion for nature and expertise in camera technology have earned him coverage from National Geographic, The New York Times, and the BBC—and over 1 million fans enjoy his breathtaking work online. • **NATURE'S HIDDEN WONDERS:** Black leopards are individual animals in whom a gene mutation results in excess melanin and an elegant black coat. Most are found in Southeast Asia, where lush vegetation offers them camouflage. In the semiarid shrub lands of Africa, black leopards are extraordinarily rare. Burrard-Lucas's images—showing these beautiful creatures prowling their territory under cover of night—are vivid reminders of nature's hidden wonders. • **INCREDIBLE STORY:** This is an adventure story that takes place in remote and wild corners of Africa. It reveals Burrard-Lucas's devotion, vision, and innovation that led to him capturing photos that are not only incredibly rare, but also breathtakingly beautiful. Perfect for: • Aspiring and professional photographers • Photography buffs • Nature and animal lovers • Big cat enthusiasts • Conservationists • National Geographic readers • Fans of memoir and adventure stories • Travelers to Eastern and Southern Africa

The Black Leopard Bruckmann Verlag

I have come to love wildlife, and because I'm a photographer, I also love photographing wild animals. When I look into the eyes of an animal, I see a soul, and I want to get to know that soul. I belong to a civic group that brings disadvantaged youth to the Phoenix Zoo. Most of the youngsters have never visited a zoo before. When the tram makes the first turn and the children see the animals for the first time, their squeals and cheers of excitement bring me great joy. I want to bring that joyous first look to more people and further help them understand animals as complex beings just like you and me. Almost everybody has seen a giraffe, for example, but they have not had the opportunity to get to know that giraffe and feel a connection with it. I believe that if I can help more people actually see wildlife as they live and learn more about the animals, then more people will appreciate them and love them as I do, body and soul.

Wild Africa Chronicle Books (CA)

Es ist schon sehr viele graue Herbsttage und etliche pandemiefreie Jahre her, dass in unserem Magazin eine Geschichte erschien, die uns sofort beim Wort »Sehnsuchtsorte« einfällt. Sie handelte von einer riesigen Fototapete, die als Hinterlassenschaft des Vormieters in der Wohnung eines Freundes hing. Zu sehen war darauf eine Palme, die sich in tadellosem Bogen gen Himmel streckte, während schaumgekrönte Wellen einem mit kleinen Felsen durchsetzten Strand entgegenglitten. In regnerischen Stunden saßen wir oft da- vor - und machten uns eines Tages einfach auf, genau diese Traumkulisse in Wirklichkeit zu suchen. Wir fanden sie schließlich auf den Seychellen. Alles sah aus wie auf der heimischen Tapete, einzig die Palme fehlte, ein Sturm hatte sie gefällt. Letztlich ist es egal, ob sich der Strand auf den Seychellen, auf Hawaii oder Norderney befand. Wichtig ist das Gefühl, das die Erinnerung in uns auslöst. Diese Zufriedenheit, die sich beim Gedanken an die unbeschwerte Zeit vor Ort einstellt, in der zwischen uns und allen Sorgen immer einige rauschende,

schaumgekrönte Wellen Abstand lagen. Betrachten Sie diese Ausgabe mit Sehnsuchtsorten daher einfach als Ihre Fototapete. Sie ist voll mit Geschichten von Orten, die auf Sie warten, wenn das Reisen wieder ein Leichtes ist und Sie nichts und niemand mehr auf, allenfalls unter die Palme bringen kann. Viel Spaß beim Lesen und Traumreisen wünschen

Photographing on Safari Duncan Baird Publishers

An award-winning author-photographer gives detailed instruction for other would-be safari photographers and treats readers to his own 14-day safari journal. He reveals how to get the best photos of birds, reptiles, large animals, people and scenery when visiting Kenya on safari. 150 color photos.

Ökologie und Naturschutz in Afrika Andreas Papadakis Publishers

A collection of wildlife and unusual images by internationally acclaimed photographers Heinrich van den Berg, and husband-and-wife team Philip and Ingrid van den Berg. It features the photographs that were taken in and around the Kruger National Park over the years, revealing the style of the Van den Berg photographers. 'Big Picture' books are no ordinary wildlife books. They depict the different facets of the subjects in a new and dramatic way, with bold, in-your-face images that leap off the page. By focusing not only on typical wildlife and nature images, but also on

Africa Penguin Random House South Africa

Mary Theresa McDonough B.A. B.Ed. OCT is a wildlife photographer who has travelled extensively throughout many wilderness area throughout the world. This time she has captured the essence of the true wilderness habitats of the animals in the African nations of Kenya and Tanzania and has noted their trusting nature with humans in her close-ups, in a country that doesn't allow any hunting by humans. She has cofounded her own survival program in Canada called Project Whitewater whereby adolescents were allowed to coexist with nature and its inhabitants and she has noted that in all of her experiences in the wilderness she has rarely experienced danger. As a teacher she strives to impart the value of recognizing the beauty and nobility of all creatures and the importance of preserving and protecting them at all costs.

Africa National Geographic Children's Books

This journal of a photo safari is written by Cindy Rasmussen who documented her journey through Tanzania with her husband Phil.

Classic Africa Hoberman

Many have tried to convey the true spirit of Africa's animals in words, photography, or in music. There may be no challenge greater; Africa's fauna are vast in number and rich in diversity. In this finely crafted collection, French photographer Laurent Baheux uses the medium of black-and-white photography to capture the intricate details of both the wondrous beasts and the magnificent settings in which they dwell. This wide-ranging volume lays particular emphasis on his subjects' individual spirits-revealing all of their vulnerability while losing nothing of their raw vitality. Every photograph is so carefully composed and well lit that the details equal the evocative precision of an Old Masters portrait. Through Baheux's eyes we get close to creatures that will both inspire and humble us all. AUTHOR: Laurent Baheux, an award-winning, French, self-taught photographer born in Poitiers in 1970, was at first attracted to journalism and editing. He covered the main international sport competitions for the top press photography agencies and channeled his energy towards conditions of speed and extreme demand. Always fascinated by nature and wildlife, Laurent Baheux embarked on a trip to Tanzania in 2002, a journey that launched a lifetime love affair with Africa's wildlife. He immediately chose black-and-white, with its play on shadow, light, and contrast, to immortalize rare and ephemeral scenes of nature and to sublimate the animal personality. His artistic interpretation is characterized by deep blacks, forming a random and subtle alchemy that

combines beauty and emotion, always striving to detach his subjects from the representation of reality in order to present a personal, poetic, and sensitive vision. With his work, Baheux wishes to pay homage to the wildlife, all the while questioning viewers about the relationship between animals and humans, and about the role the latter play in the delicate equilibrium of species on earth. In the continuity of his photographic commitment, Baheux accompanies and supports the deeds of organizations, which work for the protection of nature and the preservation of biodiversity including World Wildlife Fund and GoodPlanet Foundation. Since 2013, he supports actions of The United Nations Environmental Program (UNEP) as Goodwill Ambassador for the Wild & Precious awareness campaign. 175 duotone photographs

Ultimate African Wildlife Sunbird Publishers

After the resounding success of *The Living Wild*, Art Wolfe has turned his keen wild-life photographer's eye on Africa. The result is a book which assails all the senses. One can gaze the wide horizons in the unusually large landscape images. It is as if one could hear the sounds of thousands of animals moving across open plains, taste the heat in the air, smell of dampness foretelling rains to come, and the touch of the earth beneath naked feet. In five chapters, life in the savannah, the woodlands, the rainforest, the wetlands and the desert rises in front of the readers' eyes.

Amazing Wildlife of South Africa and the Western United States Gruner + Jahr Magazine

This booklet displays Gerlad Hoberman's photographs taken whilst crossing the vast African plains where he met some of its most bounteous wildlife. His adventures brought him face to face with the fearsome lion, the mighty elephant, the ferocious Cape buffalo, the white rhino and the leopard.
