Do you want to design  
your own beadwork for  
teaching or submitting to  
magazines for  
publication? If so, then  
you will need to draw  
clear, professional-looking  
beading diagrams to

accompany your  
instructions. Gone are the  
days when hand-drawn  
diagrams are acceptable,  
but it can seem like a  
huge investment to look  
at buying professional  
drawing or design

software. It is quite likely that you already have Microsoft Office installed on your computer, in which case, you may well have Powerpoint. This booklet will show you how to use Powerpoint - a tool that you already have - to draw professional-looking beading diagrams that you can easily add to your written instructions. You will be introduced to the Powerpoint commands that you need, shown how to draw beads, add thread paths and label diagrams. You will learn lots of editing tricks for speeding

up the drawing process and making your diagrams as clear as possible. You will also be shown how to create representations of shaped seed beads and taken step-by-step through the process for drawing a Peyote stitch diagram. This booklet gives you the opportunity to see professional diagrams and consider the techniques they have used. It is also packed with handy tips and ideas to make your diagram-drawing experience as painless as possible. Katie Dean has

been designing beading projects for over thirteen years. She was professionally trained in Powerpoint and is also a qualified adult teacher. She has also worked in the publishing industry and as a beading magazine editor, so she is well-versed in the needs of professional beadwork publishers. Katie brings all this experience together in this booklet, passing on her knowledge and personal tips to help you create your own professional beading diagrams. Whether you

want to create professional hand-outs for teaching your projects or you are hoping to see your work published in a book or magazine, 'How to Draw Beading Diagrams in Powerpoint' will be an invaluable tool for you *Modern Biology* Springer This book contains the solutions of Selina(Concise) Physics and is prescribed for ICSE BOARD for 2022 examinations. It is written and edited by Amar Bhutani and Sister Juliya Rober.

Communicating raw data through diagrams and charts is an exciting alternative to communicating through words. In this book you'll learn how to design and draw a wide variety of easy-to-understand charts and diagrams that are visually appealing and fun to illustrate, including graphs, pie charts, maps, and bar charts. Robertson shows how to evaluate raw data, select the chart or diagram style that best communicates your data, then use a variety of mediums including

colored pencil, markers, and airbrush to create your final artwork. Using hundreds of examples of charts and diagrams, he helps you understand what works, what doesn't, and why.
