WARREN MENDEZ

The UFO Phenomenon Dundurn

The ultimate guide to the history, background and meaning of whether UFOs really exist, plus associated phenomena such as alien abduction, crop circles and cattle mutilations. There is also a comprehensive overview of the many conspiracy theories which surround UFOs and abductions - from the craft as secret Nazi technology to weird CIA plots. Written by a ufologist with many years in the field, this exciting and highly provocative book at times reads like a thriller. What messages do UFOs hold for us and for the future of life on earth?

A World of UFOs Simon and Schuster

(FAQ Pop Culture). Since the famed Kenneth Arnold "flying saucer" sighting of 1947, the world has been fascinated and unnerved by these mysterious objects in the sky. Millennia of recorded human history report UFOs, and everything from the extinction of dinosaurs to the origins of humankind have been attributed to them but what exactly are UFOs? Featuring material

from a treasure trove of UFO/Project Blue Book archives declassified in 2015, UFO FAQ is an all-inclusive guide to UFO lore hard science and hoaxes, sightings and abductions, noted UFO proponents and skeptics, and sanctioned research and purported government cover-ups. Readers will meet cultists and explore worldwide UFO "hot spots." They'll learn about UFOs in World War II, the Cold War, and the age of terrorism. And they'll zip along with UFOs in movies, comics, TV, and other popular media. Also featured are an international UFO timeline and a valuable UFO checklist that includes step-by-step suggestions on how to prepare and make the most of your UFO sightings while ensuring your credibility. Dramatically illustrated with nearly 100 photographs and drawings, UFO FAQ combines historical accuracy, provocative speculation, and compulsive readability in one handy volume.

Flying Saucerers Smithsonian Institution

UFOs. Aliens. Strange crop circles. Giant figures scratched in the desert surface along the coast of Peru. The amazing alignment of the pyramids. Strange lines of clouds in the sky. The paranormal is alive and well in the American cultural landscape. In *UFOs, Chemtrails, and Aliens*, Donald R. Prothero and Tim Callahan

explore why such demonstrably false beliefs thrive despite decades of education and scientific debunking. Employing the ground rules of science and the standards of scientific evidence, Prothero and Callahan discuss a wide range of topics including the reliability of eyewitness testimony, psychological research into why people want to believe in aliens and UFOs, and the role conspiratorial thinking plays in UFO culture. They examine a variety of UFO sightings and describe the standards of evidence used to determine whether UFOs are actual alien spacecraft. Finally, they consider our views of aliens and the strong cultural signals that provide the shapes and behaviors of these beings. While their approach is firmly based in science, Prothero and Callahan also share their personal experiences of Area 51, Roswell, and other legendary sites, creating a narrative that is sure to engross both skeptics and believers.

[How UFOs Conquered the World](#) Aeon Books

Examining the nature of UFO "evidence", the authors present a primer for scholars, skeptics, and others uneasy about investigating the field of UFOs. The volume also brings together three bestselling authors--David M. Jacobs, Budd Hopkins, and Pulitzer Prize winner John Mack--widely known for their writings on the controversial "alien abduction" phenomenon.

UFOs, Chemtrails, and Aliens Dell

An astronomer speculates on the possibility of UFOs and discusses the technology and theoretical principles required to make them possible.

UFO Mysteries Citadel Press

Centuries before the U.S. Air Force launched Project Blue Book or mysteries swirled around the enigmatic Area 51, the Puritans in 1639 witnessed a great light in the sky over Massachusetts. It was the first recorded sighting of an unidentified flying object. Now, sightings are so common they're not even front-page news, and the Air Force just released all the records from Project Bluebook. Despite all this, there remain sightings that cannot be easily explained. Are we being visited by another species? The Universe, it seems, is full of mystery. Tracing the strange history of UFO sightings in the region, Taryn Plumb presents the stories of sightings or events in each New England state. Many are unexplained sightings of strange objects or lights in the sky; and some tell the tales of alien encounters and even abductions. All will keep you glancing to the night sky, wondering what that was out of the corner of your eye.

The Mammoth Book of UFOs Capstone

Scores of entertaining and informative lists illuminate the UFO phenomenon: -- Ancient Astronauts -- Area 51, Roswell, the Hudson Valley Sightings, and the Philadelphia Experiment -- Barney and Betty Hill, and the Travis Walton Abduction -- Close Encounters of the 1st, 2nd, 3rd, 4th, and 5th Kind -- Crop Circles - - Galactic Departure Points for UFOs -- Healings by Extraterrestrials -- Predictions by Extraterrestrials That Came True -- Sounds UFOs Make -- Crashes -- With and Without Physical Evidence -- UFO Debunkers and Hoaxes -- UFO Magazines, Novels, TV Shows, Movies, Web sites, Songs, Conventions, and Associations. Here, in an engrossing, page-turning style, is everything readers have wanted to know about our weird universe!

The Road to Strange Cosimo, Inc.

In 1983, a few miles north of New York City, hundreds of people were startled to see a UFO - a series of flashing lights that formed a V as big as a football field, moving slowly and silently. This text explores all the evidence and over 7000 sightings, including those recorded up to 1995.

Night Siege Lulu.com

When United Airlines workers reported a UFO at O'Hare Airport in November 2006, it was met with the typical denials and hush-up that usually accompany such sightings. But when a related story broke the record for hits at the Chicago Tribune's website, it was clear that such unexplained objects continued to occupy the minds of fascinated readers. Why, wonders Thomas Bullard, don't such persistent sightings command more urgent attention from scientists, scholars, and mainstream journalists? The answer, in part, lies in Bullard's wide-ranging magisterial survey of the mysterious, frustrating, and ever-evolving phenomenon that refuses to go away and our collective efforts to understand it. In his trailblazing book, Bullard views those efforts through the lens of mythmaking, discovering what UFO accounts tell us about ourselves, our beliefs, and the possibility of visitors from beyond. Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow "alien"-and how it views relentless official denial as a part of conspiracy to hide the truth. He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos. Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions, magically advanced technologies, governmental conspiracies, varieties of religious salvation, apocalyptic fears, and other paranormal experiences. Along the way, Bullard investigates how UFOs have inspired books, movies, and television series; blurred the boundaries between science, science fiction, and religion; and crowded the Internet with websites and discussion groups. From the patches of this crazy quilt, he posits evidence that a genuine phenomenon seems to exist outside the myth. Enormously erudite and endlessly engaging, Bullard's study is a sky watcher's guide to the studies, stories, and debates that this elusive subject has inspired. It shows that, despite all the competing interests and errors clouding the subject, there is substance beneath the clutter, a genuinely mysterious phenomenon that deserves attention as more than a myth.

UFO's in Space Macmillan

The New York Times bestselling author of "Witnessed" and "Intruders" returns with astonishing evidence that otherworldly beings are a very real--and growing--part of our earthly lives.

Swamp Gas Times Lerner Publications (Tm)

Unmasking the mysteries of alien life on earth! Make mention of the word "alien" and it conjures images of black-eyed, large-headed, dwarfish beings that have come to be known as the Greys. Indeed, Greys have become a staple part of pop-culture, never mind just the field of UFO research. They've appeared in Steven Spielberg's classic 1977 movie, Close Encounters of the Third Kind. They regularly popped up in The X-Files. And, of course, there are numerous people - all across the world - who claim to have been abducted by the Greys and subjected to intrusive medical experiments. Yet, before the 1950s, the Greys were nowhere in sight. The Alien Book: A Guide to Extraterrestrial Beings on Earth shows that extraterrestrial life comes in all kinds, appearances, sizes, and bodies. They all have one thing in common, however: the human race has encountered them, and we continue to do so today. Not just dozens, or even hundreds, but thousands of eyewitness experiences have been reported. Covering hundreds of extraterrestrial life forms in more than 40 thematic chapters, this absorbing look at the mysteries of aliens on earth includes ... the Space Brothers: long-haired, very human-looking ETs the fiendish Reptilians: seven-to-eight-foot-tall

predatory shapeshifters Men in Black beings: extremely pale-skinned, tall, and with huge eyes Black-eyed Children: anemic-looking kids with solid black eyes that might be ET-human hybrids Bigfoot the werewolf-like Dogmen jellyfish-style aliens that soar around the skies of our world the Shadow People: dangerous humanoids that terrorize people legendary Nephilim space-vampires: insect-like aliens that resemble a giant praying mantis and many, many more! The Alien Book investigates the full range of sentient, alien life forms. Some are benign and others downright deadly. Some are small, like a germ or virus that has NASA, creating guidelines to deal with an outbreak of an extraterrestrial germ. Some are big like a giant praying mantis or the biblical Goliath. They all lurk on Earth and in this chilling book! With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.

UFO FAQ Red Wheel/Weiser

Spaceship...Aliens...Cover-up or Hoax? What Really Happened at Roswell? New witnesses! New evidence! A shocking conclusion! Did an extraterrestrial spacecraft really crash in the New Mexico desert in 1947? Were alien bodies found...and, if so, was there a secret autopsy? Are the recent Art Bell revelations true? Find out about: The actual objects found at the crash site--including real-life photos New, disturbing information about Roswell eyewitness Maj. Jesse Marcel The original "flying disc" newspaper story, reprinted in its entirety...and who "killed" it The startling analysis of "spacecraft" fragments sent anonymously to Art Bell Aliens at Roswell: Were bodies found? Did any survive? What experts now say about the autopsy film The real Air Force cover-up...the whole truth for the first time!

The UFO Abduction Book Visionary Living, Inc.

"Cover[s] all the major themes of ufology, ranging from lights in the sky to crashed saucers, government cover-ups and alien abductions . . . fascinating." —Popular Science Books Neither a credulous work of conspiracy theory nor a skeptical debunking of belief in "flying saucers," *How UFOs Conquered the World* explores the origins of UFOs in the build-up to the First World War and how reports of them have changed in tandem with world events, science and culture. The book will also explore the overlaps between UFO belief and religion and superstition. "An insightful, informative and thought-provoking book on UFOs and the UFO culture . . . In the following ten chapters, he writes about his pursuit of the 'truth' about UFOs. It is a fascinating journey." —Skeptic

The Science of UFOs Llewellyn Worldwide

This book was inspired by, and is loosely based on, "The UFO Experience: A Scientific Inquiry" (1972) by the late Dr. J Allen Hynek. Dr. Hynek's book is generally considered to be the most influential book ever written about UFOs, but much has happened since 1972. This new book not only brings us up-to-date, but extrapolates on current science whenever possible. Perspectives are offered in three basic categories: natural causes, domestic technology, and alien technology. But perhaps more importantly a new way of looking at the phenomena is proposed that has been largely overlooked by other authors, and which finds itself at home in any of these three possibilities. The reader will not find discussion of conspiracy theories, accounts of abductions, or metaphysical and supernatural hypotheses. However, one will find speculations about possible alien visitations, what alien

technology might be capable of, or what the distant future might hold.

The Big Book of UFOs iUniverse

In a mothership full of entertaining and informative chapters, authors Stephen Spignesi and William Birnes, writers of many books dealing with the intriguing, weird, and unexplained, shed a revealing beam of light on the UFO phenomenon. From inexplicable cattle mutilations and modern astronauts who have seen UFOs, to close encounters of the third and fourth kind, and, it's all here: The latest on Roswell, and the 1947 crash that has never been explained The weirdest (and most convincing) alien abductions—and the medical procedures performed on abductees The most commonly-seen UFO shapes A who's who of UFOlogy—including presidents that have seen UFOs UFOs and the Bible 20 years of Project Blue Book mysteries—NASA's official UFO investigation Weirdness galore—Men in Black, crop circles, Bigfoot, the face on Mars, Hollow Earth Theory, alien ancestry, and more! The Big Book of UFO Facts, Figures & Truth is at once a valuable reference and an engrossing guide for all those fascinated with unexplained phenomenon. Turning to any page at random, readers are sure to find new facts and information, as well as dozens of rare, irrefutable photos. In addition, readers will learn how they can access a special website which includes actual video evidence of UFOs. This just may be the most comprehensive UFO guide available.

Close Encounters Hal Leonard Corporation

Chris Rutkowski's name is synonymous with UFO research the world over, and this book captures his most breathtaking research, along with new and exciting accounts, that will have you questioning "are we alone in the universe?" The Big Book of UFOs is a compendium of his best and most disturbing UFO stories for enthusiastic fans everywhere, with startling evidence to make even the biggest skeptics believe. The renowned ufologist takes us on a tour of UFOs in Canada and around the world. He has studied UFOs, aliens, abductions, and even encounters reported by kids. Rutkowski offers many famous reports, such as the "ghost airplanes" seen over Canada's Parliament in 1915, but also includes many exciting new cases, secret files, and statistics, as well as lots of tidbits and trivia to keep everyone excited.

The UFO Experience Reconsidered Quarto Publishing Group USA
Written by an acclaimed occult scholar, this book is a through are credible exploration of the UFO phenomenon - from Kenneth Arnold's 1947 sighting of the first 'flying saucers' to present-day sightings.

UFOs and Abductions Simon and Schuster

UFOs are a truly global phenomenon. Although many of the best-known cases have taken place in North America, amazing stories of witnesses encounters with strange disc-shaped objects (and their occupants) have come from every corner of the globe. From a floating platform watched by dozens in Indonesia, to a Saturn-shaped object that flew over a ship off the coast of Brazil, to a landing Down Under, UFOs have been baffling witnesses and making headlines around the world. What are some of the most interesting cases? Which ones seem most mysterious? And what can one of the worlds most active UFO researchers and investigators tell us about UFOs, from A to Z? Join Chris Rutkowski as he takes us on a tour of A World of UFOs.

The Big Book of UFO Facts, Figures & Truth Dundurn

Beyond the familiar opposition between those who believe that UFOs are spacecraft from other planets and those who believe UFOs do not exist at all, lies a landscape of stranger and more rewarding topics. This new edition of *The UFO Phenomenon* is a discovery of the nature of apparitions, the history of secret American aerospace technologies, the mythology of progress,

and the role of popular culture in defining experienced reality.

The Ufo Book of Lists Robinson

The shocking true story of the United States government's quest to hide the reality of extraterrestrial contact, even at the cost of its citizens. In 1978, Paul Bennewitz, an electrical physicist living in Albuquerque, New Mexico, became convinced that the strange lights he saw hovering in the night sky were extraterrestrial. He reached out to newspapers, senators, and even the president before anyone responded. Air Force investigators listened to his

story, as did Bill Moore, the author of the first book on the infamous Roswell UFO incident. Unbeknownst to Bennewitz, Moore was hired by a group of intelligence agents to keep tabs on Bennewitz while the Air Force ran a psychological profile and disinformation campaign on the unsuspecting physicist. In return, Air Force Intelligence would let Moore in on classified UFO material. What follows is a scandalous true tale of disinformation, corruption, and exploitation, all at the hands of the United States intelligence community.
