The Rise and Fall of the Aztec Empire McFarland

Slovenia gained its independence in 1991, and joined the European Union in 2004. This book, with its substantial introduction and four Slovene plays in translation, makes a unique contribution to an understanding of both the dramatic and theatrical history of this period of enormous political change in Slovenia. The Great Brilliant Waltz (1985) by Drago Jančar was written and produced when Slovenia was still part of the former Yugoslavia. This black comedy is set in the mental hospital 'Freedom Sets Free', a metaphor for the totalitarian society of the communist era. Draga Potočnjak is foremost among the few female playwrights in Slovenia. Based on real events, The Noise Animals Make is Unbearable (2003) shows a mentally retarded and severely autistic Bosnian boy after soldiers kill his whole family in front of his eyes, leaving only his grandmother. Critics have seen the play as the best tribute that Slovene drama has offered to the victims of the Bosnian

war. The fabric of Dusan Jovanovic's comedy The Boozski Clinic (1999) is the transition into capitalism. Losers on the edge of society, examples of the collateral damage of a newly capitalist society whose rules of operating they do not wish to obey, congregate in a small bar in a small town which used to be the pride of the communist government. Matjaz Zupančič's play The Corridor (2004) is set in the corridor outside a television studio where the 'reality' programme 'Big Brother' is being filmed. The ever-present television camera in the studio represents current invisible but nonetheless totalitarian power, with its technical interference and controlling of individuals' lives.

Originally published in 1920, this book provides a theory of the dramatic origin of the older Eddic

poems. Whilst the Eddic collection in general can be seen to contain a variety of unrelated elements, there is an essential unity to the older poems on native subjects. This can be seen in their special metre, their dialogic or monologic form, bearing traces of improvisation by one or more speakers, their stage directions, their stock scenes, their taste for disguised or theriomorphic characters, and their fixed traditional plots. In analysing this unity, the text brings forth observations on the relationship between the poems and the socio-cultural context in which they were written. This is a highly informative volume that will be of value to anyone with an interest in Old Norse literature and literary criticism.

Students are taught that the Aztecs were destroyed by Hernán Cortéz, the conqueror of Mexico. However, there is much to learn about who the Aztec people were before they were conquered. The native Mexicans were part of a rich and vibrant culture that spanned hundreds of years. To understand this complicated society, readers are provided with an engaging main text and colorful photographs and historical images. Informative sidebars throughout detail the long history, and

sudden defeat, of the Aztec Empire.

In the early seventies, the anti-establishment counterculture evolved into a new movement of health and agricultural purists. Rebelling against the politics and pollution of the U.S., these young people sought to create their own natural paradise outside its borders. This is the story of one such expatriated American, a starry-eyed wild child who searches for a fantasy lifestyle and gets more than she bargains for. The storyline, a colorful tapestry of romantic adventure set in the jungles of Belize, Central America, is flavored with vivid imagery, picturesque characters, wild animals, and Mayan archaeological intrigue. But it is also a compelling story of a maturing young woman and her battle with the darker side of human nature, of innocence lost, deception, infidelity, and heartbreaking exile. Full of poignant moral dilemma, it is a story of one woman's survival, of exceptional courage, strength in overcoming adversity, spiritual growth, and eventual triumph.

"Custer came to me and said: 'Porter, there is a large camp of Indians ahead, and we are going to have a great killing.'" The words of army contract surgeon Henry R. Porter are chilling today in their matter-of-fact reference to the battle to come--a battle of which Porter would be one of the few white survivors. Drawing on his writings, this biography tells the story of Porter's transformation from young easterner to ambitious frontier settler and medical practitioner in mid-19th century America. In its details of frontier life, of the infamous Battle of Little Bighorn, and of Porter's later travels around the world (which ended with his death in Agra, India), the reader finds richness that brings history vividly to life. Appendices contain a list of items from the North Dakota Historical Society's Henry R. Porter collection and a detailed Porter lineage.

Self-help books don't seem to work. Few of the many advantages of modern life seem capable of lifting our collective mood. Wealth—even if you can get it—doesn't necessarily lead to happiness. Romance, family life, and work often bring as much stress as joy. We can't even agree on what "happiness" means. So are we engaged in a futile pursuit? Or are we just going about it the wrong way? Looking both east and west, in bulletins from the past and from far afield, Oliver Burkeman introduces us to an unusual group of people who share a single, surprising way of thinking about life. Whether experimental psychologists, terrorism experts, Buddhists, hardheaded business consultants, Greek philosophers, or modern-day gurus, they argue that in our personal lives, and in society at large, it's our constant effort to be happy that is making us miserable. And that there is an alternative path to happiness and success that involves embracing failure, pessimism, insecurity, and uncertainty—the very things we spend our lives trying to avoid. Thought-provoking, counterintuitive, and ultimately uplifting, *The Antidote* is the intelligent person's guide to understanding the much-misunderstood idea of happiness.
