In the hypermediated world of Tamil Nadu, Francis Cody studies how "news events" are made. Not merely the act of representing events with words or images, a "news event" is the reciprocal relationship between the events being reported in the news and the event of the news coverage itself. In *The News Event*, Francis Cody focuses on how imaginaries of popular sovereignty have been remade through the production and experience of such events. Political sovereignty is thoroughly mediated by the production of news, and subjects invested in the idea of democracy are remarkably reflexive about the role of publicly circulating images and texts in the very constitution of their subjectivity. The law comes to stand as both a limit and positive condition in this process of event making, where acts of legal and extralegal repression of publication can also become the stuff of news about news makers. When the subjects of news inhabit multiple participant roles in the unfolding of public events, when the very technologies of recording and circulating events themselves become news, the act of representing a political event becomes difficult to disentangle from that of participating in it. This, Cody argues, is the crisis of contemporary news making: the news can no longer claim exteriority to the world on which it reports.

One of The New York Times 10 Best Books of the Year National Book Award Finalist Finalist for the National Book Critics Circle John Leonard Prize Finalist for the Center for Fiction First Novel Prize Finalist for the New York Public Library's Young Lions Fiction Award National Best Seller "Splendidly imagined . . . Thrilling" --Simon Winchester "A genuine masterpiece" --Gary Shteyngart Spellbinding, moving--evoking a fascinating region on the other side of the world--this suspenseful and haunting story announces the debut of a profoundly gifted writer. One August afternoon, on the shoreline of the Kamchatka peninsula at the northeastern edge of Russia, two girls--sisters, eight and eleven--go missing. In the ensuing weeks, then months, the police investigation turns up nothing. Echoes of the disappearance reverberate across a tightly woven community, with the fear and loss felt most deeply among its women. Taking us through a year in Kamchatka, *Disappearing Earth* enters with astonishing emotional acuity the worlds of a cast of richly drawn characters, all connected by the crime: a witness, a neighbor, a detective, a mother. We are transported to vistas of rugged beauty--densely wooded forests, open expanses of tundra, soaring volcanoes, and the glassy seas that border Japan and Alaska--and into a region as complex as it is alluring, where social and ethnic tensions have long simmered, and where outsiders are often the first to be accused. In a story as propulsive as it is emotionally engaging, and through a young writer's virtuosic feat of empathy and imagination, this powerful novel brings us to a new understanding of the intricate bonds of family and community, in a Russia unlike any we have seen before.
