## **DAVENPORT BEATRICE**

USDA Forest Service Research Paper RM. Big Earth Publishing  
The world-famous Grand Canyon is only one of Arizona's spectacular natural features. Arizona encompasses over 90 wilderness areas, more than 15 national parks and monuments, and the largest national forest in the country. Expansive mesas, high peaks, and snaking canyons create a dynamic landscape and reflect a rich geologic and human history. Backpacking Arizona is the only guide devoted to overnight trips in the state. You'll discover the maze of side canyons and hidden grottos in the Grand Canyon's untrammled backcountry, historic pioneer trails on the Mogollon Rim, the little-traveled Blue Range, and the legendary Superstition Mountains in the Sonoran Desert.

### **Effects of Chaparral-to-grass Conversion on Wildfire Suppression Costs**

Big Earth Publishing  
New Mexico's 555,000-acre Gila Wilderness is a vast untrammled patchwork of virtually unlimited forest types, climatic conditions, and wildlife.

*Recreation Guide to Barrier-free Facilities, Southwestern National Forests* Rowman & Littlefield

Best Hikes Near Phoenix details 40 of the best hikes within an hour's drive of the greater Phoenix area, including outings near Tempe, Mesa, Scottsdale, Chandler, and Apache Junction. Ranging from easy nature walks to strenuous multiday backpack trips, the routes in this guide offer something for every hiker—within easy reach of the city. Each featured hike includes a brief route description, at-a-glance data including the length and difficulty level, thorough directions to the trailhead, directional cues, and a detailed trail map with accurate trail information. Inside you'll find:

- Full-color photos and maps
- GPS waypoints for every hike
- Water availability, land status, fees and permits required, and more
- Sidebars on local lore, plants, and animals

*Forest Service Roadless Area Conservation: Maps of inventoried roadless areas* Rowman & Littlefield

With detailed listings and useful tips, this guide for equestrians

profiles 262 riding trails in Arizona's six national forests--a practical guide to the high country.

### **Environmental Impact Statement** Menasha Ridge Press

Central Arizona's most popular forest area houses six separate ecosystems, and much of it can only be seen on foot. Hikers have long known about the natural wonders that exist here, and this guide corrals all of the best hikes — no small task, since there are over 900 miles of trails in the park. Offering detailed descriptions of each hike, along with practical, need-to-know logistical information, this guide demystifies a truly enormous and beautiful stretch of wilderness.

*Hiking Arizona* Rowman & Littlefield

This latest volume in The Mountaineers' popular Exploring Wild Areas series takes a look at the year-round recreational opportunities available in the Grand Canyon State. Whether you're a hiker, cross-country skier, climber, paddler, or back-packer, this handy guide will show you the best ways to explore these diverse wilderness areas. With detailed profiles on the state's forests, deserts, canyons, and meadows. Exploring Arizona's Wild Areas includes 84 area and trail maps, information on terrain and elevation, historical background, special tips for "keeping your cool" in warmer temperatures, and more.--Cover  
*Chaparral Conversion Potential in Arizona* Rowman & Littlefield  
This describes a strategy for conserving National Forest System inventoried roadless areas and their important values. It has an analysis of management options and the Forest Service's preferred alternative.

*Proposed Tonto National Forest Plan* Wilderness Press

In 2011, 25-year corporate veteran Sandy Van Soye had a dream to travel with a purpose. Out of this vision came the Trekking the Planet expedition. Sandy and her husband Darren left their jobs and traveled 14 months to 53 countries on six continents, bringing the subject of geography to life through stories, pictures, and videos from the road. Following their travels were 55,000 students in 20 countries. Darren and Sandy traveled to such places as the Phongsali province of Laos, the countries of Kyrgyzstan and Uzbekistan, the Tigray region of Ethiopia, and the Amazon Rainforest of Brazil. An integral part of their journey was

a goal to complete 500 miles of demanding trekking in 12 of the most remote locations on the planet. More than just about their expedition, *Trekking the Planet* is the story of Sandy's perseverance in making her dream come true. This was put to the test while trekking in difficult conditions, narrowly missing a plane crash in Nepal, and being bitten by a vampire bat in Brazil. This book not only details these challenges, but how the dream of traveling with a purpose ended up giving back in its own special way, changing her life forever.

*Library of Congress Subject Headings* Mountaineers Books  
Hiking Arizona will introduce you to the state's most natural wonders and more. This book covers the Grand Canyon, of course; Northeast Plateaus, San Francisco Peaks Area, Mogollon Rim Country; Central Highlands; The White Mountains; the Phoenix Area; the Tucson Area; Sky Islands; Tohono O'odham Country; and the Western Desert.

**General Technical Report PSW.** Northern Rockies Publishing, distributed by Farcountry Press

Just east of the greater Phoenix area, the Superstition Mountains are a wild, rugged range of volcanic peaks, mesas, and canyons. A network of trails covers this wilderness, reaching into Sonoran desert canyons, pine forested valleys, mysterious volcanic rock formations, and jagged peaks. North of the Superstitions and still only a two hour drive from Phoenix, the Mazatzal Mountains are one of Arizona's largest and most remote wilderness areas. You can hike for days here without seeing another hiker. Completely revised and updated, *Hiking Arizona's Superstition and Mazatzal Country*, 2nd, is your ticket to exploring and enjoying this remarkable country, from the Verde River to the pine-forested peaks along the Mazatzal Crest, the jagged summits of Four Peaks, and the labyrinthine canyons of the Superstitions. This guidebook contains descriptions of enjoyable hikes from a few hours to a week in length, for everyone from family groups to ardent peak baggers. Many of the hikes are loops and have opportunities for side trips and exploration. Look inside to find: Hikes suited to every ability Mile-by-mile directional cues GPS coordinates for all trailheads as well as critical points along the hikes Easy-to-read, up-to-date maps and elevation profiles Safety,

technique, and equipment tips

Recreation Sites in Southwestern National Forests

Arizona is known for its exceptional variety of topography and ecosystems. From stands of saguaro cacti and plunging canyons to high alpine forests, many are fragile areas in need of protection. All told, Arizona has some 92 wilderness areas, and author Tom Dollar provides informative descriptions for backcountry travelers wishing to explore those 65 areas accessible to the public. (Many areas are so remote they are virtually inaccessible.) This guidebook includes suggestions for hikers, along with insights into the unique natural history of such

areas as Paria Canyon, Mazatzal, Organ Pipe, and Kachina Peaks wildernesses. Outdoor photographer Jerry Sieve's dramatic photographs illustrate each of the areas described.

**Guide to Arizona's Wilderness Areas**

This research paper compares the costs of converting 139 chaparral areas to grass and maintaining the conversion over a 50-year period with the benefits to society in terms of increased water yield and forage for livestock, and reduced firefighting costs.

*Tonto N.F., Land and Resource(s) Management Plan (LRMP)*

Along "The Front" the Great Plains skid to an abrupt halt against the soaring escarpment of the Northern Rockies. Through essays

and photography, this book captures the essence of this magnificent and uncommon landscape.
