English as a Global Language Al Manhal

Most dictionaries have forerunners, and all have imitators; an understanding of the historical foundations of dictionary-making is therefore one of the preconditions of further progress in academic lexicography. The papers in this volume, which were presented at the 1986 Exeter Seminar, survey most of the lexicographical traditions in the world, some tracing them right back to their beginnings. The programme was divided into eight sessions, with the following concentrations of topics: (1) three classical traditions, (2) the early history of European lexicography, (3) the beginnings of English lexicography, (4) further aspects of English lexicography, (5) the background of diverse national developments, (6) specific features of national developments, (7) pioneers of three genres, (8) recent trends in the English dictionary.

Longman First Learning Dictionary John Benjamins Publishing The OPD Second Canadian Edition English/Chinese is an illustrated, theme-based dictionary for second-language learners.

This four-colour dictionary defines words through pictures, and presents each new word in context. The OPD English/Chinese, along with the monolingual workbooks and many other components, can be used as a reference book or as text for high school or adult ESL students at the beginner level. For years, the first monolingual Canadian edition of the OPD has been the industry leader among picture dictionaries. The second edition expands on the topics covered, providing more depth of vocabulary in the areas that matter most to students and offers Chinese speakers the additional advantage of having words and phrases defined in their native language. The illustrations have been completely updated in a more realistic style that is visually appealing to adult learners. The second edition also contains two new features: Introductory Pages and Story Pages. The Introductory Pages have been added to the beginning of each theme to give lower-level students a basic overview of key vocabulary words, and to give a starting point for discussion and an introduction to the theme for more advanced students. The Story Pages consist of a two-page spread at the end of each theme to help students use the words in context and practise their reading skills. The OPD English/Chinese is designed for use both in and out of the classroom. Speaking exercises are presented throughout the OPD to allow students to practise new vocabulary in pairs or small groups, while the pronunciation guide in the index allows students to check their pronunciation when they are studying on their own.

The papers collected in this volume are a selection of papers presented at a conference on Language and Translation (Irbid, Jordan, 1992). In their revised form, they offer comparisons between Western and Arabic language usage and transfer. The articles bring together linguistic and cultural aspects in translation in a functional discourse framework set out in Part One: Theory, Culture, Ideology. Part Two addresses aspects for comparisons among translations and their cultural contexts (equivalence, stylistics and paragraphing). Part Three features Arabic-English language contact, specifically in technical writing, the media and academia. Part Four deals with problems in lexicography and grammar: terminology, verb-particle combinations and semantic diversity of 'radical-doubling' forms and includes a proposal for a new approach to English/Arabic dictionaries. Part Five turns to issues of interest to language teachers with practical proposals and demonstrations. Part Six deals with geopolitical factors linking the West and Middle East, focusing on equality in communication and exchange of information.
