"What I would prefer is that you should fix your eyes every day on the greatness of Athens as she really is, and should fall in love with her. When you realize her greatness, then reflect that what made her great was men with a spirit of adventure, men who knew their duty, men who were ashamed to fall below a certain standard." - The Funeral Oration of Pericles, quoted by Thucydides "The walls

of Sparta were its young men, and its borders the points of their spears." - attributed to King Agesilaos For 2500 years, the Ancient Greeks have fascinated the West, who look to Greece as the creators of Western culture. Indeed, the Greeks revolutionized warfare, art, architecture, government, philosophy, and more. Of all the Greeks' accomplishments, many can be credited to the two most famous city-states of all: Athens and Sparta. The most unique city-state in Ancient Greece was Sparta, which continues to fascinate contemporaneous society. It is not entirely clear why Sparta placed such a great emphasis on having a militaristic society, but the result was that military fitness was a preoccupation from birth. If a Spartan baby did not appear physically fit at birth, it was left to die. Spartan children underwent military training around the age of 7 years old, and every male had to join the army around the age of 18. The Spartans, whose carefully constructed approach to warfare and - there is no other word for it - Spartan way of life, earned the grudging admiration of all of Greece and succeeded in establishing themselves in the years

following the reforms of the semi-legendary ruler Lycurgus as the greatest military force in all of Hellas. Athens might have the mightiest fleet and the greatest cadre of philosophers and dramatists, Thessaly might have had the most vaunted cavalry, and the great city-states of Argos, Thebes and Corinth all had their own claims to fame, but on the battlefield the Spartan phalanx stood without peer. Athens was a military force in its own right, but it's chiefly remembered for its political system, which would in time form the nucleus of all Western democratic systems of government, and the remarkable number of outstanding individuals who lived and flourished in the enlightened city-state. The Ancient Athenians formed the backbone of the West's entire culture, from the arts to philosophy and everything inbetween. In the field of medicine, the great physician Hippocrates not only advanced the practical knowledge of human anatomy and care-giving but changed the entire face of the medical profession. The great philosophers of Athens revolutionized the way men thought about reason, logic, rhetoric, politics, and good and evil. Great

architects and sculptors such as Phidias produced works of art of such breathtaking realism and startling dynamism that they later formed the driving force behind the resurgence of sculpture during the Renaissance. And this does not take into account the host of equally brilliant mathematicians, natural philosophers, historians, astronomers and politicians that the city's great schools nurtured and produced. Athens & Sparta comprehensively covers the history and culture of the famous Greek city-states, looking at their cultural, political, and military past, and examining all their accomplishments. You will learn about Athens and Sparta like you never have before.

"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is

flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." And when the time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.

First Greece, then Rome, the Greeks were not the only people to produce myths. The Romans also had a rich mythology of their own and, while much of it was derived from their neighbors, the Greeks, it still defined the rich history of the Roman people as they eventually grew into an empire. Myths are the reflection of the ancient's view of the world, they often appear as simple stories filled with valiant heroes, maidens in distress, and a host of all-powerful gods. The gods of the Greeks and Romans were anthropomorphic, exhibiting many human qualities such as love, hate, and jealousy, and because of

this, the people of Rome and Greece were able to see themselves in these tales and understand their relationship to the rest of the world as well their connection to the gods. The lesson often to be learned was that one must meet one's destiny with strength, determination, and nobility. These myths enabled an individual to stand against the ills and hardships of an unforgiving universe. In spite of their constant disagreements and battles, the gods and humankind had to stand together against the "monsters and giants" of the world, or more simply, the "forces of disorder and wanton destruction." Myths, whether Greek, Roman, were concerned with the relationship between the gods and humans, are different in this regard from fairytales and folktales. For all people, in many ways, myths made life bearable by providing security. They should not be regarded as simple stories for, in both Greece and Rome, they dealt with important issues: the creation of the world, the nature of good and evil, and even the afterlife. And, for this reason, these tales have stood the test of time and become part of our present day culture.

One only needs look at the names of our planets to see this: Mercury, Venus, Mars, Jupiter, Saturn, Neptune, Uranus and even poor little Pluto are all named for Roman gods. The Book collects 106 Greek and Roman mythology tales.

A lively and engaging narrative history showing the common threads in the cultures that gave birth to our own. This is the first volume in a bold new series that tells the stories of all peoples, connecting historical events from Europe to the Middle East to the far coast of China, while still giving weight to the characteristics of each country. Susan Wise Bauer provides both sweeping scope and vivid attention to the individual lives that give flesh to abstract assertions about human history. Dozens of maps provide a clear geography of great events, while timelines give the reader an ongoing sense of the passage of years and cultural interconnection. This old-fashioned narrative history employs the methods of “history from beneath”—literature, epic traditions, private letters and accounts—to connect kings and leaders with the lives of those

they ruled. The result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them.

Mark L. Richards's *Legions of the Forest* painstakingly crafted the world of AD 9 under the Roman Empire. He invites you back to ancient Europe in his sequel, *Return of the Eagles*. In the Teutoburg

Forest, three Roman legions are ambushed and killed under the orders of Arminius, the leader of a united confederation of German tribes. It is a political disaster for Rome and a personal one for Tribune Valerius Maximus and Centurion Marcellus Veronus, two of the few survivors of the attack. Both are given an opportunity to take their revenge on the barbarians. It's an opportunity given by Germanicus Caesar, a rising star of the empire and nephew to Emperor Tiberius. As Germanicus begins raising an army, Valerius immerses himself in the German language and customs, and Marcellus trains soldiers in the ways of their enemies. While Valerius and Marcellus understand the ambush tactics of their adversaries, many of the army's senior leadership underestimate the barbarian tribes. Valerius and Marcellus are not the same men they were in Legions of the Forest. Will their newfound experience, strength, and spirit be enough to lead Rome to victory? Or will they once again fall prey to the German barbarians?

Honoring Dr. Ben-Jochannan Createspace Independent Publishing Platform  
BLACK HISTORY EXTRAVAGANZA honoring Dr. Ben-Jochannan is a labor of love for someone intimately associated with the master teacher for some 40 years as student, traveling companion, mentee and friend. In repayment, this effort to help acknowledge and sustain his name, life's work and historical and philosophic outlook is necessary so the younger generation know of the enormous intellectual light this extraordinary scholar represented in those extremely challenging social and intellectual times of the last half century. As the systematic onslaught against the African (Black) personality continued, one particular scholar, lecturer, historian, publisher, archaeologist and tour guide to Egypt stood unmoved and unrelenting in defense

of an entire people's history, culture and spiritual well-being. In this, Dr. Ben took on all disparaging comers as he educated and nurtured intellectual "cubs" becoming equipped to challenge historical distortion and omission manifested from the false mantle of global white supremacy. To accomplish the enormous task, Dr. Ben wrote, innovated self-publishing, lectured, and took students to museums and to Egypt pointing out contradictions between the Existential Data and the symbolic Representation of ancient Egypt. Table of Contents, viz., Introduction; The Awesome

Egyptian Temple; Who were the Ancient Egyptians;? The Archaeology of Egypt; The Art of Ancient Egypt; Architecture of Ancient Egypt; The Religion of Ancient Egypt; and the History of Egypt, Dr. Ben made a substantial impact while educating students as to the utility and benefits of studying the illustrious African past, emphasizing they accentuate the positive and reject negative aspects of that memorable experience. Like the many intellectual lights, "warrior scholars," of his age, viz., Dr. John Henrik Clarke, Ivan Van

Sertima, Leonard James, Carter G. Woodson, Benjamin Carruthers, J.A. Rogers, Jitu Weusi, Leonard Jeffries, among others, Dr. Ben subscribed to one unmistakable academic admonition pursuing excellence, "Publish or Perish." This continuum of praise (Celebrating Dr. Yosef Ben-Jochannan), Black History Extravaganza seeks a starting point for readers, young and old to delve deep and drink from the remarkable fountain represented in fields of study which engaged the great scholar for more than half-a-century.
