ANTWAN KATELYN

The Namesake Phaidon Press
Count and explore the zany world and words of Seuss in this classic picture book. From counting to opposites to Dr. Seuss's signature silly rhymes, this book has everything a beginning reader needs! Meet the bumpy Wump and the singing Ying, and even the winking Yink who drinks pink ink. The silly rhymes and colorful cast of characters will have every child giggling from morning to night. From near to far from here to there, funny things are everywhere. Originally created by Dr. Seuss himself, Beginner Books are fun, funny, and easy to read. These unjacketed hardcover early readers encourage children to read all on their

own, using simple words and illustrations. Smaller than the classic large format Seuss picture books like *The Lorax* and *Oh, the Places You'll Go!*, these portable packages are perfect for practicing readers ages 3-7, and lucky parents too! *Red Sky at Night* Nomad Press (VT) From esteemed author-illustrator Elly MacKay comes a magical fantasy tale about the importance of working as a team and being a good friend. Mip and Pip are two fairies who live in a beautiful forest near a waterfall. One day, Mip has a brilliant idea to build a tree house and decides to make it into a contest: whoever can build the tallest tree house the fastest wins! Pip, who is much more thoughtful and a planner, reads about architecture and sketches out blueprints while Mip, the speedster, is already halfway done constructing her house. But when a

powerful gust of wind threatens Mip's tree house and Pip's safety, the two friends must learn to appreciate each other's talents to save the day-and to build the tallest tree house in the forest.

Emergent Curriculum in Early Childhood Settings Running Press Kids This wide-ranging collection of more than 600 teacher-created, classroom-tested activities has everything from songs and books to activities in art, circle time, transitions, science, math, language, music and movement, and more This complete resource of the best selections from a national contest is sure to become a classroom favorite. Formerly titled "It's Great to Be Four." Kathy Charner has been with Gryphon House for over 10 years. Buy this book now.

If I Built a School Betterway Publications
A Certain Age is an unconventional, evocative work of history and a moving reflection on memory, modernity, space, time, and the limitations of traditional historical narratives. Rudolf Mrázek visited Indonesia throughout the 1990s, recording lengthy interviews with elderly intellectuals in and around Jakarta. With few exceptions, they were part of an urban elite born under colonial rule and educated at Dutch schools. From the early twentieth century, through the late colonial era, the national revolution, and well into independence after 1945, these intellectuals injected their ideas of modernity, progress, and freedom into local and national discussion. When Mrázek began his interviews, he expected to discuss phenomena such as the transition from colonialism to postcolonialism. His interviewees, however, wanted to share more personal recollections. Mrázek illuminates their stories of the past with evocative depictions of their late-twentieth-century surroundings. He brings to bear insights from thinkers including Walter Benjamin, Bertold Brecht, Le Corbusier, and Marcel Proust, and from his youth in Prague, another metropolis with its own experience of passages and revolution. Architectural and spatial tropes organize the book. Thresholds, windowsills, and sidewalks come to seem more apt as descriptors of historical transitions than colonial and postcolonial, or modern and postmodern. Asphalt roads, homes, classrooms, fences, and windows organize

movement, perceptions, and selves in relation to others. *A Certain Age* is a portal into questions about how the past informs the present and how historical accounts are inevitably partial and incomplete.

The Architecture of Country Houses

Gareth Stevens Publishing LLLP
Popsicle sticks, or craft sticks as they are also commonly called, are a very abundant, affordable and versatile crafting material. You can easily use the projects collected here to entertain and engage kids of all ages, as well as find some amazing new ways to decorate your home. No matter how much experience you have, all you need is some Popsicle sticks and white glue to create something amazing. Let's start!

The Power of Moments Simon and Schuster

Bringing the lessons of Mister Rogers into the digital age Playful and practical, *When You Wonder, You're Learning* introduces a new generation of families to the lessons of Mister Rogers' Neighborhood. By exploring the science behind the iconic television program, the book reveals what Fred Rogers called the "tools for learning": skills and mindsets that scientists now consider essential. These tools--curiosity, creativity, collaboration, and more--have been shown to boost everything from academic learning to children's well-being, and they benefit kids of every background and age. They cost next to nothing to develop, and they hinge on the very things that make life worthwhile: self-acceptance; close, loving relationships; and a deep regard for one's neighbor. *When You Wonder, You're Learning* shows parents and educators the many ways they might follow in Rogers' footsteps, sharing his "tools for learning" with digital-age kids. With insights from thinkers, scientists, and teachers--many of whom worked with Rogers himself--the book is an essential exploration into how kids and their parents can excel at what Rogers taught best: being human.

Building Our House Harper Collins

This second novel by Lambda Literary Award finalist Daniel Allen Cox (Shuck) is an incendiary story about two pyromaniacs who fight homophobia in Krakow, Poland, one of the fronts of the Solidarnosc revolution that eventually toppled the Berlin Wall in 1989. It's 2005, and Poland is grappling with its newfound role as a member of the European Union; the nation dips into moral crisis as Pope John Paul II (a Pole) hovers near death while the country's soon-to-be president makes homophobic declarations. Radek, a bisexual artist and a practitioner of the extreme urban sport parkour, is convinced

that fire is the great stabilizer. While creating miniature replicas of the worlds great infernos? Chicago 1871, San Francisco 1906, London 1666?he meets Dorota, a literature student and budding pyromaniac. Driven by rage, sexual curiosity for one another, and Pink Floyd, they buck church, government, and the LGBT community to find sexual freedom, escaping their enemies by scaling the crumbling walls and ideas of the city. Provocative and unnerving, *Krakow Melt* is at once a love letter and a fiery call to arms.

Bridges and Tunnels Northlight

Houses are built with many different materials, and in many shapes and sizes. Step by step, this picture book explains how homes are built—from the architect's plans through the arrival of a happy family. The many processes of construction are explained with simple language and bright, clear illustrations, perfect for kids starting to wonder about how the world around them works. Many different careers—including carpenters, plumbers, electricians, and landscapers—are introduced, each doing their part to bring the picture wood-frame house to life. A great read for kids who love construction sites, or who can't get enough of *Building a House* by Byron Barton. According to *The Washington Post*, Gail Gibbons "has taught more preschoolers and early readers about the world than any other children's writer-illustrator." Ms. Gibbons is the author of more than 100 books for young readers, including the bestselling titles *From Seed to Plant* and *Monarch Butterfly*. Her many honors include the Washington Post/Childrens Book Fuild Nonfiction Award and the NSTA Outstanding Science Trade Book Award.

Popsicle Stick Crafts For Beginners Duke University Press

A memorable collection of weather sayings, beautifully arranged in story form and illustrated by renowned paper artist Elly MacKay. Red sky at night, sailor's delight. And, the next morning, when the dew is on the grass, no rain will come to pass. These are the perfect conditions for a grandfather to take his grandchildren out on a fishing trip. Especially since, as the saying goes, when the wind is from the West, then the fishes bite the best. The family takes a boat out on the lake, fishing and swimming and eventually camping out on a nearby island, taking full advantage of the gorgeous weather. But the next day . . . red sky in the morning, sailors take warning! The family ventures back home just in time to avoid a rainstorm. But not to worry -- the more rain, the more rest.

Fair weather's not always best. Acclaimed paper artist Elly MacKay illustrates a lovely family narrative through the use of weather aphorisms, creating a beautiful and informational story which will appeal to children's timeless fascination with the natural world.

The Glass Castle Scholastic Inc.

Nothing's more enticing than an awesome, lusciously decorated gingerbread house. With designs for holidays and birthdays, these exquisite projects include a cottage, chalet, and two-story house--and customized windows, doors, chimneys, paths, trees, and even lighting add to the charm. Hundreds of helpful process shots; advice on tools and techniques; and patterns, piping templates, and tips on baking and assembling all assure magical results.

How to Catch a Turkey The Rosen Publishing Group, Inc

Discusses the elements of a sign, and looks at pictograms, alphabets, calligraphy, monograms, text type, numerical signs, symbols, and trademarks. *How a House Is Built* Redleaf Press (Book). Every guitarist dreams of owning a handmade instrument, but for most, the cost is likely to be prohibitive. The alternative building your own fine guitar is not as difficult as you might imagine, given some skill, patience, and the expert guidance of a master luthier. Every step of construction is fully covered, from choice, selection, and preparation of woods, to consideration of size, bracing, and tonal qualities. Each step of the building sequence is clearly photographed in color, with variations to the standard design shown to enable you to personalize your instrument as you make it. Briston, England-based Jonathan Kinkead has been building guitars for nearly 30 years. His craft is born out of experience and intuition rather than a strict following of technical detail. The resulting beauty of

form and distinctive tone have earned him his reputation as one of the world's most respected independent luthiers.

Choice Time Union Square & Company

A seasoned elementary teacher shares her strategies in this amazing, super-practical guide. You'll find everything you need to set up your classroom for maximum learning, prepare dynamite lessons, create an effective classroom management plan . . . and so much more!
