Other guides on public speaking focus on how to convey knowledge or understanding. While it is useful to master such informative speech, other goals and strategies are essential for a politician: publicity, for one. To communicate optimism, to rely on material written by others, to speak repeatedly, day in and day out. Above all, politicians need to persuade their audiences. They can use facts or appeal to values, but in the end, they must urge action. Politicians are advocates. Robert Lehrman, former speechwriter for Vice President Al Gore, offers both speakers and writers the LAWS of political speech. He explains how speakers can deliver: • Language the audience will understand and remember, • Anecdotes that make listeners laugh and cry, • Wit that pokes fun at opponents but also shows their own lighter side, and • Support in the way of statistics, examples, and testimony. With how-to guidance in each chapter—including annotated speeches—Lehrman shows how to apply the LAWS at every step, even providing an entire chapter on delivery.

Lehrman also opens up his Rolodex to readers, interviewing speechwriting luminaries who offer up their best advice in a "Behind the Scenes" feature. "As Delivered" boxes point to Web links for watching notable speeches, while a handy "Speechwriter's Checklist" concludes every chapter.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Meis that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.
