CALEB BROWN

Epistolarity Routledge
This autobiographical
narrative provides an
alternative perspective
of World War I,
recounting the
experiences of a
Roman schoolboy who
volunteered to fight
against the Allies after
Italy surrendered in

1943. But he is not
sent to the front.
Instead, with
professional soldiers
from the Russian front
and fanatical fascists,
he fights in the civil
war that raged in
Mussolini's puppet
state. He is captured in
Milan after the German
surrender and is
spared execution by
his captors, boys of his
own age.
"A *Voyage on the North*

Sea" Springer

This volume offers detailed accounts of the cults of individual writers and a comparative perspective on the spread of centenary fever across Europe. It offers a fascinating insight into the interaction between literature and cultural memory, and the entanglement between local, national and European identities at the highpoint of nation-building.

Women's Rights and the French Revolution

Carcanet Press

"Utopia poses a question. Not simply in the sense of a problem to be resolved and at the same time eliminated . . . but in the sense that, within the economy of the human condition, utopia, the aim of

social alterity--of all social otherness--is ceaselessly being reborn, coming back to life despite all the blows rained down upon it, as if human resistance had taken up residence within it." For the French philosopher Miguel Abensour, the fictional genre of utopia has provided thinkers and artists a fertile ground to explore for the past 500 years, both as a way to imagine new emancipatory practices of shared existence and as a tyrannical imposition of power. Here, Abensour's project is to examine the idea of utopia in two different but powerful moments in its trajectory: first, utopia's beginning, when Thomas More sought a path for justice through a world

in transformation, and second, when utopia faced its greatest danger, the moment that Walter Benjamin called "catastrophe."

Here, Rosalind Krauss positions the work of Marcel Broodthaers within this alternative narrative. Referring to the artist's films, books, graphic design and museum 'fictions', she presents Broodthaers as standing at, and thus standing for, the 'complex' of the self-differing medium.

The Turn of the Soul

Houghton Mifflin Harcourt

There is an immense range of books about

the English Civil War, but one historian stands head and shoulders above all others for the quality of his work on the subject. In 1961 Christopher Hill first published what has come to be acknowledged as the best concise history of the period, *Century of Revolution*.

Stimulating, vivid and provocative, his graphic depiction of the turbulent era examines ordinary English men and women as well as kings and queens.

Collateral Damage

BRILL

Rebellion was in the air. Workers were on strike, students were demonstrating on campuses, discipline was breaking down. No relation of domination was left untouched -

the relation between the sexes, the racial order, the hierarchies of class, relationships in families, workplaces and colleges. The upheavals of the late 1960s and early 1970s quickly spread through all sectors of social and economic life, threatening to make society ungovernable in the eyes of ruling elites. This crisis was also the birthplace of the authoritarian liberalism which continues to cast its shadow across the world in which we now live. To ward off the threat, new arts of government were devised in business-related circles, which included a war against the trade unions, the primacy of shareholder value and a dethroning of politics. The neoliberalism that thus

began its triumphal march was not, however, determined by a simple 'state phobia' and a desire to free up the economy from government interference. On the contrary, the strategy for overcoming the crisis of governability consisted in an authoritarian liberalism in which the liberalization of society went hand-in-hand with new forms of power imposed from above: a 'strong state' for a 'free economy' became the new magic formula of our capitalist societies. Grégoire Chamayou analyses this crisis as it was perceived and theorized in the 1970s by those who strove to defend the interests of business - that is, the ruling elites, especially in the United States,

from which a far-reaching intellectual and political movement spread. The new arts of government they devised are still with us today and we can understand their nature and lasting influence only by re-examining the history of the conflicts that brought them into being.

The Black Diaspora of the Americas Springer
A first collection of seven short fictional works follows a theme of personal crises interrupted by global issues and features such characters as a journalist who becomes a client of the diet company he investigates, a man who loses his wallet just before a nuclear battle between India and Pakistan, and a slacker who becomes a

translator during a bitter family reunion.
Original.
Chileno! Springer
Translated into English.
This book doesn't just fill a niche, it opens up a new perspective on the relations among Jewishness, gender and modernity in Europe. It will certainly spark new and creative thinking by anyone wise or lucky enough to dip into its contents. The writings are made all the more valuable by an excellent introduction that provides a context for the history of Jews and women in France as well as the position of women with the Jewish tradition.

Utopia from Thomas More to Walter Benjamin Routledge
An account of the polarization of Chilean society under Augusto

Pinochet and of Chile's return to democratic government. Te Quedan Lindas Las Trenzas University of Toronto Press

From Homer to Tim O'Brien, war literature remains largely the domain of male writers, and traditional narratives imply that the burdens of war are carried by men. But women and children disproportionately suffer the consequences of conflict: famine, disease, sexual abuse, and emotional trauma caused by loss of loved ones, property, and means of subsistence. Collateral Damage tells the stories of those who struggle on the margins of armed conflict or who attempt to rebuild their lives after a war. Bringing

together the writings of female authors from across the world, this collection animates the wartime experiences of women as military mothers, combatants, supporters, war resisters, and victims. Their stories stretch from Rwanda to El Salvador, Romania to Sri Lanka, Chile to Iraq. Spanning fiction, poetry, drama, essay, memoir, and reportage, the selections are contextualized by brief author commentaries. The first collection to embrace so wide a range of contemporary authors from such diverse backgrounds, Collateral Damage seeks to validate and shine a light on the experiences of women by revealing the consequences of war

endured by millions whose voices are rarely heard.

School Days William Morrow & Company Discusses Colette's literary contributions amid a life marked by fame and loneliness, love and loss, and independence. -- Dust jacket.

Violence and

Responsibility Ian

Randle Publishers Critique of Violence is a highly original and lucid investigation of the heated controversy between poststructuralism and critical theory. Leading theorist Beatrice Hanssen uses Walter Benjamin's essay 'Critique of Violence' as a guide to analyse the contentious debate, shifting the emphasis from struggle to dialogue between the two parties. Regarding

the questions of critique and violence as the major meeting points between both traditions, Hanssen positions herself between the two in an effort to investigate what critical theory and poststructuralism have to offer each other. In the course of doing so, she assembles imaginative new readings of Benjamin, Arendt, Fanon and Foucault, and incisively explores the politics of recognition, the violence of language, and the future of feminist theory. This groundbreaking book will be essential reading for all students of continental philosophy, political theory, social studies and comparative literature. Also available in this series:

 Women played a major
 part in the French
 Revolution of 1789, but
 have received very
 little recognition for
 their contributions. The
 many claims and
 protests put forth by
 women at that time
 were suppressed,
 women's clubs were
 banned, and Olympe
 de Gouges, a leading
 contemporary
 advocate for women's
 rights, was silenced
 and has since
 remained an obscure

figure. This book is the first biography of this astonishing woman. After boldly publishing her Declaration of the Rights of Woman and of the Female Citizen in 1791, de Gouges was sent to the guillotine for having had the courage to mount the rostrum on behalf of women. Unlike many who have captured posterity's attention, de Gouges had great sympathy but no indulgence for her sex. Instead of considering her female colleagues as eternal victims, she understood that they were to some extent responsible for their misfortunes, and that if they united and devoted themselves to changing their image, they could become great. De Gouges called for the advent of

a new woman, one who would relinquish the nocturnal administering of men. Olympe de Gouges rightly deserves the title of pioneer, prophet, and heroine. This long-overdue biography pays her due homage. It will be of interest to students of the French Revolution, women's studies, and biography. *The Ungovernable Society* University of New Mexico Press 2023 marks the fiftieth anniversary of General Pinochet's coup on September 11, 1973. During the wave of mass arrests, torture, and executions that followed, people began fleeing Chile. Over the next fifteen years some two hundred thousand Chileans sought exile in countries around the

world. Out of their anguish and anger come these moving and powerful testimonies of their fractured lives--the first oral history of the Chilean diaspora, now revised and updated. Many who fled had been tortured, and they clung to the principle that the dictatorship was an evil that had to be destroyed. But their zeal and solidarity with other refugees often failed to sustain families. Many marriages collapsed, and children lost interest in their native land and culture. After civilian rule returned in 1990, many returning exiles felt estranged from a homeland forever changed. This timely update of the 1998 collection continues to remind us

of the fracturing legacy and enduring oppression of usurpation and authoritarian rule long after its time has passed.

Letters and Literacy in Hollywood Film

Routledge

Jacques Rossi is one of Stalin's most well-known victims. Author of *The Gulag Handbook*, a fascinating encyclopedia of the Soviet forced labor camps, Rossi spent twenty years in interrogation, prison, and Gulag detention. Born to a prominent Polish father and French mother, the young Jacques became attracted to communism as a blueprint for radical social reform. He spent years in the communist underground in

interwar Europe, agitating for the revolution, but he was arrested during Stalin's Great Purges in 1937. This book represents a conversation between Jacques Rossi and Michèle Sarde, professor emerita at Georgetown University, and weaves together personal reflections and historical analysis. Rossi's remarkable life (1909-2004) spanned the twentieth century and sheds important light on the tumultuous history of Europe - the appeal of communism in the interwar period and beyond, the mentality of party members, the effects of mass repression, everyday life in Stalin's Gulag, and the problem of rights for former prisoners during the Khrushchev era. As he abandoned his

internationalist communist beliefs, Rossi increasingly identified as French, embracing the name his fellow prisoners gave him in the Gulag, "Jacques the Frenchman." Rossi's reflections on his own political beliefs, his frustrations with those who could not accept the truth of his brutal experiences in the Soviet Union, and his life as a witness to one of the twentieth century's worst crimes offer a fascinating history of Stalinism and its legacies.

A Working Woman

Polity

Nico, the son of a noted Chilean philosophy professor, witnesses his father's arrest while he is teaching a class. Bettini, the father of Nico's best friend, is a

leftist advertising executive who has been blacklisted and is out of work after having been imprisoned and tortured by Pinochet's police. This doesn't stop the ministry of the interior from asking Bettini, who is the best in the business, to come up with a plan for the upcoming referendum designed to say "yes" to Pinochet's next term. But just hours after he has been approached by the right, the head of the opposition makes him the exact same offer. What is Bettini going to do? Put his life on the line or sacrifice his political convictions? Finally he goes with the left. The next hurdle is finding a slogan that would be approved by the sixteen factions that

comprise the opposition and who never agree on anything. Whiskey after whiskey, an idea finally emerges. This is a vivacious tale that examines how advertising and politics come together during the Pinochet regime. But this is also a coming-of-age story where we see through Nico's experience what it means to grow up in a country where nothing is allowed and almost any move can feel like an earnest act of resistance. The Task of this Translator Routledge We are so used to images of words that it is easy to ignore the different ways in which they work in films. This book explores both the letters that come in the post and the many other kinds that are

offered to us on screen.

Me Against My

Brother Holmes & Meier Publishers

Focusing on conversion as one of early modern Europe's most pressing issues, the present

book offers a comprehensive reading of artistic and literary ways in which spiritual transformations and exchanges of religious identities were given meaning.
