Ocean Planet is the stunning new book from natural-history illustrator Ben Rothery - and offers a rich exploration of the creatures from the coastal and offshore waters of the world - from penguins, seagulls, polar bears and seahorses, to plankton, sharks

Strange Planet Barefoot Books

From deep within the

human body to distant nebulae in outer space, there are worlds all around us that are smaller, faster, and farther than the unaided eye can see. In these thirty-six amazing images, you can see the invisible: from a white blood cell attacking E. coli bacteria, to the delicate splash from a falling drop of water captured by a high-

speed strobe. With pictures that astound and fascinating explanations of how each image was captured, award-winning author Seymour Simon takes readers on a fantastic voyage that's truly out of sight.

Meet the Planets Lonely Planet

Perfect for animal-lovers everywhere! A beautiful, large-format crossover book for all ages, this is the book natural-history illustrator Ben has wanted to read since he was a child. Facts and descriptions provide

insight into a curated collection of birds and animals - some endangered and some less so - told from the perspective of a detail-obsessed illustrator. Fun to read together or independently, let the secrets of the animals on our planet come to life in vibrant detail. 'This is my love letter to Planet Earth; a celebration of her hidden species, from the bold and the beautiful to the interesting but ugly. And while not a complete list, I hope that these few give a glimpse of the

outstanding diversity of nature' - Ben Rothery
Sensational Butterflies is also available.

101 Great Illustrators from the Golden Age, 1890-1925 Ladybird

The most comprehensive book of its kind, this gorgeous edition presents more than 500 full-color works by famous and lesser-known artists from the heyday of book and magazine illustration. Featured artists include

Walter Crane, Edmund Dulac, Maxfield Parrish, Howard Pyle, Arthur Rackham, N. C. Wyeth, and many others — 101 in all. Several examples of each artist's finest illustrations are accompanied by biographical comments and career notes. Additional artists include Victorian-era illustrator Aubrey Beardsley, noted for his compelling combinations of the erotic and grotesque; American painter Harvey Dunn, one of Howard Pyle's most accomplished students;

James Montgomery Flagg, famed for his U.S. Army recruitment posters; Charles Dana Gibson, creator of the iconic Gibson Girl; Charles R. Knight, a pioneer in the depiction of dinosaurs and other prehistoric creatures; Edward Penfield, the king of poster art; Frederic Remington, whose works document the Old West; J. Allen St. John, the principal illustrator of Edgar Rice Burroughs's adventure tales; and dozens of others. *How Loud is a Lion?* Simon

Water World is the stunning new book from Ben Rothery, author of Hidden Planet and Sensational Butterflies. Life on Earth is shaped by water, and only survives here because of it, but our

ocean ecosystems are at the epicentre of global warming. Framed by the need to protect our oceans, Water World is natural-history illustrator Ben Rothery's rich exploration of the creatures from the coastal and offshore waters of the world - from penguins, seagulls, polar bears and seahorses, to plankton, sharks and deep-sea beings. Discover the longest migration and the loudest animal on Earth, and learn how our own actions affect the ocean, its inhabitants and our

whole planet. Fun to read together or independently, this large-format, beautifully illustrated book is perfect for nature-lovers of all ages. Hidden Planet Penguin UK Both retrograde planets and intercepted signs are included in this well-written, in-depth volume. Joanne defines how they differ and what they indicate in the chart. She also introduces new ideas about retrograde planets and intercepted signs, offering fresh insights for

interpretation in these sometimes overlooked areas. Retrograde planets and intercepted signs make the chart unique, and each describes the powers and potentials waiting to be unleashed in your life. In some way you will stand apart from the crowd with an exceptional life that is outside the norm and as unique to you as your birth chart. Not everyone is born with such an outstanding opportunity to realize their individual potential. Included is extensive delineation of intercepted

signs in the houses, the six sign polarities, the elements, duplicated signs, phases and planetary pairs. Chapters are also devoted to relocation charts, transits in intercepted signs, the importance of environment vs. destiny and various house systems. In addition to a thorough explanation of how planets retrograde, Joanne gives detailed interpretation of the meaning of retrograde planets in the natal chart and their position in the context of the eight

stages of cyclic
 unfoldment, six of which
 fall into the retrograde
 zone. This placement
 specifically defines how a
 retrograde planet
 operates in your life. Also
 thoroughly explained is
 the meaning of retrograde
 planets in their transit
 cycle, and the significance
 of a retrograde
 progressed planet.

Water, air, sunlight, plants
 . . . we need these
 elements to live in this

world. But does the world need us? And what would happen to the world if humans were gone? This is the premise of a thought-provoking picture book from John Coy. His insightful text explores how nature would reclaim the planet, accompanied by Natalie Capannelli's gorgeous watercolor

illustrations. Back matter gives further context and discusses what kids (and all of us) can do to truly help our planet.
