A classic biography of one of the greatest spiritual teachers of our times In 1909, when he was just fourteen, Krishnamurti was proclaimed the world teacher in whom Maitreya, the Bodhisattva of compassion, would manifest. The proclamation was made by Annie Besant, then president of the Theosophical Society, a movement that combined Western occult philosophy with Buddhist and Hindu teachings. Besant trained Krishnamurti in his role as the chosen one but twenty years later he chose to disband the order he was head of and set out alone on his endless journey— As a contemporary of Krishnamurti and one of his closest associates. Pupul Jayakar offers an insider's view of the fascinating life and thought of an extraordinary individual.

'The treasure-trove of the real self is within us, but it can be lifted only when the mind is still.' Paul Brunton was one of the 20th century's greatest explorers of, and writers on, the spiritual traditions of the East. He travelled widely throughout India (in particular) and met gurus and teachers who enriched his life immeasurably. By passing on to us the wisdom he learned directly from these holy men, he is widely credited as having introduced yoga and meditation to the West. In *The Secret Path*, Paul Brunton explains in simple language how to meditate, and how this will transform your everyday existence. He also describes the remarkable experiences and understandings he himself gained from meditation and how, by making this ancient practice a part of your life, you will be able to experience a valuable kind of freedom and a deep inner peace. The classic work - which has been reprinted many times - is a very special pointer towards your inner world, and one written by a most unusual and adventurous man of insight.

Michael A. Singer, author of *The Untethered Soul*, tells the extraordinary story of what happened when, after a deep spiritual awakening, he decided to let go of his personal preferences and simply let life call the shots. As Singer takes you on this great experiment and journey into life's perfection, the events that transpire will both challenge your deepest assumptions about life and inspire you to look at your own life in a radically different way. Spirituality is meant to bring about harmony and peace. But the diversity of our philosophies, beliefs, concepts, and views about the soul often leads to confusion. To reconcile the noise that clouds spirituality, Michael Singer combines accounts of his

own life journey to enlightenment - from his years as a hippie-loner to his success as a computer program engineer to his work in spiritual and humanitarian efforts - with lessons on how to put aside conflicting beliefs, let go of worries, and transform misdirected desires. Singer provides a road map to a new way of living not in the moment, but to exist in a state of perpetual happiness.

Perhaps the most important section in Dan Millman's best-selling book, *The Life You Were Born to Live* was titled *Laws that Change Lives*. These laws, as described, were key to overcoming the specific hurdles on a given individual's life path. Different laws played critical roles for different paths. But the author considers these laws so central to all our lives that they needed a book of their own, and a more universal treatment, since anyone could benefit from applying any of these laws. As he writes: "Within the mystery of our existence, the universe operates according to spiritual laws as real as the law of gravity and as constant as the turning of the heavens. Aligning our lives to these laws can transform our relationships, careers, finances, and health. Simply put, they make life work better." *The Laws of Spirit*, Dan Millman's "little book of big wisdom," offers a teaching tale in which he encounters an ageless woman sage while on a mountain hike. There, in the wilderness, she takes Dan and his readers through experiences and tests in the natural world that demonstrate the power of spiritual laws of balance, choice, process, presence, compassion, faith, action, patience, , surrender, and unity. As the sage relates, "These laws belong to all of us. They rest within our hearts and at the heart of every religion and spiritual tradition." As you make your own journey through the pages of this book, you will find universal solutions to the varied challenges of our lives, leading to perspective and wisdom about the meaning and purpose of our lives here, and our connection with all of creation. It begins with a single step: Open the first page of a book you will refer to again and again for inspiration and guidance on life's journey, up the mountain path.

Over two decades ago, beloved and respected rabbi Zalman Schachter-Shalomi felt an uneasiness. He was growing older, and fears about death and infirmity were haunting him. So he decided to embark on mission to get to the bottom of his fears. Through a series of events that included a vision quest in a secluded cabin and studying with Sufi masters, Buddhist teachers and Native-American shamans, Reb Zalman found a way to turn aging into the most meaningful and joyous time in his life. In this inspiring and informative guide, Reb Zalman shares his wisdom and experience with readers. He shows readers how to create an aging process for themselves that is full of adventure, passion, mystery, and fulfillment, rather than anxiety. Using scientific research--both neurological and psychological-- Reb Zalman offers techniques that will expand horizons beyond the narrow view of "the present" into a grand and enduring eternity. By harnessing the power of the spirit, as well as explaining exactly how to become a sage in their own community, he gives readers a helpful and moving way to use their own experiences to nurture, heal, and perhaps even save a younger generation from the prison of how we typically regard aging. In this updated version of his popular book, Reb Zalman has added a brand new introductory chapter that provides insight into the shifts that have taken place in our culture since the first edition of this book came out in the 1990s. Reb Zalman speaks candidly about the role the 78 million (now aging) Baby Boomers are currently playing in how we think about aging. He provides new inspiring ideas about the importance of an elder's role in shaping society, and explains how elders can embrace the power they have to

provide value and wisdom to those around them. Additionally he has added a concluding chapter in which he shares his own experience with aging and the time he calls "The December Years."

From Kannada's first Jnanpith award winner, a landmark of modern fiction that documents a vanishing world. When Hoovayya and Ramayya return from their studies in the city to their ancestral home, much has changed, throwing the even tenor of village life out of joint. The entry of Subbamma, the young wife of much-married Chandrayya Gowda into the House of Kanooru, sets in motion an irrevocable chain of events which signify the coming of age of a resolutely traditional society. Acutely conscious of the burden of their education amidst the torpor of manorial life, the brothers are forced to witness the descent into cruelty of Chandrayya Gowda, who breaks old familial ties, and demands an impossible fealty. The petty meanness of the Gowda's old age and the idealistic vitality of youth confront each other when Hoovayya and Ramayya both fall in love with Seethe, their childhood playmate, with disastrous consequences for the manor house of Kanooru. The epic conflicts of a decaying feudal order are seen through a multiplicity of characters, and voices that refuse to be silenced. The first stirrings of change in the lives of the Belas, the highland plantation workers and their labouring women, the proud Shudra landowners, the secretive and predatory Agrahara of the Brahmins, are dramatized by a humane eye sensitive to the slightest nuance. The House of Kanooru is ultimately a moving tribute by one of Kannada's greatest writers to the spirit of modernity. Translated from the Kannada by B.C. Ramachandra Sharma and Padma Ramachandra Sharma.

Examining materials from early modern and contemporary North India and Pakistan, *Tellings and Texts* brings together seventeen first-rate papers on the relations between written and oral texts, their performance, and the musical traditions these performances have entailed. The contributions from some of the best scholars in the field cover a wide range of literary genres and social and

cultural contexts across the region. The texts and practices are contextualized in relation to the broader social and political background in which they emerged, showing how religious affiliations, caste dynamics and political concerns played a role in shaping social identities as well as aesthetic sensibilities. By doing so this book sheds light into theoretical issues of more general significance, such as textual versus oral norms; the features of oral performance and improvisation; the role of the text in performance; the aesthetics and social dimension of performance; the significance of space in performance history and important considerations on repertoires of story-telling. The book also contains links to audio files of some of the works discussed in the text. *Tellings and Texts* is essential reading for anyone with an interest in South Asian culture and, more generally, in the theory and practice of oral literature, performance and story-telling.

Across public discourse, in the media, politics, many branches of academic inquiry, and ordinary daily interactions, we spend a lot of time talking about race: race relations, racial violence, discrimination based on race, racial integration, racial progress. It is fair to say that questions about race have vexed our social life. But for all we speak about race, do we know what race is? Is it a social construct or a biological object? Is it a bankrupt holdover from a time before sophisticated scientific understanding and genetics, or can it still hold up in biological, genetic, and other types of research? Most fundamentally, is race real? In this book, four prominent philosophers and race theorists debate how best to answer these difficult questions, applying philosophical tools and the principles of social justice to cutting-edge findings from the biological and social sciences. Each presents a distinct view of race: Sally Haslanger argues that race is a socio-political reality. Chike Jeffers maintains that race is not only political but also, importantly, cultural. Quayshawn Spencer pursues the idea that race is biologically real. And Joshua Glasgow argues that either race is not real, or if it is, it must be real in a way that is neither social nor biological. Each offers an argument for their own view and then replies to the others. Woven together, the result is a lively debate that opens up numerous ways of understanding race. Above all, it is a call for sophisticated and principled discussion of something that significantly permeates our lives.
