Two Columes in a Slipcase! HPB's first major work, originally published in 1877. The most astounding compendium of occult facts and theories in Theosophical literature. It proclaims the

existence of mystery schools under the guardianship of men who are servants for truth. It outlines a movement by the Guardians of the Ancient Wisdom to preserve and protect the ageless truths, until in later times they would again become known for the spiritual benefit of all.

"Does God Really Exist"? This is a question that has been asked since the beginning of time and probably will not be answered until the individual comes face to face with the Truth. However, if a critical examination on the subject matter is what you're looking for then there probably is no

better source than "Isis Unveiled." This book is an exhaustive effort to discuss man, life and Spirit from as many angles as possible; from all ancient cultures, myths, religions and scientific perspectives. This book goes in depth to explore man's place in the world, how we all relate to one another and what connects us all. For the mystic, that answer is undeniably that we are all part of One Source, One Essence and One Spirit. Supported by extensive evidence from religious, esoteric and mystical traditions and classical scholarship, these volumes aid the student in detecting the vital principles which underlie the philosophical systems of old. Volume I consists of two books focusing on prevailing scientific theories balanced with Ancient Universal Wisdom Religion. Volume II's two books examine the creeds of religions past and present, alongside the myths and symbols of various cultures. Throughout, the author strikes at the root of dogma and affirms the 'paramount importance of any religion' for the individual to "Know Thyself " After reading this classic book with a

new translation and modernization, you will see how although time, cultures and languages may change - Truth is Eternal Take this journey through history touching upon the wealth of spiritual knowledge from the Hindus, Chaldeans and Egyptians to Kabbalism, Christianity and Science. Enjoy the travels through the legendary Lemuria and Atlantis to the Mayans with quotes from Plato, the Chaldean Oracles, the Egyptian Book of the Dead, the Bible, Pythagoras, Apollonius of Tyana, the Popol Vuh, Paracelsus, Giordano Bruno, Marco Polo, Jesus the Nazarene, Siddhartha Gautama, Zoroaster, Hermes Trismegistus and Max Muller, as well as Buddhist, Brahmanical, Chinese, Persian, Babylonian, Syrian, Gnostics and so much more. Ultimately, it is the yogi who tells us that to the disbeliever there will never be substantial enough evidence to convince the doubter. However, for those who aren't merely skeptics but have a sincere thirst for Truth, then only by going within will you ever be quenched Isis Unveiled is the rapid river leading you to the water within... "it is

up to you to drink " For those that don't know, Blavatsky is very advanced reading for spiritual students. It is NOT the type of book you read from front cover to back. WERE it possible, we would keep this work out of the hands of many Christians whom its perusal would not benefit, and for whom it was not written. We allude to those whose faith in their respective churches is pure and sincere, and those whose sinless lives reflect the glorious example of that Prophet of Nazareth, by whose mouth the spirit of truth spake loudly to humanity. Such there have been at all times. History preserves the names of many as heroes, philosophers, philanthropists, martyrs, and holy men and women; but how many more have lived and died, unknown but to their intimate acquaintance, unblest but by their humble beneficiaries! These have ennobled Christianity, but would have shed the same lustre upon any other faith they might have professed - for they were higher than their creed. The benevolence of Peter Cooper and Elizabeth Thompson, of America, who are not orthodox Christians, is no

less Christ-like than that of the Baroness Angela Burdett-Coutts, of England, who is one. And yet, in comparison with the millions who have been accounted Christians, such have always formed a small minority. They are to be found at this day, in pulpit and pew, in palace and cottage; but the increasing materialism, worldliness and hypocrisy are fast diminishing their proportionate number. Their charity, and simple, child-like faith in the infallibility of their Bible, their dogmas, and their clergy, bring into full activity all the virtues that are implanted in our common nature. We have personally known such God-fearing priests and clergymen, and we have always avoided debate with them, lest we might be guilty of the cruelty of hurting their feelings; nor would we rob a single layman of his blind confidence, if it alone made possible for him holy living and serene dying. An analysis of religious beliefs in general, this volume is in particular directed against theological Christianity, the chief opponent of free thought. It contains not one word against the pure teachings of Jesus, but

unsparingly denounces their debasement into pernicious ecclesiastical systems that are ruinous to man's faith in his immortality and his God, and subversive of all moral restraint. We cast our gauntlet at the dogmatic theologians who would enslave both history and science; and especially at the Vatican, whose despotic pretensions have become hateful to the greater portion of enlightened Christendom. The clergy apart, none but the logician, the investigator, the dauntless explorer should meddle with books like this. Such delvers after truth have the courage of their opinions. *Isis Unveiled: Collected Writings, 1877: Science* Cambridge University Press

At the age of 17, rejecting nineteenth-century materialism, Helena Blavatsky (1831-1891) left her native Russia and traveled through India, Tibet, Egypt, Europe, and the Americas seeking out the sources of ancient wisdom as a key to spiritual truth. In 1875 in New York, she co-founded the Theosophical Society for the study of occult traditions. Many popular ideas of rediscovered ancient wisdom, including

reincarnation and karma, trace their origin to Helena Blavatsky and Theosophy. This anthology includes material on her life and travels, as well as excerpts from her major works.

 Isis Unveiled is a two-volume classic of esoteric philosophy which discusses occult science and the hidden and unknown forces of nature

as well as the similarity of Christian scripture to Eastern religions such as Buddhism, Hinduism, the Vedas, and Zoroastrianism. The book follows the Renaissance notion of *prisca theologia*, in that all these religions purportedly descend from a common source; the ancient "Wisdom-Religion".

Isis Unveiled: a Master Key to the Mysteries of Ancient and Modern Science and Theology (Volume Two) Franklin Classics

THE work now submitted to public judgment is the fruit of a somewhat intimate acquaintance with Eastern adepts and study of their science. It is offered to such as are willing to accept truth wherever it may be found, and to defend it, even looking popular prejudice straight in the face. It is an attempt to aid the student to detect the vital principles which underlie the philosophical systems of old. The book is written in all sincerity. It is meant to do even justice, and to speak the truth alike without malice or prejudice. But it shows neither mercy for enthroned error, nor reverence for usurped authority. It demands for a spoliated past, that credit for its achievements which has been too long withheld. It calls for a restitution of borrowed robes, and the vindication of calumniated but glorious reputations.

Toward no form of worship, no religious faith, no scientific hypothesis has its criticism been directed in any other spirit. Men and parties, sects and schools are but the mere ephemera of the world's day. TRUTH, high-seated upon its rock of adamant, is alone eternal and supreme. We believe in no Magic which transcends the scope and capacity of the human mind, nor in "miracle," whether divine or diabolical, if such imply a transgression of the laws of nature instituted from all eternity. Nevertheless, we accept the saying of the gifted author of Festus, that the human heart has not yet fully uttered itself, and that we have never attained or even understood the extent of its powers. Is it too much to believe that man should be developing new sensibilities and a closer relation with nature? The logic of evolution must teach as much, if carried to its legitimate conclusions. If,

somewhere, in the line of ascent from vegetable or ascidian to the noblest man a soul was evolved, gifted with intellectual qualities, it cannot be unreasonable to infer and believe that a faculty of perception is also growing in man, enabling him to descry facts and truths even beyond our ordinary ken. Yet we do not hesitate to accept the assertion of Biffe, that "the essential is forever the same. Whether we cut away the marble inward that hides the statue in the block, or pile stone upon stone outward till the temple is completed, our NEW result is only an old idea. The latest of all the eternities will find its destined other half-soul in the earliest.
