Now on television:

Condor, an AT&T

Audience Network original series inspired by James

Grady's first Condor

novel. Look in the mirror:

You're nobody anybody

knows. You know pursuing

the truth will get you

killed. But you refuse to

just fade away. So you're

designated an enemy of

the largest secret national

security apparatus in

America's history. Good

guys or bad guys, it

doesn't matter: All

assassins' guns are aimed

at you. And you run for

your life branded with the

code name you made

iconic: Condor. Everyone

you care about is pulled

into the gunsights. The

CIA star young enough to

be your daughter-she

might shoot you or save you. The savvy political aide who lets love trump the law. The lonely woman your romantic dreams make a fugitive. The Middle Eastern child warrior you mentored into a master spy. Last Days of the Condor is the bullet-paced, ticking clock saga of America on the edge of our most startling spy world revolution since 9/11. Set in the savage streets and Kafkaesque corridors of Washington, DC, shot through with sex and suspense, with secret agent tradecraft and full-speed action, with hunters and the hunted, Last Days of the Condor is a breakneck saga of America's secrets from muckraking investigative reporter and author James Grady. "Eco-lit needs more attention, and devotees will be pleased to discover a new addition from the Icelandic author Andri Snær Magnason, who writes with a Seussian mix of wonder, wit and gravitas. ... immensely satisfying."—New York Times Asked by a leading climate scientist why he wasn't writing about the greatest crisis mankind has faced, Andri Snær Magnason, one of Iceland's most beloved writers and public intellectuals, protested: he wasn't a specialist, he said. It wasn't his field. But the scientist persisted: "If you cannot understand our scientific findings and present them in an emotional, psychological, poetic or mythological context," he told him, "then no one will really understand the

issue, and the world will end." Based on interviews and advice from leading glacial, ocean, climate, and geographical scientists, and interwoven with personal, historical, and mythological stories, Magnason's resulting response is a rich and compelling work of narrative nonfiction that illustrates the reality of climate change and offers hope in the face of an uncertain future. Moving from reflections on how one writes an obituary for a glacier to exhortation for a heightened understanding of human time and our obligations to one another, throughout history and across the globe, *On Time and Water* is both deeply personal and globally minded: a travel story, a world history, a desperate plea to live in harmony with future generations—and is unlike anything that has yet been published on the current climate emergency.

Rocked Up is a STANDALONE rockstar romance and the sexy, fun brainchild of the husband and wife writing duo, Scott Mackenzie and New York Times bestselling author Karina Halle. I've been watching him since I was a young girl. He didn't notice me back then and it didn't matter. Brad Snyder, guitarist and singer for one of the world's greatest bands, was my entire life. My father, the CEO of Ramsey Records, takes credit for all of Brad's success, trying to control him in the same way he's controlled me. But I finally get an opportunity to prove myself. To be wild. To be free. Today I'm auditioning to be the replacement bass player for Brad's band. If I get the job, I'll go on tour and work with Brad every day, in very close proximity. There's only one rule: he's

not allowed to touch the boss's daughter. Remember when I said that Brad never used to notice little ol' me? Well, Brad's noticing me now. In a way that's going to get us both in trouble. My name is Lael Ramsey and we all know how this will turn out.

Crocodiles Cambridge University Press
 This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and

complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of thirty years of Italian film and cultural history.

A Novel New York Review of Books

A bright star of the Italian Renaissance, Girolamo Cardano was an internationally-sought-after astrologer, physician, and natural philosopher, a creator of modern algebra, and the inventor of the universal joint. Condemned by the Inquisition to house arrest in his old age, Cardano wrote *The Book of My Life*, an unvarnished and often outrageous account of his character and conduct. Whether discussing his sex life or his diet, the plots of academic rivals or meetings with supernatural beings, or his deep sorrow when his beloved son was executed for murder, Cardano displays the same unbounded curiosity that made him a scientific pioneer. At once picaresque adventure and campus comedy, curriculum vitae, and last will, *The Book of My Life* is an extraordinary

Renaissance self-portrait—a book to set beside Montaigne's *Essays* and Benvenuto Cellini's *Autobiography*.

This publication describes the scientific principles and techniques used for resource management of elasmobranch fisheries with emphasis on the particular context of elasmobranchs. The management

characteristics of these fishes are described - their common bycatch character and their biological constraints on productivity (low growth rate, late maturity and low fecundity). Stock assessment of elasmobranchs is described in the context of management objectives in a wide management context. Special attention is given to accurate species identification given the prevalent aggregating of landings data across species, genera and often families in this group. Techniques and experiences for tagging elasmobranchs for population estimation are described as well as methods of genetic techniques for stock identification.

Nominated as one of America's best-loved novels by PBS's The Great American Read Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Seven Key Words for the Cinema to Come

Penguin

Un bel mattino passeggiavo con mio padre, secondo il nostro costume; eravamo inseparabili; s'egli andava in un luogo senza di me, di lì a un poco mi vedeano spuntare; pareva che sapessi di doverlo perdere così presto. Ero in su que' bei diciott'anni, e su que' bei colli veronesi. La strada che talora serviva di letto al torrente, serpeggiava profonda, sassosa, sdrucchiola, tutta segnata sulla creta, dalle unghie fesse delle pecore, e dalle scarpe ferrate dei montanari. Due file di càrpini e di querce scapitozzate con macchie di rovi legate insieme da volubili madriselve sorgevano ombrose sull'alto delle due ripe, più a guisa di parete che di siepe, lasciando cadere dai cigli corrosi le pendole barbe delle radici nude.
