The Weird and the Eerie Ronin Publishing (CA)

A short zine collecting an introduction to the concept by Matt Colquhoun that appeared in 'krisis journal for contemporary philosophy Issue 2, 2018: Marx from the Margins' and the unfinished introduction to the unfinished book on Acid Communism that Mark Fisher was working on before his death in 2017. "In this way 'Acid' is desire, as corrosive and denaturalising multiplicity, flowing through the multiplicities of communism itself to create alinguistic feedback loops; an ideological accelerator through which the new and previously unknown might be found in the politics we mistakenly think we already know, reinstantiating a politics to come." —Matt Colquhoun

The author of *Freaky Florida* shares a unique guide to the state's strangest attractions—from Florida Bigfoot to lost cemeteries, UFO sightings and more. Most people know Florida as the land of endless sunny beaches, Disney World, and NASA shuttle launches. But the state is also home to many hidden mysteries, eerie legends, and tales of bizarre creatures. In *Eerie Florida*, author Mark Muncy and photographer Kari Schultz provide a unique guide to these truly unique sites across the Sunshine State. The Everglades is home to the elusive Skunk Ape—also known as Florida Bigfoot—a strange bipedal creature recognized by its odor. An uncanny doll reputed to have a life of its own greets visitors in a Florida Keys museum. An ancient monster is reported to roam the rivers in the northeast corners of the state, and in South Florida, a man built Coral Castle—also known as America's Stonehenge—via mysterious means. Join Mark Muncy and Kari Schultz as they uncover the history behind the state's creepiest stories and unusual locations.

The *New Cinematic Weird* analyzes the role that creepy, unsettling, ominous, uneasy, and eerie atmospheres play in recent films of this genre. The author shows how the new cinematic weird elicits joy by creating weird atmospheres as affective intensities that are to be experienced rather than understood.

A revealing look at the life and work of David Lynch, one of the most enigmatic and influential filmmakers of our time. Every frame of David Lynch's work, from the '70s midnight movie *Eraserhead* to the groundbreaking TV series *Twin Peaks*, to the digital-video DIY feat *Inland Empire*, bears his unmistakable imprint. But the paradox of the Lynchian is that it's easy to recognize and hard to define. Lynch is a master of the inscrutable gesture, the opaque symbol. His career evades the usual categories: pop culture icon and subject of academic study, cult figure and industry outsider. He's a Renaissance man—musician, painter, photographer, carpenter, entrepreneur—and a vocal proponent of transcendental meditation. Dennis Lim, the newly minted director of Cinematheque programming at Lincoln Center, is a skilled cinephile wary of over-interpretation. David Lynch

preserves the strangeness of the Lynch's universe and offers a personal meditation on the most distinctive filmmaker in modern American culture. It leaves what Lynch likes to call "room to dream," honoring the allure of the unknown and the unknowable.

Egress is the first book to consider the legacy and work of the writer, cultural critic and cult academic Mark Fisher. Narrated in orbit of his death as experienced by a community of friends and students in 2017, it analyses Fisher's philosophical trajectory, from his days as a PhD student at the University of Warwick to the development of his unfinished book on Acid Communism. Taking the word "egress" as its starting point—a word used by Fisher in his book *The Weird and the Eerie* to describe an escape from present circumstances as experiences by the characters in countless examples of weird fiction—*Egress* considers the politics of death and community in a way that is indebted to Fisher's own forms of cultural criticism, ruminating on personal experience in the hope of making it productively impersonal.

A quirky, creepy fantasy set in Eerie-on-Sea finds a colorful cast of characters in hot pursuit of a sea monster thought to convey a surprising gift. It's winter in the town of Eerie-on-Sea, where the mist is thick and the salt spray is rattling the windows of the Grand Nautilus Hotel. Inside, young Herbert Lemon, Lost and Founder for the hotel, has an unexpected visitor. It seems that Violet Parma, a fearless girl around his age, lost her parents at the hotel when she was a baby, and she's sure that the nervous Herbert is the only person who can help her find them. The trouble is, Violet is being pursued at that moment by a strange hook-handed man. And the town legend of the Malamander—a part-fish, part-human monster whose egg is said to make dreams come true—is rearing its scaly head. As various townspeople, some good-hearted, some nefarious, reveal themselves to be monster hunters on the sly, can Herbert and Violet elude them and discover what happened to Violet's kin? This lighthearted, fantastical mystery, featuring black-and-white spot illustrations, kicks off a trilogy of fantasies set in the seaside town.

What exactly are the *Weird and the Eerie*? In this new essay, Mark Fisher argues that some of the most haunting and anomalous fiction of the 20th century belongs to these two modes. The *Weird* and the *Eerie* are closely related but distinct modes, each possessing its own distinct properties. Both have often been associated with Horror, yet this emphasis overlooks the aching fascination that such texts can exercise. The *Weird* and the *Eerie* both fundamentally concern the outside and the unknown, which are not intrinsically horrifying, even if they are always unsettling. Perhaps a proper understanding of the human condition requires examination of liminal concepts such as the weird and the eerie. These two modes will be analysed with reference to the work of authors such as H. P. Lovecraft, H. G. Wells, M.R. James, Christopher Priest, Joan Lindsay, Nigel Kneale, Daphne Du Maurier, Alan Garner and Margaret Atwood, and films by Stanley Kubrick, Jonathan Glazer and Christopher Nolan.

Eerie Publications' horror magazines brought blood and bad taste to America's newsstands from 1965 through 1975. Ultra-gory covers and bottom-of-the-barrel production values lent an air of danger to every issue, daring you to look at (and purchase) them. The Weird of World of Eerie Publications introduces the reader to Myron Fass, the gun-toting megalomaniac publisher who, with tyranny and glee, made a career of fishing pocketbook change from young readers with the most insidious sort of exploitation. You'll also meet Carl Burgos, who, as editor of Eerie Publications, ground his axe against the entire comics industry. Slumming comic art greats and unknown hacks were both employed by Eerie to plagiarize the more inspired work of pre-Code comic art of the 1950s. Somehow these lowbrow abominations influenced a generation of artists who proudly blame career choices (and mental problems) on Eerie Publications. One of them, Stephen R. Bisette (Swamp Thing, Taboo, Tyrant), provides the introduction for this volume. Here's the sordid background behind this mysterious comics publisher, featuring astonishingly red reproductions of many covers and the most spectacularly creepy art.

Ghosts of My Life Tor Books

Filled with stories of strange phenomena, odd places, and weird beings in the Golden State, Eerie

California tells of haunted houses, unexplained events, and creepy characters from the Dark Watchers and ghostly women-in-white to bizarre beasts like Bigfoot and the Billewhack monster. Discover painted caves, petroglyphs drawings, rocks that move on their own, and odd drawings of human figures in the desert sand only visible from the air. Eerie California poses many questions to muse upon. Who built the Lizard People Tunnels below Los Angeles? Is it really Al Capone's banjo-playing ghost haunting Alcatraz's shower room? Whose ghost haunts Nob Hill? Eerie California is a fanciful introduction to little known, often inexplicable, historical events, and curious phenomena in the Golden State. A wonderful, fun book for parents to read with their kids or to curled up with in a comfy chair. A great gift and welcome addition to any library.

From the deepest depths of punk rock's 1970s primordial wastelands, through the stygian goth swamps of the 1980s, and on into the bloodstained arenas of 1990s heavy metal, Eerie Von witnessed it all. Beginning as the unofficial photographer for punk legends The Misfits and later taking charge of the bass guitar as a founding member of underground pioneers Samhain and metal gods Danzig, the evil eye of Eerie Von's camera captured the dark heart of rock's most vital and bleeding-edge period, a time when rock and roll was not only dangerous, but downright menacing. Eerie Von's lens has documented everything from The Misfits' humble beginnings in Lodi, New Jersey, to the heights of Danzig's stadium-rock glory alongside metal superstars Metallica. As well as an essential visual document of music history, Eerie's road stories of triumph and damnation bring to life an era the likes of which will never again be seen.

Misery Obscura: The Photography of Eerie Von (1981-2009) Penguin

This book reveals a thread of unsettling takes on the British landscape stretching from paintings, prints and photographs made by Paul Nash in the aftermath of the First World War to contemporary artists exploring themes of memory, belonging, hauntology, dislocation and human impact on nature. In his introductory essay Robert Macfarlane explains that the eerie, involves that form of fear which is felt first as unease then as dread, and it tends to be incited by glimpses and tremors rather than outright attack. Horror specialises in confrontation and aggression; the eerie in intimation and intimidation.? Macfarlane suggests that eerie art has often flourished at times of crisis, as seen in the work of Neo-Romantic artists around the time of the Second World War. The works featured in the exhibition are grouped around four overlapping themes: Ancient Landscapes? features that are inexplicable and mysterious, connecting us to the unknown distant past; Unquiet Nature ? landscapes and natural forms used to unsettling effect, such as trees, lonely expanses of heath and the borderlands where different worlds meet; Absence/Presence, how the inclusion (and absence) of figures and objects can generate feelings of the eerie through mystery, suggestion and isolation; Atmospheric Effect ? the influence of weather, season, light and the time of day on responses to landscape. Exhibition: St Barbe Museum and Art Gallery, New St, Lymington, UK (11.09.2021-08.01.2022).
