Well written! Well researched! Hold your emotions!!! History and mystery combined! Arnie Cain, called to investigate the body of a Native American found in a shipping crate in an old Sedona trading post. The trail leads Arnie, and his wife Susan, from Arizona to southwestern Colorado and the Ute Mountain Ute Indian Reservation. Forces are organized to stop the telling of history that may come to light as a result of the investigation. Cain s probing exposes the horrors of the antiquities trade---including the trade in mummified bodies. Norman Beardancer, dynamic spiritual leader of the Ute people and, his wife Regina, work with the tribal elders to recreate the history of the Weminuche Utes. They try to find out who the man found in the shipping crate was. They are opposed by forces that do not want the Ute history told. Doctor Ferner Getts, grandson of an early 20th century grave robber and antiquities trader. A pompous academic who has "edited" historical records to protect major museums and antiquities collectors. George W. Avery, now Advisor to the President for Indian Affairs, his stereotypes and bigotry reflect U.S. policy toward the Ute Tribe. Anasazi Bill, one of Sedona s underground people, has been trying for years to learn who killed his father. Now, Cain s investigation leads him back to the reservation to help recreate the times when his father traded with the Utes. The Willis Clan, pot hunters, antiquities traders and grave robbers! They formed a trade network with Sedona, Arizona as the outlet.

From the bestselling author of HAPPY and the HAPPY PLACE PODCAST THE FOLLOW UP TO THE SUNDAY TIMES BESTSELLER, HAPPY: FINDING JOY IN EVERY DAY AND LETTING GO OF PERFECT 'Calm for me is less about thought and much more about feeling. It is a stillness that allows my lungs to expand like hot air balloons. It is an acceptance of the noise around me. It is a magic alchemy that might last a second or a whole day, where I feel relaxed yet aware; still yet dynamic; open yet protected . . . '*** In today's always-on world, for many of us it seems impossible to relax, take time out or mute the encircling 'noise'. It is easy to feel trapped in this frenzied state of mind: we are surrounded by negative stories in the press, weighed down by pressures from work, family life or school and subject to constant scrutiny under the all-seeing eye of social media. As a result, mental health illnesses are on the rise in every age group, and more of us than ever before yearn for silence, peace and calm. CALM is Fearne's mission to find the simple things that can inch us away from stress and over to the good stuff. Including expert advice, conversations with wise friends from all walks of life, easy ideas to try, activities to complete - and the little things that have made a difference to her own, sometimes-bumpy life - this book is a friendly reminder that Calm is a place that exists in us all, we just have to find our way back to it.

See the world through the eyes of some of the most celebrated and admired people of our time in this engaging new travel book. Award-winning author and National Geographic Traveler writer Jerry Camarillo Dunn takes you on a remarkable journey with such amazing and diverse figures as Sandra Day O'Connor and the Dalai Lama, actors Robin Williams and Morgan Freeman, astronauts Buzz Aldrin and Sally Ride, explorer Jean-Michel Cousteau, real estate mogul Donald Trump, entertainer Jerry Seinfeld, food guru Alice Waters, and author Tony Hillerman. His simple question to these people: What is your favorite travel discovery? The answers are both surprising and engaging—ranging from Bali Indonesia to a well-used bench at San Francisco's Crissy Field, from the Hopi Mesas in Arizona to the Old City of Jerusalem. In page after page, celebrated contributors describe the special appeal of each place—be it the amazing beauty, or the character of the people, or simply the hushed joy of solitude. To enhance the stories further, Dunn scoured the files of National Geographic to create sidebars full of intriguing information about each place—and even steers you to websites that tell how you can visit them yourself. But the real allure is the entertaining narrative, inviting readers to experience the excitement of traveling with these celebrated personalities to their favorite places on Earth. Harry Potter and Philosophy Sellene Chardou

The New York Times bestselling author of *The Moral Case for Fossil Fuels* draws on the latest data and new insights to challenge everything you thought you knew about the future of energy For over a decade, philosopher and energy expert Alex Epstein has predicted that any negative impacts of fossil fuel use on our climate will be outweighed by the unique benefits of fossil fuels to human flourishing--including their unrivaled ability to provide low-cost, reliable energy to billions of people around the world, especially the world's poorest people. And contrary to what we hear from media "experts" about today's "renewable revolution" and "climate emergency," reality has proven Epstein right: Fact: Fossil fuels are still the dominant source of energy around the world, and growing fast--while much-hyped renewables are causing skyrocketing electricity prices and increased blackouts. Fact: Fossil-fueled development has brought global poverty to an all-time low. Fact: While fossil fuels have contributed to the 1 degree of warming in the last 170 years, climate-related deaths are at all-time lows thanks to fossil-fueled development. What does the future hold? In *Fossil Future*, Epstein, applying his distinctive "human flourishing framework" to the latest evidence, comes to the shocking conclusion that the benefits of fossil fuels will continue to far outweigh their side effects--including climate impacts--for generations to come. The path to global human flourishing, Epstein argues, is a combination of using more fossil fuels, getting better at

“climate mastery,” and establishing “energy freedom” policies that allow nuclear and other truly promising alternatives to reach their full long-term potential. Today’s pervasive claims of imminent climate catastrophe and imminent renewable energy dominance, Epstein shows, are based on what he calls the “anti-impact framework”—a set of faulty methods, false assumptions, and anti-human values that have caused the media’s designated experts to make wildly wrong predictions about fossil fuels, climate, and renewables for the last fifty years. Deeply researched and wide-ranging, this book will cause you to rethink everything you thought you knew about the future of our energy use, our environment, and our climate.
