A good general cruising guide covering the routes from Europe to Australia and points in between. The 'Indian Ocean Cruising Guide' covers all the usual points of interest for cruising yachtsmen, from history to climate, weather patterns, formalities, route planning and so on. The general sections are followed by a country-by-country round-up in which key ports are described in detail with the aid of harbour plans and photographs. This second edition (2007) has been thoroughly revised and contains a lot of

additional information on Malaysia and Thailand, the Seychelles and the Chagos archipelago. The introduction has been expanded and throughout there are new plans and photographs. This guide is an ideal companion to Rod Heikell and Andy O'Grady's 'Ocean Passages and Landfalls' which discusses routes across the Indian Ocean.

**Sailing Directions (enroute)** ProStar Publications Edition 20 for 2016. All geographical features have GPS coordinates for emergency navigation. Sailing Directions are published by the National Geospatial- Intelligence Agency (NGA) under the authority of Department of Defense. Sailing Directions, covering the harbors, coasts, and waters of the world, provide information that cannot be shown graphically on nautical charts and is not readily available elsewhere. Sailing Directions (Planning Guide) are intended to assist mariners in planning ocean passages and to eliminate duplication by consolidating useful information about all the countries adjacent to a particular ocean basin in one volume. Planning Guide publications are compiled and structured in the alphabetical order of countries contained within the region covered by each publication. Sailing Directions (Enroute) include detailed coastal and port approach information which supplements the largest scale chart produced by the National Geospatial-Intelligence Agency.
