Introduction to Accounting and Finance Butterworth-Heinemann
 Based on International Financial Reporting Standards, this textbook was written by David Annand, Ed. D., M.B.A., C.P.A., C.A., Professor of Accounting in the Faculty of Business at Athabasca University. It contains 14 chapters on topics such as The Accounting Process, Cash and Receivables and Debt Financing. Each chapter includes questions and comprehension problems for self-study. Solutions are provided. Additional end-of-chapter assignment problems are also included. The second edition has been revised to incorporate minor changes. References to "balance sheet" have been changed to "statement of financial position", to align with preferred I.F.R.S. terminology. References to "income statement" have been changed to "statement of profit and loss." Some issues with page numbering and a few typographic errors have been rectified. The index has been expanded. The text is freely-sharable under a Creative Commons CC-BY-SA-NC license. The .pdf version of the text is extensively bookmarked for easy access and onscreen reading. Suggested solutions are linked to the appropriate material in this version. Separate .docx and .pdf versions of the text and student solutions manual are available. A 140-item exam bank, and a complete instructor's solutions manual to all text and exam bank material are available upon request to davida@athabascau.ca. A 900-page student workbook is also available in .pdf or docx formats. The workbook provides formatted outlines to all problems contained in the text and exam bank. Students can print outlines as they need them, and fill in responses manually.

Due to ongoing advancements in technology, new legislation, and other innovations, the field of finance is rapidly changing. Developments in financial markets and investments necessitate that students be exposed to these topics as well as to financial management, the traditional focus of the introductory finance course. Introduction to Finance develops the three components of finance in an interactive framework that is consistent with the responsibilities of all financial professionals, managers, intermediaries, and investors in today's economy. To show the interrelationships between the areas of finance, the text emphasizes how investor activities monitor firms and focuses on the role of financial markets in channeling funds from investors to firms.

Gapenski's Healthcare Finance: An Introduction to Accounting and Financial Management explores how healthcare organizations manage financial operations to optimally provide patient care. This significantly revised edition of one of Health Administration Press's best-selling books introduces the key foundational elements of healthcare finance, including both accounting and financial management. Numerous examples throughout showcase how healthcare finance is practiced in a variety of organizations, including hospitals, medical practices, clinics, home health agencies, nursing homes, and managed care organizations. Authors Kristin L. Reiter and Paula H. Song present the financial management and accounting concepts that are most critical to managerial decision-making. They emphasize not only financial theory and principles but also practical tools healthcare managers can use to make the crucial decisions that promote the financial well-being of their organization. Gapenski's Healthcare Finance examines the current financial environment in which providers operate, with an emphasis on health system design, healthcare insurance, and reimbursement methodologies. Dates, exhibits, references, and resources have been updated throughout. All examples and financial statements reflect current accounting and reporting standards. Extensive updates and content new to this seventh edition include: A discussion of health reform that reflects the current status of the Affordable Care Act; Information on the field's increasing focus on social determinants of health; Tax rates and examples that reflect the effects of the Tax Cuts and Jobs Act; A discussion of Medicaid expansion and health insurance exchanges; Coverage of the implications of value-based payment for the revenue cycle; Significant reorganization of the financial accounting chapters to orient students to financial accounting before the book's coverage of the income statement, statement of changes in equity, the balance sheet, and the statement of cash flows; A new chapter supplement provides expanded analysis of the double-entry accounting system; Amendments to

the financial accounting conceptual framework by the Financial Accounting Standards Board; Better differentiation of risk measures of realized vs. expected return distributions In a dynamic environment, healthcare leaders need to practice good financial decision-making for the health of their patients and the financial stability of their organization. From this book, current and future managers will understand the finance problems provider organizations face and how best to solve them.
