ROBERTS KIRK

Foundry McGraw-Hill/Irwin

This book profiles 12 writing centers that function effectively on their college and university campuses. Following an introduction that provides an overview and suggests ways the book can be used, the centers are examined in detail in the following chapters: (1) "A Multiservice Writing Lab in a Multiversity: The Purdue University Writing Lab" (Muriel Harris); (2) "The Writing Center at Medgar Evers College: Responding to the Winds of Change" (Brenda M. Greene); (3) "The Writing Centers at the University of Toledo: An Experiment in Collaboration" (Joan A Mullin and Luanne Momenee); (4) "The Lehigh University Writing Center: Creating a Community of Writers" (Edward Lotto); (5) "The Writing Center at the University of Southern California: Couches, Carrels, Computers, and Conversation" (Irene L. Clark); (6) "The Writing Center at Harvard University: A Student Centered Resource" (Linda Simon); (7) "The Writing Center at the University of Puget Sound: The Center of Academic Life" (Julie Neff); (8) "Establishing a Writing Center for the

Community: Johnson County Community College" (Ellen Mohr); (9) "Redefining Authority: Multicultural Students and Tutors at the Educational Opportunity Program Writing Center at the University of Washington" (Gail Y. Okawa); (10) "The Land-Grant Context: Utah State University's Writing Center" (Joyce A. Kinkead); (11) "Taking Tutoring on the Road: Utah State University's Rhetoric Associates Program" (Joyce A. Kinkead); and (12) "Moving toward an Electronic Writing Center at Colorado State University" (Dawn Rodrigues and Kathleen Kiefer). The book concludes with two items by Joyce A. Kinkead, an epilogue and an additional article, "The Scholarly Context: A Look at Themes," which offers information on some of the uses of writing labs. (NKA)
Power Plant Engineering National Academies Press
 Vol. for 1955 includes an issue with title Product design handbook issue; 1956, Product design digest issue; 1957, Design digest issue.

Die-Attach Materials for High Temperature Applications in Microelectronics Packaging DIANE Publishing

A guide to trade names, brand names, product names, coined names, model names, and design names, with addresses of their manufacturers, importers, marketers, or distributors.

Railway Electrical Engineer Springer

This book presents the scientific principles, processing conditions, probable failure mechanisms, and a description of reliability performance and equipment required for implementing high-temperature and lead-free die attach materials. In particular, it addresses the use of solder alloys, silver and copper sintering, and transient liquid-phase sintering. While different solder alloys have been used widely in the microelectronics industry, the implementation of sintering silver and transient liquid-phase sintering remains limited to a handful of companies. Hence, the book devotes many chapters to sintering technologies, while simultaneously providing only a cursory coverage of the more widespread techniques employing solder alloys. Addresses the differences between sintering and soldering (the current die-attach technologies), thereby comprehensively addressing principles, methods, and performance of these high-temperature die-attach materials; Emphasizes the industrial perspective, with chapters written by engineers who have hands-on experience using these technologies; Baker Hughes, Bosch and ON Semiconductor, are represented as well as materials suppliers such as Indium; Simultaneously provides the detailed science underlying these technologies by leading academic researchers in the field.

Twelve Case Studies South-Western Pub

A particularly valuable opportunity to improve public health arises when an urban area is being redesigned and rebuilt following some type of serious disruption, whether it is caused by a sudden physical event, such as a hurricane or earthquake, or steady economic and social decline that may have occurred over decades. On November 10, 2014, the Institute of Medicine's Roundtable on Environmental Health Sciences, Research, and Medicine held a workshop concerning the ways in which the urban environment, conceived broadly from factors such as air quality and walkability to factors such as access to fresh foods and social support systems, can affect health. Participants explored the various opportunities to reimagine the built environment in a city and to increase the role of health promotion and protection during the process of urban revitalization. Bringing Public Health into Urban Revitalization summarizes the presentations and discussions from this workshop.

Building-Integrated Photovoltaic Designs for Commercial and Institutional Structures: A Sourcebook for Architects National Council of Teachers

"[This book is] the most authoritative assessment of the advantages and disadvantages of recent trends toward the commercialization of health care," says Robert Pear of The New York Times. This major study by the Institute of Medicine examines virtually all aspects of for-profit health care in the United States, including the quality and availability of health care, the cost of medical care, access to financial capital, implications for education and research, and the fiduciary role of the physician. In addition to the report, the book contains 15 papers by experts in the field of for-profit health care covering a broad range of topics--from trends in the growth of major investor-owned hospital companies to the ethical issues in for-profit health care. "The report makes a lasting contribution to the health policy literature."--Journal of Health Politics, Policy and Law.

Bringing Public Health into Urban Revitalization National Academies Press

This collection of 24 essays explores what happens when proponents of writing across the curriculum (WAC) use the latest computer-mediated tools and techniques--including e-mail,

asynchronous learning networks, MOOs, and the World Wide Web--to expand and enrich their teaching practices, especially the teaching of writing. Essays and their authors are: (1) "Using Computers to Expand the Role of Writing Centers" (Muriel Harris); (2) "Writing across the Curriculum Encounters Asynchronous Learning Networks" (Gail E. Hawisher and Michael A. Pemberton); (3) "Building a Writing-Intensive Multimedia Curriculum" (Mary E. Hocks and Daniele Bascelli); (4) "Communication across the Curriculum and Institutional Culture" (Mike Palmquist; Kate Kiefer; Donald E. Zimmerman); (5) "Creating a Community of Teachers and Tutors" (Joe Essid and Dona J. Hickey); (6) "From Case to Virtual Case: A Journey in Experiential Learning" (Peter M. Saunders); (7) "Composing Human-Computer Interfaces across the Curriculum in Engineering Schools" (Stuart A. Selber and Bill Karis); (8) "InterQuest: Designing a Communication-Intensive Web-Based Course" (Scott A. Chadwick and Jon Dorbolo); (9) "Teacher Training: A Blueprint for Action Using the World Wide Web" (Todd Taylor); (10) "Accommodation and Resistance on (the Color) Line: Black Writers Meet White Artists on the Internet" (Teresa M. Redd); (11) "International E-mail Debate" (Linda K. Shamoon); (12) "E-mail in an Interdisciplinary Context" (Dennis A. Lynch); (13) "Creativity, Collaboration, and Computers" (Margaret Portillo and Gail Summerskill Cummins); (14) "COLlaboratory: MOOs, Museums, and Mentors" (Margit Misangyi Watts and Michael Bertsch); (15) "Weaving Guilford's Web" (Michael B. Strickland and Robert M. Whitnell); (16) "Pig Tales: Literature inside the Pen of Electronic Writing" (Katherine M. Fischer); (17) "E-Journals: Writing to Learn in the Literature Classroom" (Paula Gillespie); (18) "E-mailing Biology: Facing the Biochallenge" (Deborah M. Langsam and Kathleen Blake Yancey); (19) "Computer-Supported Collaboration in an Accounting Class" (Carol F. Venable and Gretchen N. Vik); (20) "Electronic Tools to Redesign a Marketing Course" (Randall S. Hansen); (21) Network Discussions for Teaching Western Civilization" (Maryanne Felter and Daniel F. Schultz); (22) "Math Learning through Electronic Journaling" (Robert Wolfe); (23) "Electronic Communities in Philosophy Classrooms"

(Gary L. Hardcastle and Valerie Gray Hardcastle); and (24) "Electronic Conferencing in an Interdisciplinary Humanities Course" (Mary Ann Krajnik Crawford; Kathleen Geissler; M. Rini Hughes; Jeffrey Miller). A glossary and an index are included. (NKA)

Cases Argued and Determined in the Courts of Arkansas, Kentucky, Missouri, Tennessee, Texas : with Key Number Annotations Strategic Cost AnalysisThe Evolution from Managerial to Strategic Accounting

Designed to augment managerial and cost accounting study, *Cases in Cost Management* develops the ability to apply cost analysis to decision-making situations. Thoroughly tested and proven highly effective, the cases provide challenging and fun problems that help build skills with managerial and cost accounting techniques. Based on real-life scenarios, the cases give the opportunity to analyze the situation, decide which accounting concept is most appropriate, and apply the concept as the manager of a firm.
